## ALEX KIDD IN MIRACLE WORLD (MS)

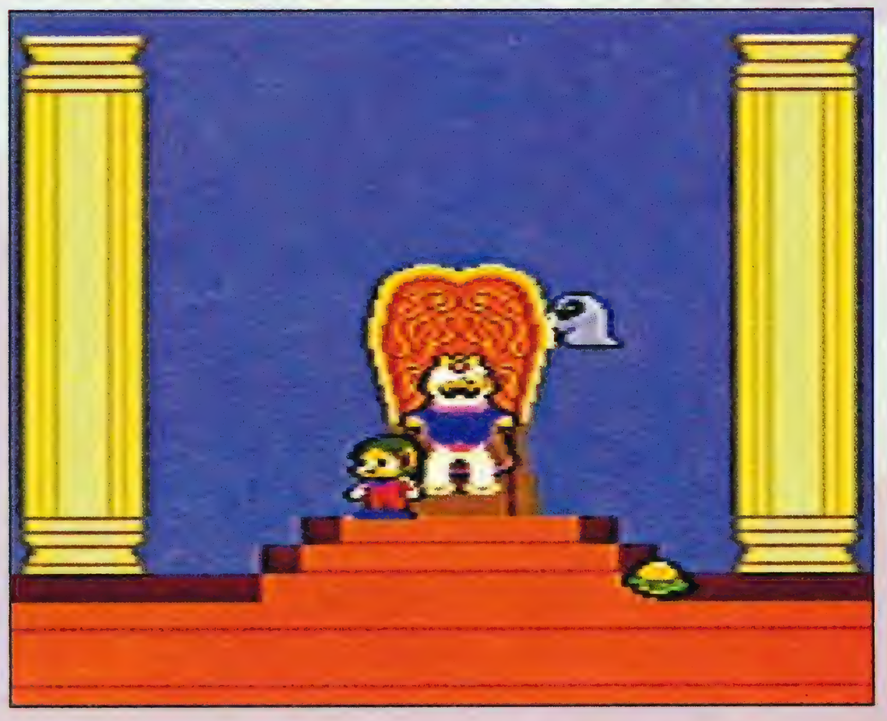

### HOW DO YOU GET PAST THE LAST LEVEL?

S McLough, Manchester

Here's how it works. At the start of the level, fall into the water and go to the left side to kill the first two little fish. Kill the Merman and drop down into the gap to enter a small room. Go up to the door and open it by using the moonlight and sun stone. Go through and you'll face some pink blocks. These need to be stepped on in this order; sun, waves, moon, star, sun, moon, waves, fish, star, fish.

Before your very eyes a crown should appear, but to get it you'll need to take a good run up to leap those spikes. Once done, sit back and enjoy those elusive game over screens. Hoorah and lashings of ginger beer!

## HOW DO YOU GET INTO THE UNDERGROUND TUNNELS IN ACT 1 OF THE HILL TOP ZONE?

**Christina James, Musselburgh**

I think the part you're refering to Christina, is the tunnels that are blocked at the top by rocks. What you need to do is spin into them whilst performing a jump. As you make contact you'll smash the rock into pieces and fall past into the delights of the tunnels below. Zoom around the loop at the top to get enough speed and then press Down as you make contact with the ground.

No problem! Have a look in the Busters section for more funky cheats and the infamous level select.

## LEMMINGS (MD)

**I AM STUCK ON LEVEL 26 ON TAXING. CAN YOU HELP ME?**
**Paul White, Southampton**

Get the first Lemming to dig down to the right of the trap, then start the second Lemming digging when he reaches the solid section. When he has dug down a bit, turn him into a miner and dig through two sections of rock, then turn him back to a digger. Now on the right and left sections, make one Lemming a climber. As soon as he gets to the top of the platform, turn him into a builder until he gets to the middle section where the exit is. When the top Lemming has dug right down to the level where the bridge will touch, turn him into a basher and then let him drop into the lava. Now do the same for the Lemmings on the right and the rest of the Lemmings will head straight for the exit. Hope that helps you, Paul.

**FULL SOLUTION THIS ISSUE!**

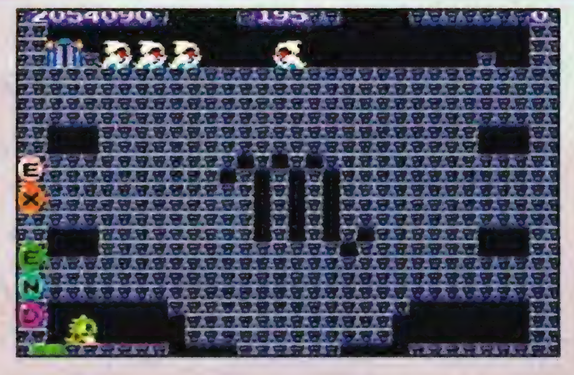

## BUBBLE BOBBLE (MS)

**I CANNOT FIND THE GREEN AND RED MIRRORS AND KEYS; HOW DO I GET THEM?**
**Kim Williams, Swansea**

The Key is found on level 115 and is essential for Bub's progress. The crucial element to this level is not to complete the level before the door has appeared. It is probably best to kill most of the Fire Breathers and await the appearance of the door.

The first mirror will be yours once you have entered the door at the top of the screen – it will appear at the beginning of the level. Jump through the bottom gap, as you fall through the top be quick and encase the baddies in bubble whilst simultaneously heading directly for the door – avoid confrontation.

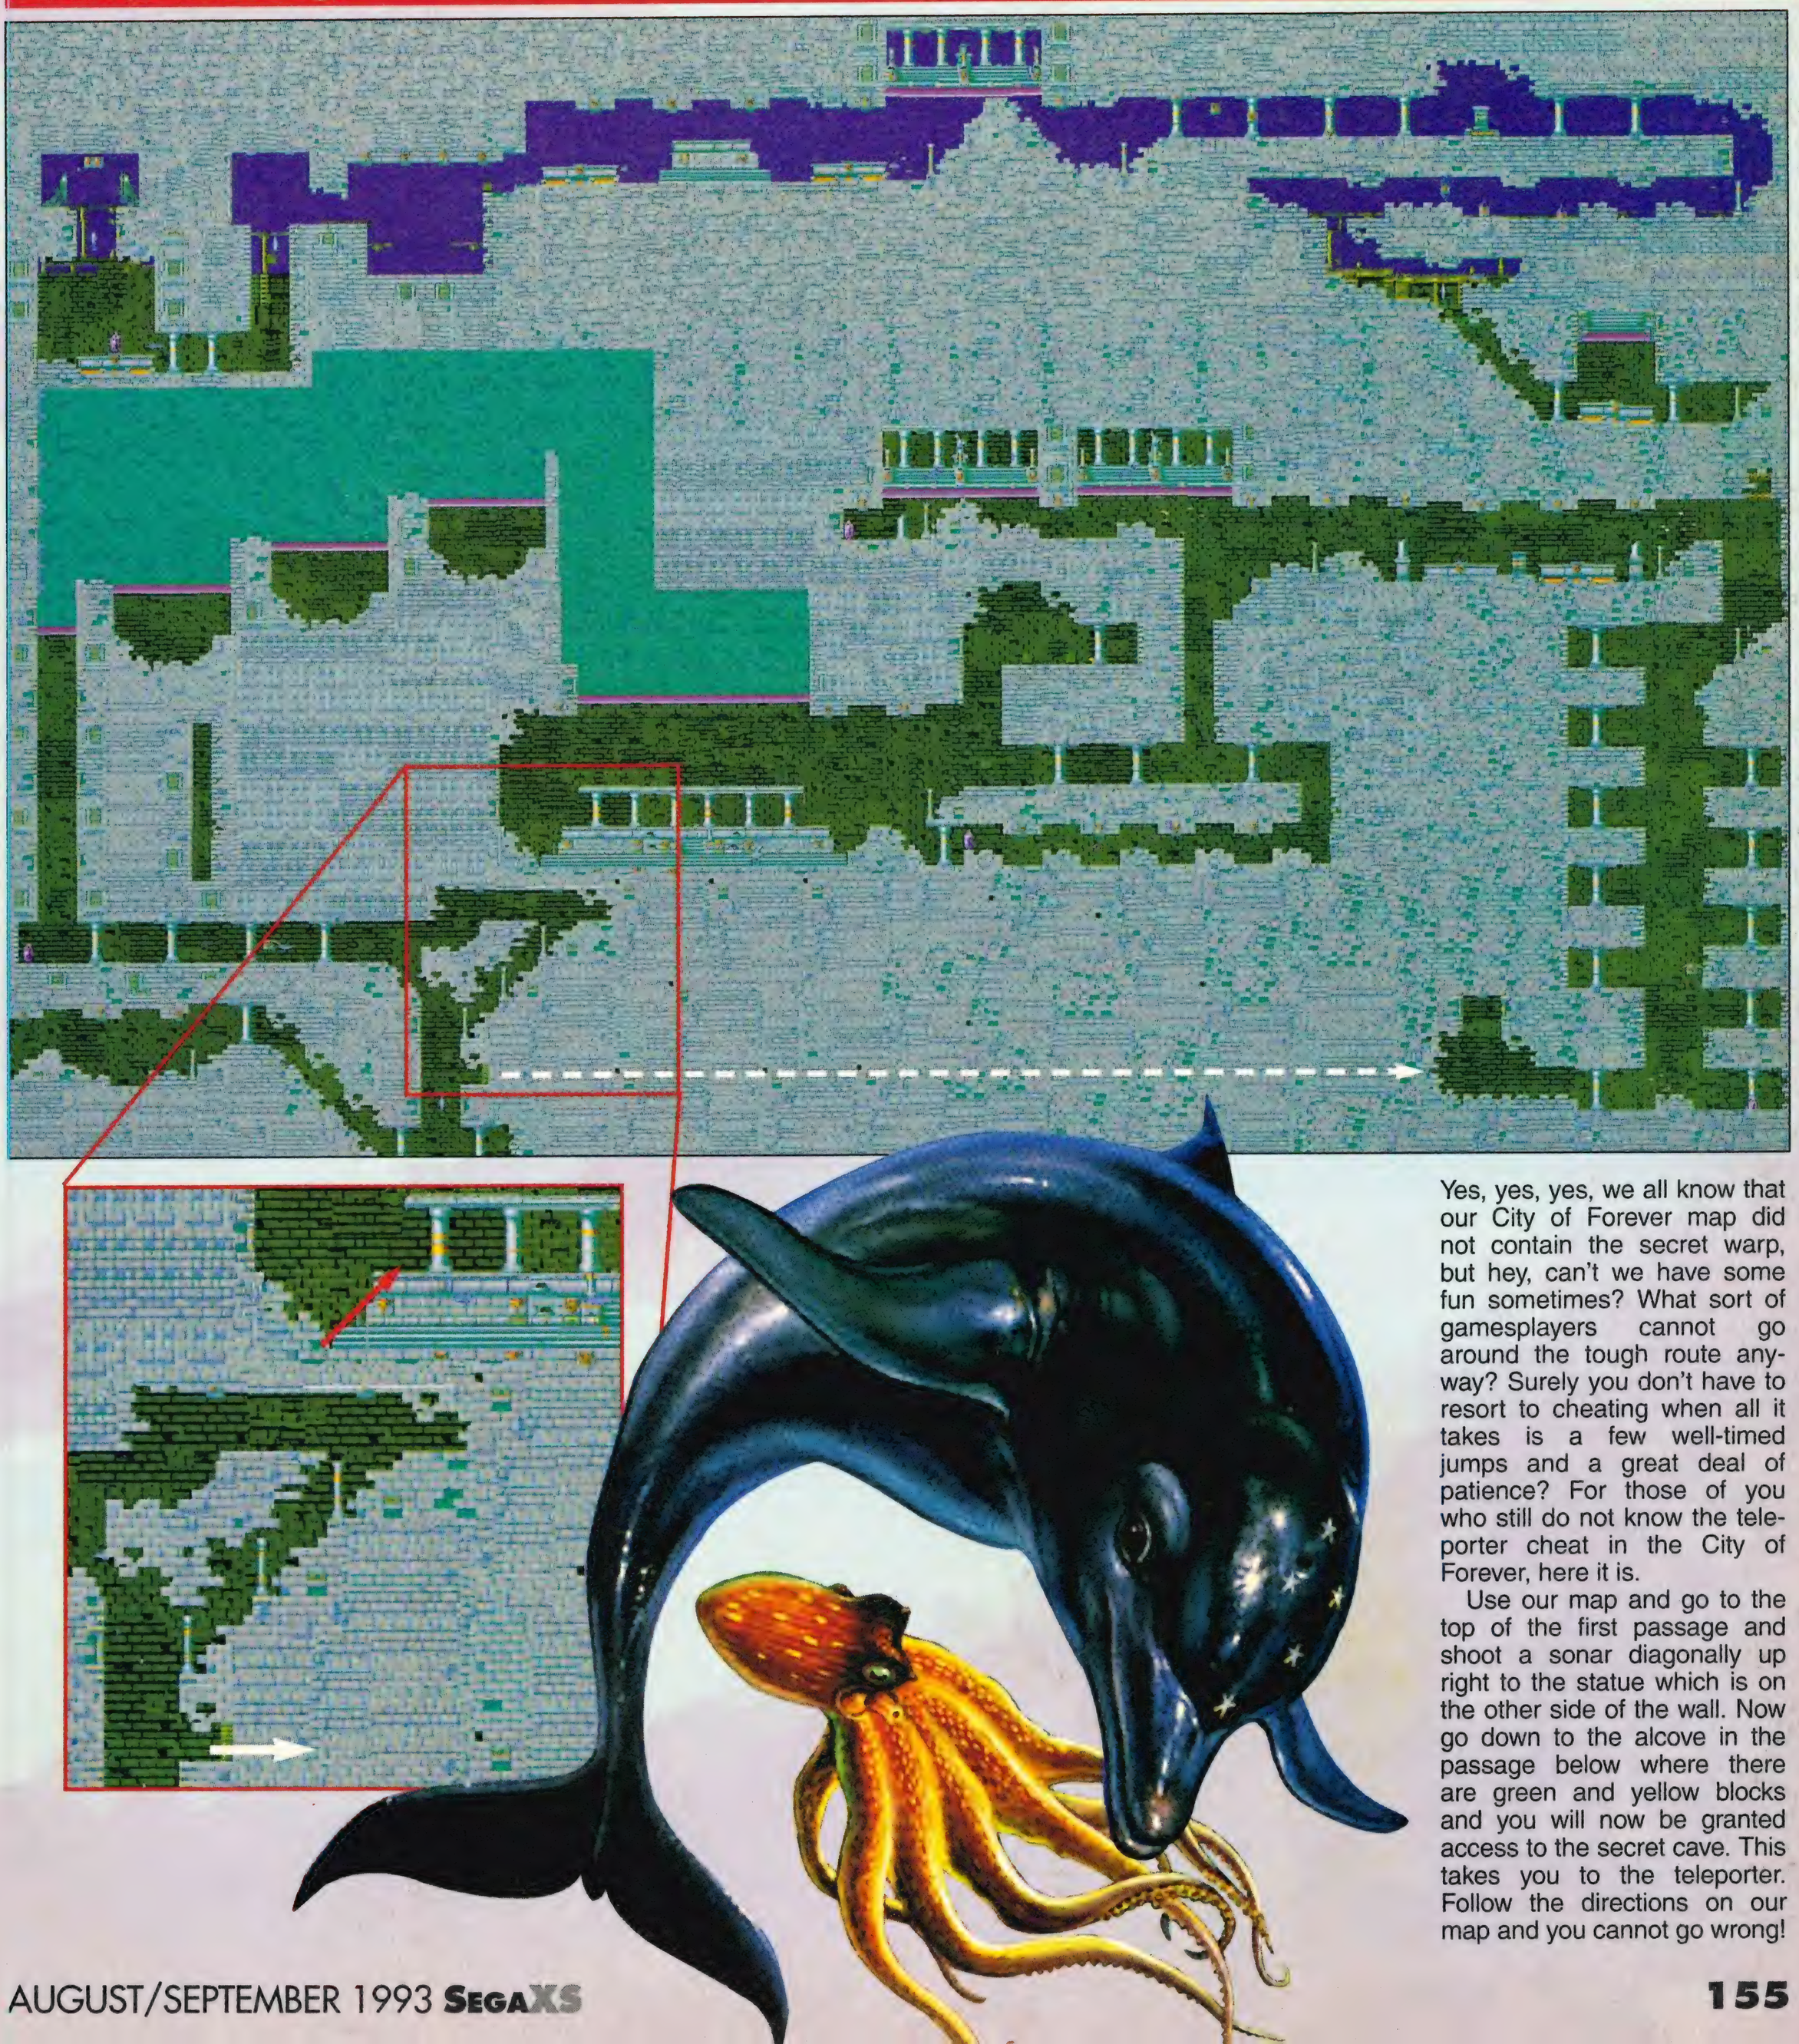

As can be seen (right) level 195 begins with the portal door readily awaiting the entrance of our dragon hero, Bub. To get to it is but a process of bubble jumping, blowing bubbles to the right and jumping on them will enable you to reach the door without encountering the Super Rock Thrower's evil antics. Once through the door you will see the green mirror awaiting your collection. The final icon is now yours, so now you can go and defeat the final guardian without any trouble!

# ECCO THE DOLPHIN (MD)

## HA HA, JON EVES FORGOT THE SECRET WARP IN THE CITY OF FOREVER!

Dean, Stourbridge

Yes, yes, yes, we all know that our City of Forever map did not contain the secret warp, but hey, can't we have some fun sometimes? What sort of gamesplayers cannot go around the tough route anyway? Surely you don't have to resort to cheating when all it takes is a few well-timed jumps and a great deal of patience? For those of you who still do not know the teleporter cheat in the City of Forever, here it is.

Use our map and go to the top of the first passage and shoot a sonar diagonally up right to the statue which is on the other side of the wall. Now go down to the alcove in the passage below where there are green and yellow blocks and you will now be granted access to the secret cave. This takes you to the teleporter. Follow the directions on our map and you cannot go wrong!

# FLASHBACK (MD)

## I'VE TRIED EVERYTHING, BUT I CAN'T GET THE PACKAGE ON LEVEL TWO. PLEASE HELP!

Paul Davies, London

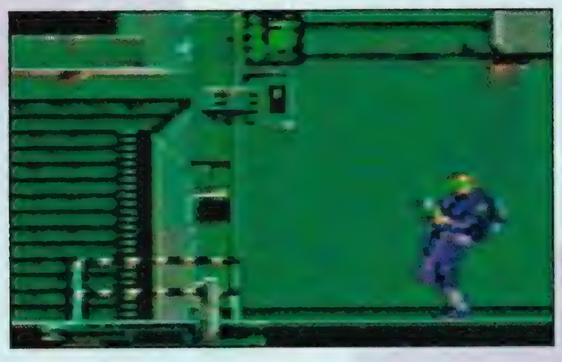

Well, we thought that the *Flashback* solution (as penned by our illustrious Ed) was pretty comprehensive but you could get caught out by some of the tasks you have to perform. To get the package, first you must have a work permit from Africa. Go to the people on reception and you will ask about the permit and then be shown upstairs. When you have finished with the mad old ladies on the three desks, you will be ushered in to see the controller. Give him your ID card and he will give you the permit which is inserted in the work machines.

Now go to Europa where the job centre is, and go to the machine that has the text scrolling on the screen. If you face the screen you will get a review of the first job which is to collect the package from Asia and deliver it to Africa. When you have read the screen, make sure you hold your work permit and insert it into the machine.

You will only have the job when you see that it has been verified.

The next stage is to go to the room on the far right at the top of Asia where there is a Titan Travel poster and a woman at the desk. Face her and you will be handed the package

which must be deposited at the same type of desk in Africa. The only obstacle is a gun-toting cop who must be shot outside the office.

The main reasons why you cannot find the package, Paul, is that you either have not verified the job or you haven't got your work permit yet. Dr M has spoken!

## PLEASE HELP ME GET PAST THE PLASMA BEAM ON LEVEL 4-1!

Mike Stitch, Yorkshire

Those wimps at SEGA XS took ages to get past this section, but of course I breezed through it, no problem – ha! The way to get past to the air vent beyond is to begin running as soon as you see the beam appear behind you, then time your leaps over the bombs to avoid them. There is a pit in the second screen and you need to press jump as soon as you appear on the screen if you're going to have a chance of making it. On the next screen, press down right to roll into it and you should fly right underneath the energy ball waiting to zap you. Quickly shoot the ball (if you try to pistol-whip it, it takes too long and the beam gets you) and after three hits, it explodes and the door to the air vents will open.

This section requires precise timing as just one mistake means instant death. The key to completing it is stand far enough from the energy ball so that you get a clean shot and not try to hit it with your gun barrel. If you can leap the pit and miss the bombs successfully then you will have more time to deal with the energy ball.

## GREAT SOLUTION, GUYS, BUT HOW DO I COMPLETE THE GAME?

Helen Milou, Hastings

Fear not, Helen, your problem has been voiced by many people over the phone recently, but the solution is very simple. From your letter, you are right at the end of the game but you haven't considered how fiendish the programmers are! Once you have placed the atomic charge and the whole place shakes, run back out onto the main corridor and then all the way right through the door that was previously locked. You will now be in a room with a spaceship, but no way of getting out. Now, this is the tricky bit; stand just to the right of the leg strut and then press up. That's it! You will now be taken into the ship by the hidden lift and see the game over sequences.

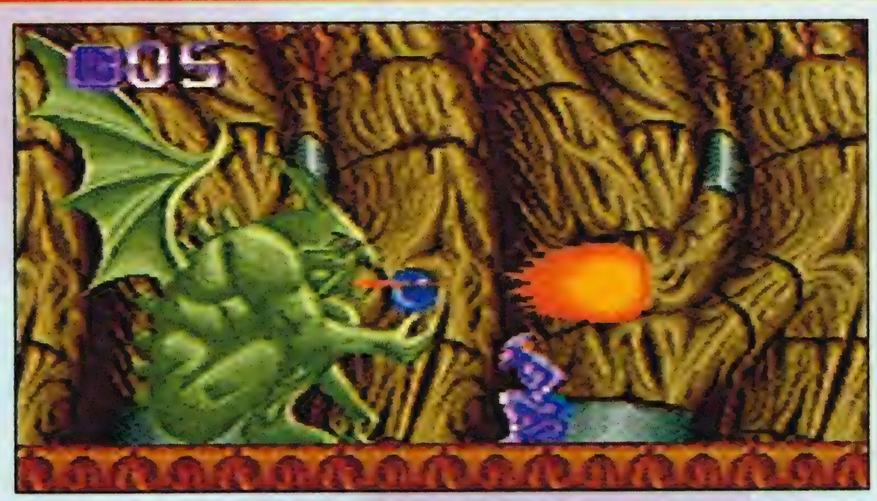

# SHADOW OF THE BEAST (MD)

## HOW DO I OPEN THE WELL DOOR AND WHAT'S THE TORCH FOR?

Adam Snape, Manchester

The key to the door on the other side of Hydrass is opened using the round gold key found on the platform below the Keeper of the Orb on level one. This door does in fact lead you into the well which is the only way out of this level. Incidentally, if you want an extra life, why not drop the gold coin in the well. Also, Adam, the torch you were wandering about is used in the castle to see where you are going. Without it, you are plunged into darkness.

# REVENGE OF SHINOBI (MD)

## IT SAYS IN THE MANUAL THAT YOU CAN START ON ANY LEVEL. IS THIS TRUE?

T Lummings, Nelson

We don't know if there is a level select for this classic platform Ninja-'em-up so if anybody has any information, please give us a call. We do however have a plethora of codes for the Action Replay if you want to make the game easier. Try these:

# JAMES POND II: ROBOCOD (MD)

## I'VE HEARD ABOUT THE SECRET DOOR AT THE TOP OF THE CASTLE, HOW CAN I REACH IT?

T Lummings, Nelson

The best way to get this cheat is to obtain the invincibility cheat by collecting the objects on the first roof in order to spell "CHEAT" (Cake, Hammer, Earth, Apple, Tap). Now go to the bathtub level (the one with the bath and the bubbles) and complete it. Now go to the two gold statues on the far right of the castle. If you look, there is also a secret room below the statues. If you now leap on the statues, they will go up and you must ride them right to the top where a secret door is waiting. Leap across the gap to the door and collect all the secret bonus for loads of extra points. Now that's magic!

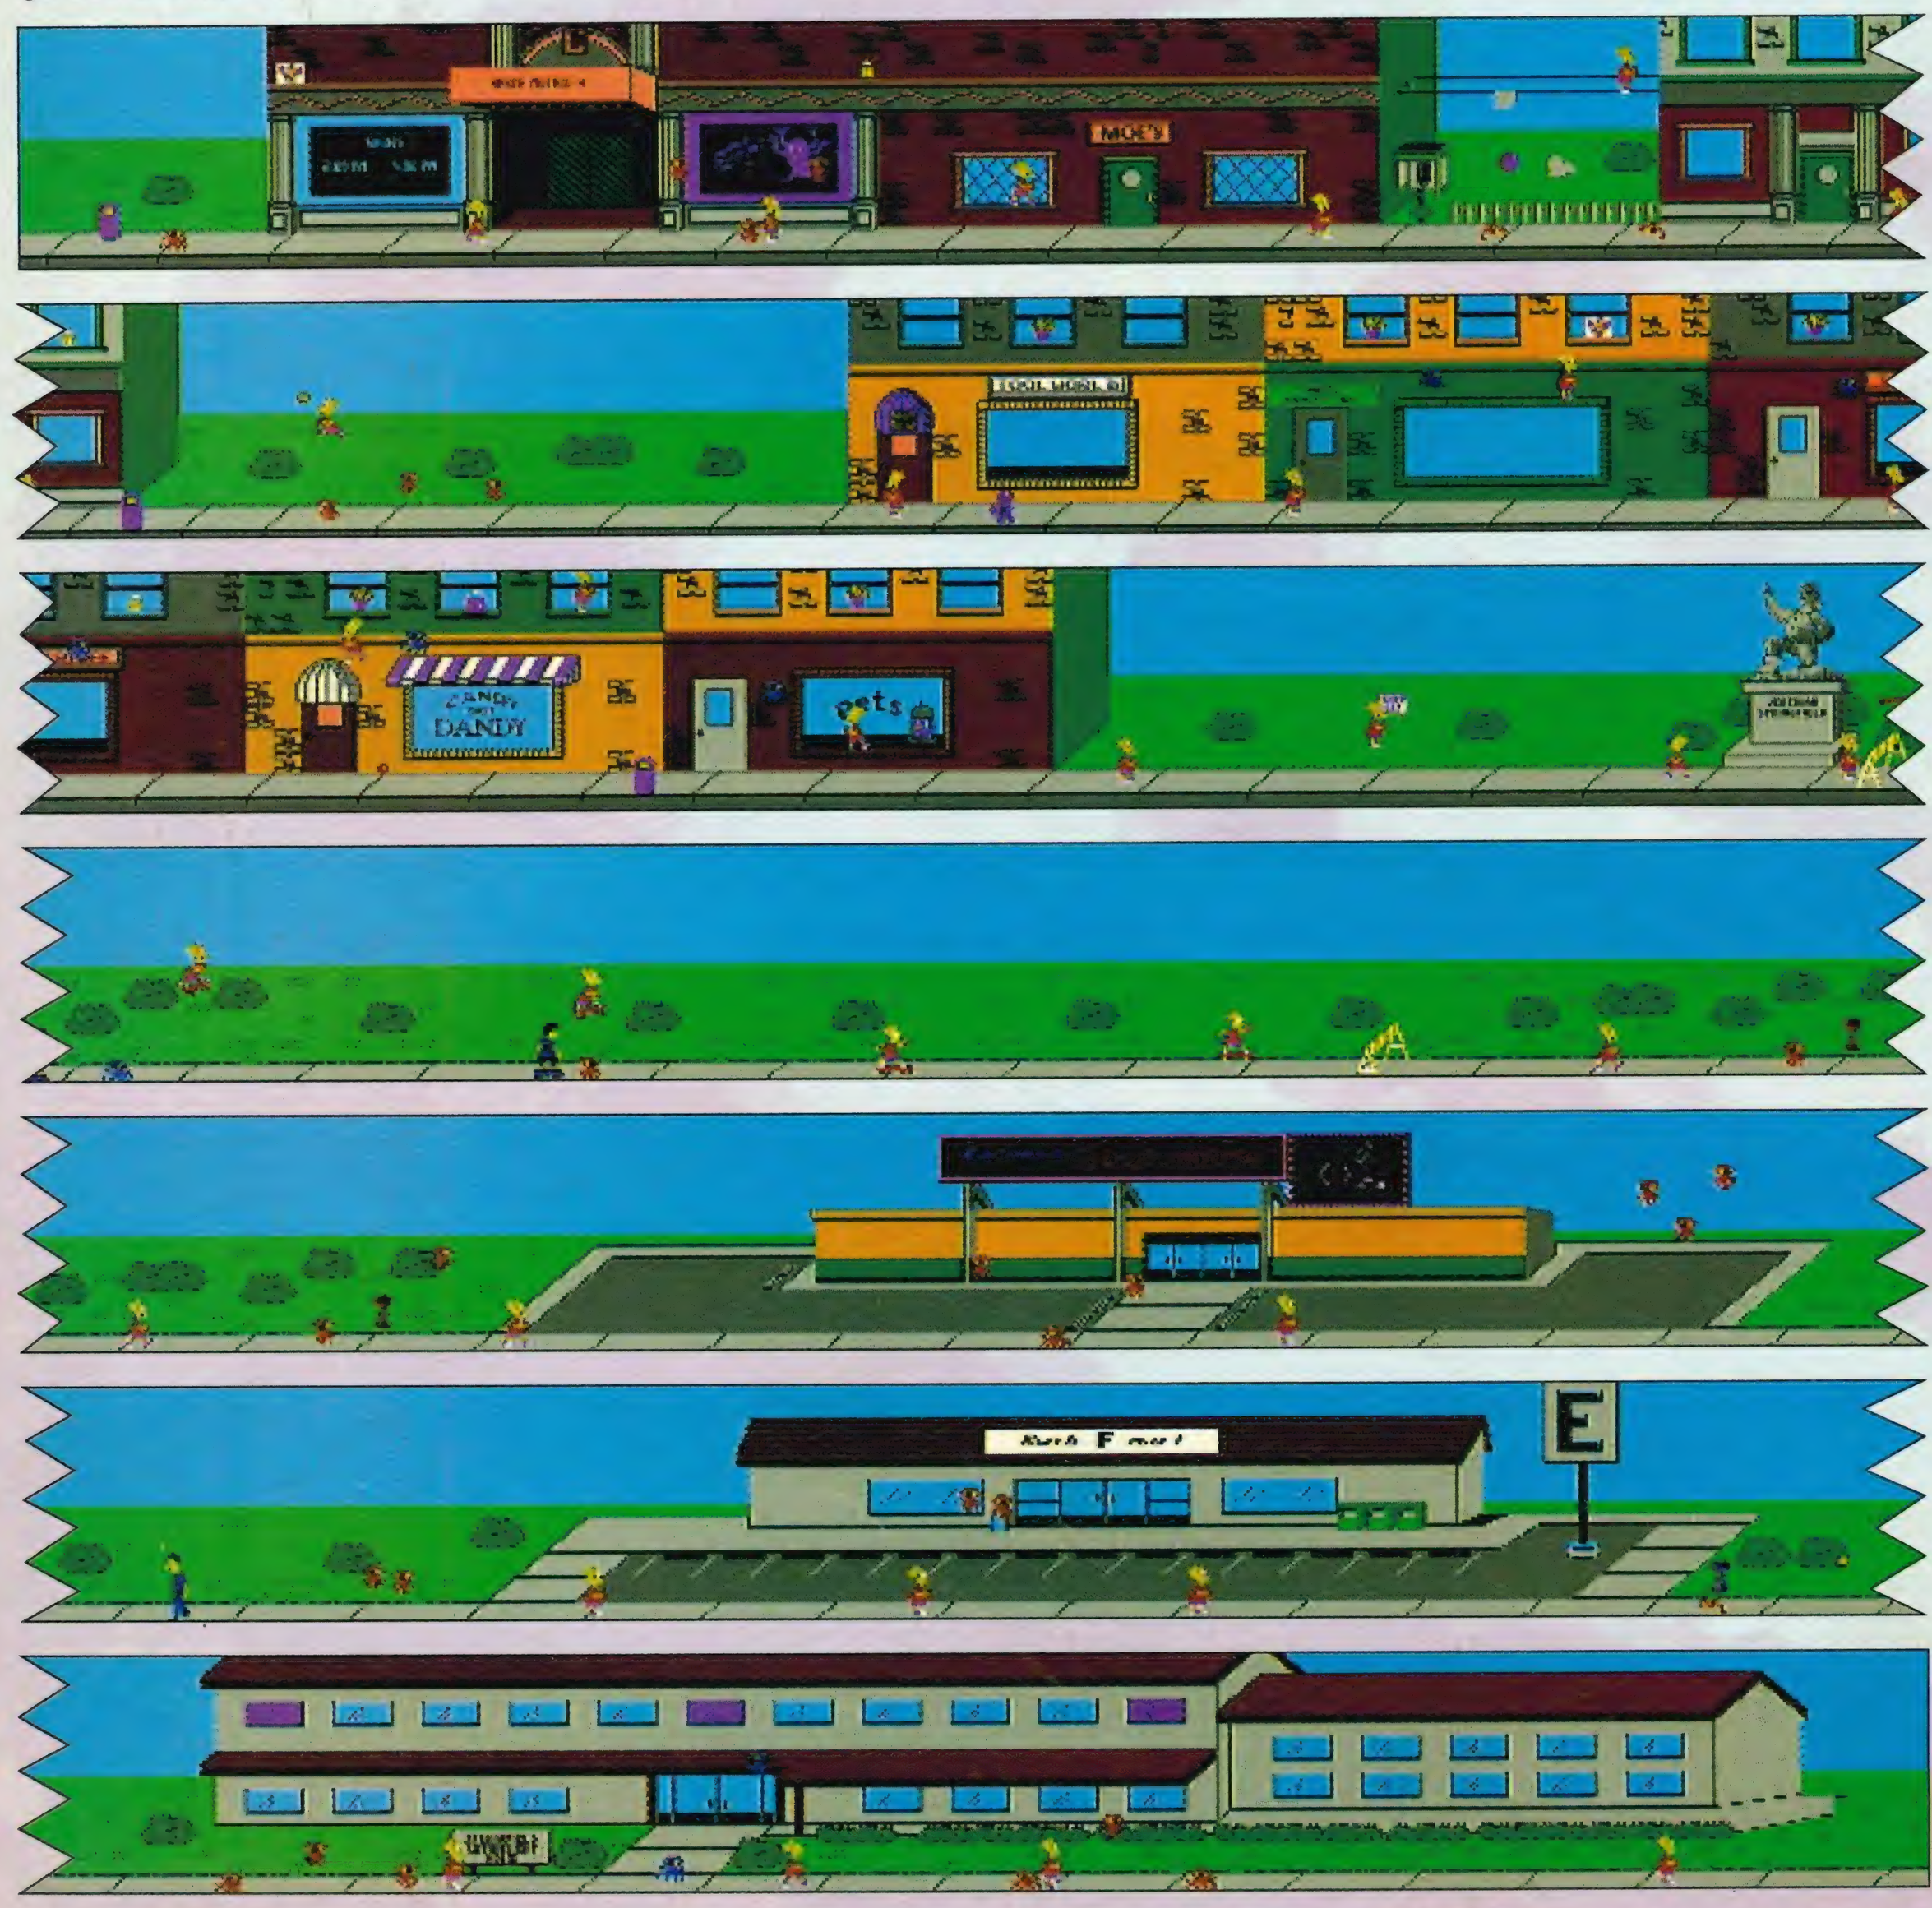

# BART VS THE SPACE MUTANTS (MD)

## I'VE ONLY FOUND 20 OF THE 24 OBJECTS TO SPRAY. WHAT ELSE DO I NEED?

**Miss M Tiltman, Eastbourne**

Well Miss M (no relation – honest), the objects you need to spray red are the bird on the statue, the Bowlarama sign and the windows in the retirement home. Here's how to get them all and proceed to level two.

The bird can be sprayed if you stand on the joint on the pavement which is one slab away from the statue. Select a rocket at this point and then walk over it to fire it up at the bird and spray it. The Bowlarama sign can be sprayed if you stand really close to the floating alien and use the rocket. Finally, the windows in the Springfield retirement home are sprayed by again using the rockets, but remember to find out their line of fire to be accurate. A useful little warp to remember is that if you jump between the two aliens outside the retirement home and use the key, you will be warped back to Mo's tavern.

# SONIC 2 (MD)

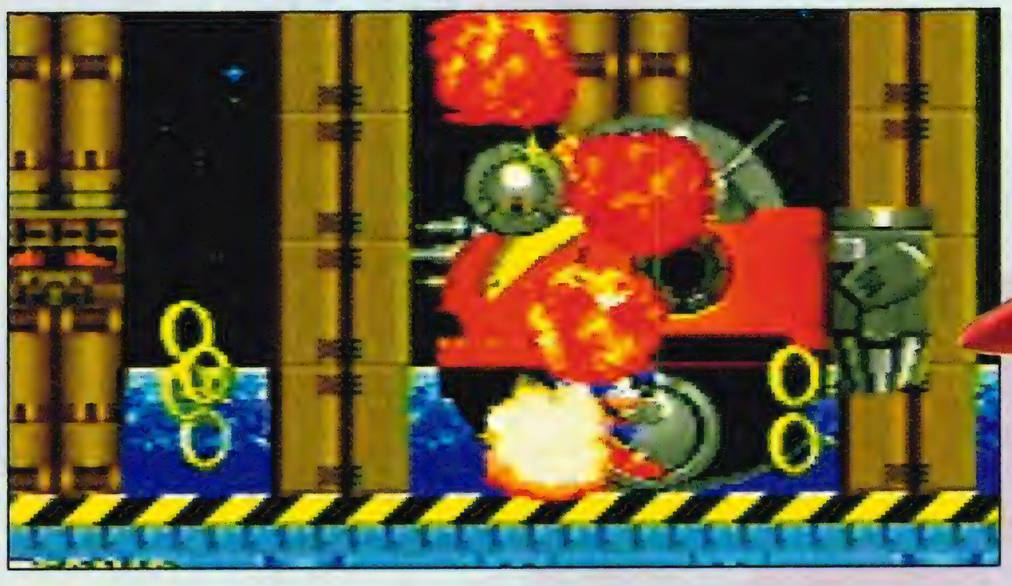

## I CAN CONFRONT DR ROBOTNIK, BUT I CAN'T DEFEAT HIM. CAN YOU HELP ME?

Nicki Berry

There is a very simple way to defeat Dr Robotnik, Nicki. When you reach him, only hit him from below or you will lose a life. If Robotnik targets you with his rocket sights, quickly roll to the left or right to break the lock. Now repeat the process by hitting him from below and after ten hits, he's history!

As for the stage select, all you have to do is select the sounds as described in Busters, and wait for each sound to play right through before going onto the next step.

# THE IMMORTAL (MD)

## HOW DO YOU COMPLETE THE WHIRLPOOL LEVEL?

Terry Haynes, Bristol

This is a blast from the past and definitely one of the best games for the Mega Drive, even two years later. To get past the whirlpool level, paddle up and round the twisty bit on the right. At the end of the corridor is the sea monster who must be drowned in the whirlpool. Edge your barrel to the monster and as soon as it disappears into the depths, turn and paddle away furiously. You may notice that a goblin is lowered down to open the flood gates. Keep paddling back around the waterways, cutting close to the corners but not touching them or you will be slowed down and the monster will get you. Bubbles will appear behind you and this is the monster following. Keep ahead of these at all costs or it will drag you down in a pool of blood. Once you get past the ladder where you entered the level you must paddle into the heart of the whirlpool to complete the level. After a few seconds you will see the monster follow you down, but you will be saved by the goblins in thanks for killing the monster. You will now have completed the level.

# NIGHT TRAP (CD)

### HOW DO I SAVE LISA FROM CERTAIN DEATH?

Nick Fowler, Huntingdon

Well Nick, your letter has come in perfect timing as this issue we have the full and complete solution to *Night Trap*, but I will answer your query anyway. Go into the front room and listen to Tony change the codes, then change your code to suit. After this, Lisa will be attacked by the oggers in the bathroom. When they attack her, one of the oggers will step on the trap, set off the trap and she'll run away and jump out of the window. However, you must remember to get to the bathroom as quickly as possible or you will have missed the trap and Lisa will have her neck drilled by the hideous creatures. Charming!

# ANOTHER WORLD (MD)

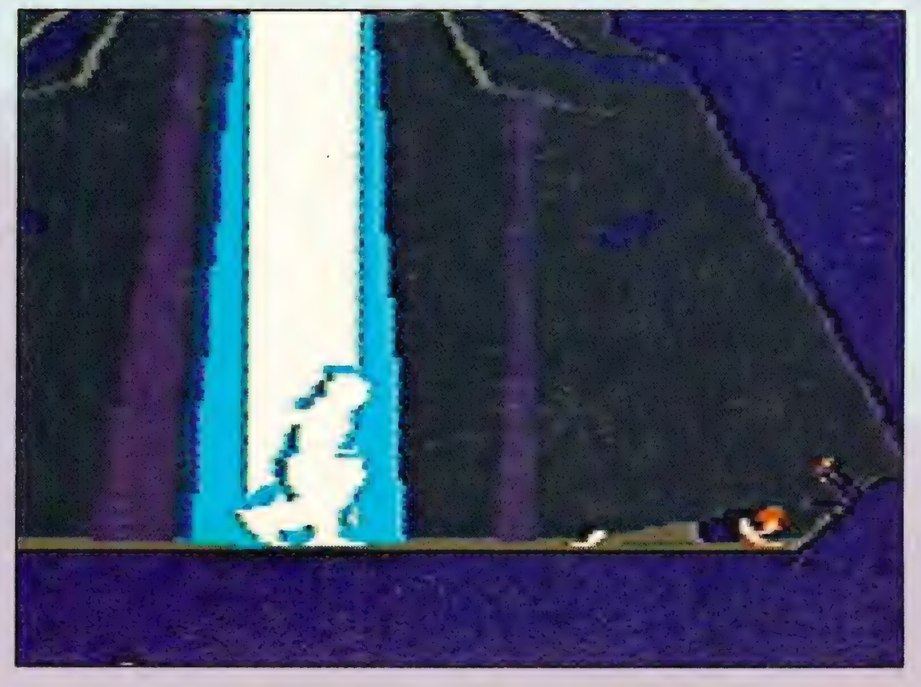

### WHAT ARE THE CHEATS FOR THIS GAME?

Austin Fitzsimmons, Wigan

Oh dear, if we had any cheats, don't you think they would be in the Busters section? Oh, never mind. I chose this letter because the word 'help' was written in pitifully large letters at the top. I'm afraid cheats are very sparse for this particular game, but I am equipped with level passwords for each stage of the game. Hold on to your hats, here we go:

| Level 1 | – | LDKD |
| Level 2 | – | HTDC |

# DESERT STRIKE (MD)

## HOW DO I COMPLETE LEVEL 2?

Katheryn Slattery, Cleveland

Well Katheryn, seeing as we get very few letters from our female readers I will answer your question in my best gaming trousers. As for cheats, there are none that you haven't used already, but the problem you are having is a toughie. It's in the POW camp, and I remember I had some trouble here many moons ago. What you do is play the whole game without taking any fuel or weapons from the surrounding area of the camp. When you get to the camp, shoot out the look out posts first; without flying over the camp. Next, shoot the building, then pick up a few hostages. Do not collect all of them as a tank will roll in and blow you up. Remember, the key to this part is to destroy the tanks first, then nip in and out as quickly as possible. If you attack the camp before completing all of the other missions, the gunners will be fully prepared and will blow you out of the sky. Also, remember to only attack one tower at a time as this will mean you only have to worry about one gun. Good luck.

# BATMAN (MS)

## THERE IS AN IMPASSABLE GAP ON LEVEL 4, ROUTE 2-2; HOW DO I GET PAST?

Miss N Clover-Brown, Iwerne Minster

I understand your condition wholeheartedly and see the problem. What you have to do is climb onto the pipe and swing across onto the demon's head. Then when you have landed, turn around to face the way you have just come. Jump into the air and fire your grappling hook onto the top of the bricks that are jutting out. Pull your caped crusader to about three quarters of the way up the rope and swing on the short piece of rope you have left. When you are at the optimum height at the left of the bricks, press jump and push Batman to the right and he should leap up onto the top of the bricks. This may take some practise, but it can be done – trust me.

# SUPER HANG-ON (MD)

## THE CODE FOR HANG-ON DOESN'T WORK: CAN YOU HELP?

Robert Hill, Somerset

I do apologise for the code not working, but as you probably know the same consoles and games come in varied formats (imports, exports etc). Anyway, I will throw in another code for you. This one allows you begin the game with a disgusting amount of lovely lolly:
`5FF3F540F33504FFHWKJOMBJOF-DU`.

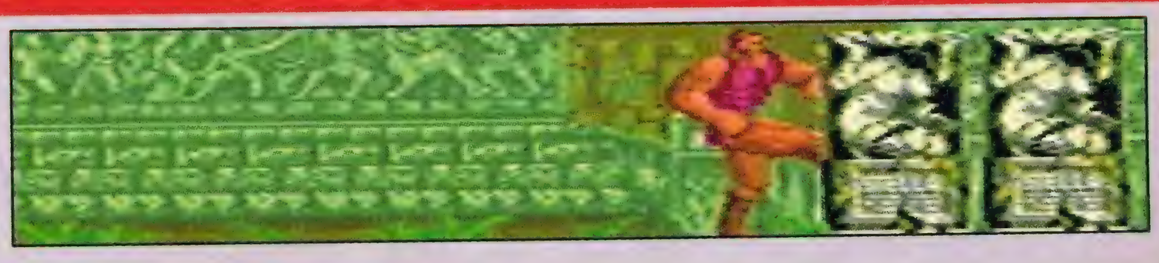

# ALTERED BEAST (MD)

## HOW DO I DEFEAT HEFF ON LEVEL 5

Paul Fnarr, Penn Rith

I thought that through my varied and expansive career as game guru, we had laid this baby to rest, but I guess it just reared its wolfy head once again. The strategy for this level is quite simple. Kneel down and use your golden fire. If you do it properly, Neff'll keep punching at the air above you, while you set him ablaze. Neff might kick you occasionally, but it won't hurt you too much. I hope that puts an end to that guardian, Paul.

# STREETS OF RAGE II (MD)

**PLEASE EXPLAIN THE CHEATS TO PLAY THE SAME CHARACTER!**
Muhammed Fostok, London

Right, Muhammed, listen carefully for I am only going to say this once. First plug in both controllers, done? Good, now press Right and the B button on controller one. On controller two, press Left and the A button. Now hold all of these buttons down and press C on the second controller. When you have accomplished this you will be able to select the same character. Oh dear, I am so kind.

# PHANTASY STAR (MS)

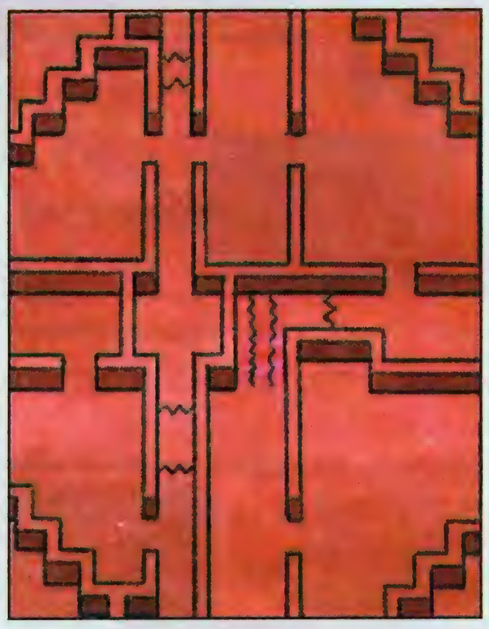

**I CAN'T SEEM TO FIND THE ARMOUR OF GUAROH. PLEASE HELP!**
M Walker, Mountsorrel

I was a little confused by the question as there is no Guaron Armour that is relative to the conquest of the game. So in my endeavours, I presume you mean the Laconian Armour as you retrieve it from the Guaron Morgue. Go through the three tunnels that lead away from Skure. Proceed left. You will find a place, all the way to the left, where you can use your ice digger to dig south through the mountains to a lone cave. Make your way through the cave; killing all the Titans. When you kill the correct one, there will be a chest containing the **PRISM** left behind.

Exit the cave, proceed north and you will find the tunnel leading to the Corona Tower (dark red inside). Make your way through the Tower, and eventually, you will find a **DEZORIAN**, who will ask you if you want to trade the amber eye for the torch. Tell him "yes" and you will receive the **TORCH**.

Proceed back through the tunnel. Exit the tunnel, head north, and you will find the Guaron Morgue (everything you fight in here are zombies!). Make your way through the Guaron Morgue using **NOAH'S** "Tele" spell. There is a pit trap in front of one of the doors. Stand before it and use **MYAU'S** "Trap" spell to disarm the trap. Enter the door to find the chest, which contains the **LACONIAN ARMOUR**.

# REVENGE OF SHINBOI (MD)

**I AM STUCK ON DISTRICT 8 – THE CELLAR MAZE. CAN YOU HELP?**
Scott French, Macduff, Scotland

I tried to think of a corny anecdote to start the reply, but I couldn't so here goes. As you progress through the maze you will find a wall that doesn't reach the ceiling (close to the large black area with all the boxes). Jump and somersault over the wall and you will land right next to a door. Jump over that door and take the next one to the right. You will be in a room with pillars coming down from the ceiling, and boxes on each side of you (they contain power-ups). Pick up the power-up and go left to the first door. You will now be in a room with flying ninjas. Continue to the left and you will find two doors on top of each other. Take the bottom door. You will now be in the exit screen. Move all the way to the beginning of the red exit arrow. Turn around, jump, somersault, and shoot eight shurikens towards the wall – and a hidden power-up will be revealed (very helpful in fighting Neo-Zeed).

The Inner sanctum: If you grabbed the power-up mentioned above, it will be useful to use the Ikazuchi magic right when you get on the screen. To defeat Neo-Zeed, proceed to the centre of the room; holding Down on the control pad, and kicking him. When he flashes, immediately jump away from him (you should be able to make him miss you with his hair). Now hit the black spot on the wall to stop the chain from moving. Move back over to him, and repeat this procedure. If he is too close to you, then jump and somersault over him. As you take the power off of him, his hair will change colour; the darker the red, the weaker he is. Happy hunting!

# WORLD OF ILLUSION (MD)

**HOW DO I GET THROUGH THE DOORS AT THE END OF LEVEL 3-2 ON TWO PLAYER?**
Richard Venner, Sussex

It's a simple solution for this Mickey Mouse problem, Dick. Instead of heading through separate doors, or one at a time, you must both approach the door at the same time and push up. Ha! I bet you are going to kick yourself now.

# SUPER HYDLIDE (MD)

**I CAN GET TO THE SKYTOWN, BUT I DON'T KNOW WHAT TO DO NEXT. PLEASE HELP!**
John Daly, address unknown

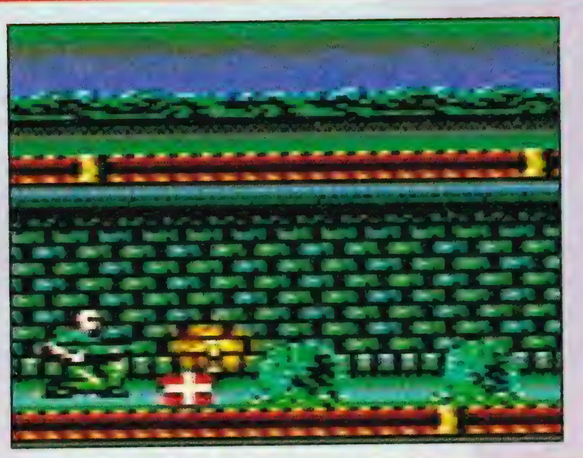

Now, John, we all get forgetful at times, but as I don't know what console this is for – I had to guess. So please in future, could you remember to add this vital detail.

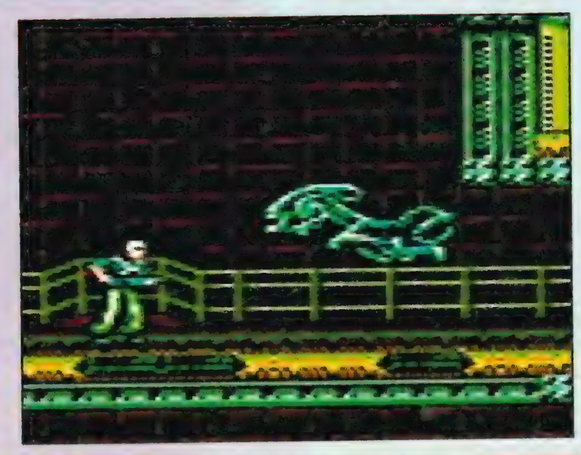

The Skytown is actually called the Heavenly City. So go into the city and talk to all the villagers to find out some important information. Find the castle and enter it. Immediately make a left and walk on the clouds around the castle. Once you have gone around the castle, you will find a big hole in the clouds. Move into that hole (be sure you have the cloud stone), and you will drop down to the Water Palace. Head all the way to the left and up, until you find the sleeping chamber. On the left hand side of the chamber, press button B to find the ID card. Now proceed to find the king, and give him the fang. Once you do that, he will let you search the chests in his treasure chamber. In one of his chests you will find the Scroll of Jeem. Take the Scroll of Jeem to the area where there is a lake with three posts in it – a hidden castle will appear when you use the scroll. Now find your way to the second level.

# ALIEN³ (GG)

**HOW DO I KILL THE QUEEN AFTER LEVEL 15?**
Mr A McCullough, Tyne and Wear

Well what do you know? I've had loads of letters on this problem and it really is a simple affair. All you have to do is follow the old queen around; blasting at her with your rifle. You have to make sure that you do not miss at all, as every bullet is needed. It is a tough one but as I always say perseverance is the key to successful gaming. The main things to look out for are the acid drops and running out of ammo.

# TALESPIN (MD)

**PLEASE CAN YOU TELL ME HOW TO GET PAST THE FOURTH LEVEL?**
Adam Smith, Coventry

Yes I sure can Adam, especially as you come from Coventry. Level four is Greece. You start out by going down to the bottom (to reach the lower part of this level, hold Down on your D-pad and press the jump button). Grab the two empty crates and pick up the two cargo boxes below. Then go back to the top (where you first started). Drop your empty box to reach the platforms above you. Make your way up to the right and you will eventually reach a platform with a hamburger. From that platform, go left to another platform with a grey spring and what seems to look like a helm of a boat.

Stand on the grey spring and while standing on it, shoot the helm so that the spring will boost you to another level. Grab the two cargo boxes a speed limit sign and an empty box. Then continue right and jump across to another platform. Drop the empty box and leap up to a long platform with a hamburger, click and cargo box. Now drop back down and go right. Fall into the gap and when you reach the bottom, defeat the tiger guy that shoots you. Grab the empty box and you will notice that the spot you landed on has a moving platform going up and down. Take the platform as it goes up, then drop to the right and keep holding the control pad to the right to reach the exit as you are falling. To defeat the boss; just do the same as you did in level two, except watch out as he shoots more balls.

**I SENT CODES TO YOUR MAG AND NEVER RECEIVED ANYTHING, EVEN THOUGH I SAW THE CODES IN THE FOLLOWING ISSUE! WHAT'S GOING ON?**
Andrew Sweetman, Hants

Well Mr Sweetman, I thank you personally for the codes that you sent in, but if you were not sent anything then your codes were not used. I receive personally, hundreds of letters each week confessing to be the only person to have found a particular code, also I have a team of game geniuses working night and day to find codes and cheats and so it is not always possible to credit everyone with their efforts. The one way you can secure a prize is by sending in something that is totally original, or that no one has printed yet. Remember, I scan all the other mags and so I know when they've been copied.

But Mr Sweetman, to show you that I am not cold or careless I am sending one of my pixel pixies to despatch an extremely large copy of *Awesome Sega Secrets* packed from cover to cover with cheats upon cheats upon cheats. Hope you enjoy it.

# XS CODES

**How we manage to cram all the codes into this section is still a mystery. Here you will find all the best codes for the Datel Action Replay and Hornby Hobbies Game Genie. No other magazine regularly prints ALL the codes you will ever need. Every code printed here can only be used with the relevent device. You CANNOT press F, F, 1, B, Ø, 4 on the joypad – just in case there were any of you still trying to get them to work. You MUST have an Action Replay, or a Game Genie to make full use of these codes. Both devices are available from out Super Savers at the back of the magazine.**

# XS SOS

## DOCTOR M.

**Much to my displeasure, these hallowed pages have been drastically reduced in number this issue – a plague on the so-called "XS posse"! Still, I'm working away just as hard as ever deep in my subterranean games laboratory, using every second of the day to crack games wide open and bring my immense console knowledge to you, the adoring public. There is nothing my minions and I can't handle! No puzzle is too hard, no code is too complex, no cheat is too obscure, no paycheque is too large. Send your pitful problems to me via this address: *Doctor M, SEGA XS, Paragon Publishing, Durham House, 124 Old Christchurch Road, Bournemouth, Dorset BH1 1NF.* Remember, where the others dither, I deliver!**

# SPEEDBALL 2 (MD)

**PLEASE GIVE ME THE CORRECT PASSCODE, AS YOURS DOESN'T WORK!**

Gareth Morris, Dover

Doesn't work? Doesn't work? I assure you, all of my codes and cheats work correctly when they leave my laboratory. This one must have got scrambled at the printers, or something (frantic excuses department). Right, here's a code that will promote you up to the first division.

# KING'S BOUNTY (MD)

**I CAN NEVER PURCHASE ENOUGH TROOPS TO OUTNUMBER THE ENEMY. WHY IS THIS?**

Sam Anno, Yorkshire

So you're having trouble buying men? Right, what's probably the matter is that your men don't respect you. I expect that everytime you discover a treasure chest, you're taking the gold for yourself and not distributing it evenly between your men, am I right? In *King's Bounty*, you have to have a good balance between money and troops.

If you take all of the money yourself, then your army won't obey you and you won't be able to bring in many more members. On the other hand, if you give all of your gold to your men and don't keep any yourself, then you won't be able to pay them their wages. A fine line will have to be drawn here.

A good tip for advancing in the game is to visit the nearest town and hire a boat. From here you can sail around the islands exploring to your heart's content. Everytime you see something that catches your eye (a treasure chest or cave for example) all you have to do is stop off, investigate it, and go back to the safety of your boat. This way, you will avoid the majority of the wandering monsters in the game.

# FLASHBACK (MD)

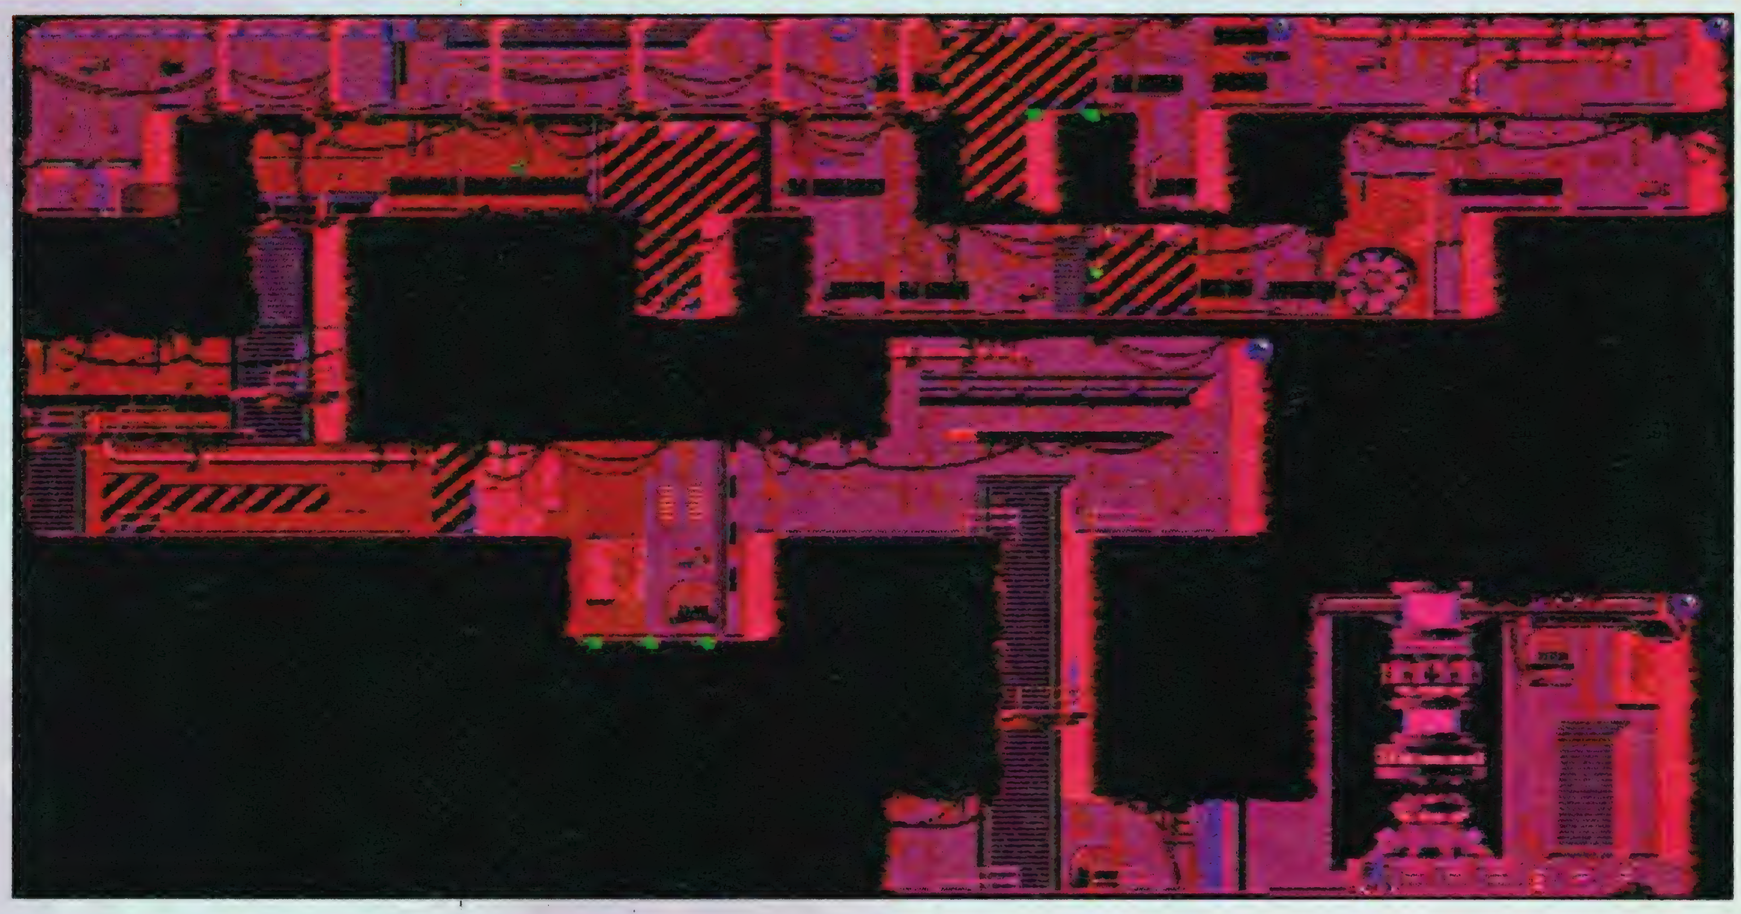

## ON LEVEL TWO, HOW DO I GET THE LIFT TO THE TOP OF THE SHAFT?

Graham Taylor, London

This is the reactor level where you must take the new chip and insert it in the reactor at the end. Work along the level until you have to make a jump. Take a run at it and press up just before you go off the screen and you should leap onto the ledge on the other side. Now you should leap over the pit and, as you're running, press down as you touch the green coloured electricity leak to roll underneath it.

Keep heading down and left until you can go no further, then you should start running right until you reach the lift (follow the map). There is a platform above the lift shaft and on top of this is a secret button which will call the lift when you touch it.

Now all that you have to do is put the chip in the reactor to end the mission, but you must be standing on the far right of the reactor unit to insert the chip. If you try to do it anywhere else, you will instantly die.

# CHAKAN (MD)

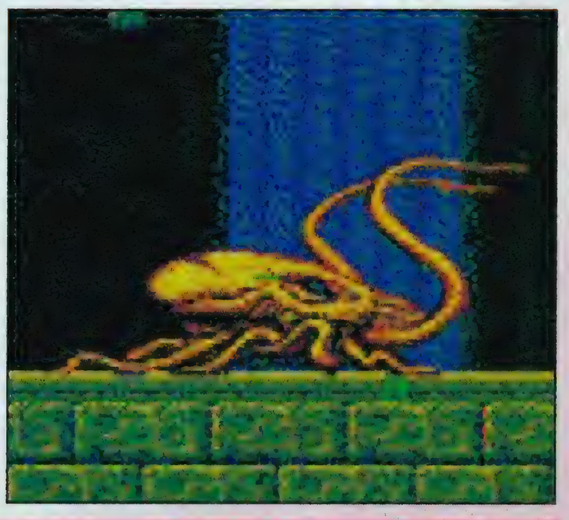

## HOW DO I BEAT THE SECOND ICE STAGE ON THE ELEMENTAL PLANE OF WATER?

Sam Minchin, London

Now then Sam, let's take things from the beginning. At the start walk into the cavern and go left until you drop down a slope. As you go right you will see three platforms, go to the last one and jump down the slope. From there jump left to another slope, then left to two waterfalls. Fall down one of them to go to the water at the bottom. Now that you're underwater, go left and then jump up to the first slope and from there go up another three slopes.

When you reach the fourth incline you should be facing towards the right. Jump up and right to enter a secret passage and a room containing the Ice Sword. Get this and go back the way you came. Continue right until you get to the waterfall that reaches upward. You must use your spin attack in the waterfall to take you all the way up and when you get to the top you will encounter the Ice Beast. Hit his head a few times before jumping to avoid his claws and eye beams. Repeat this a few times to dispose of him.

# BATMAN RETURNS (CD)

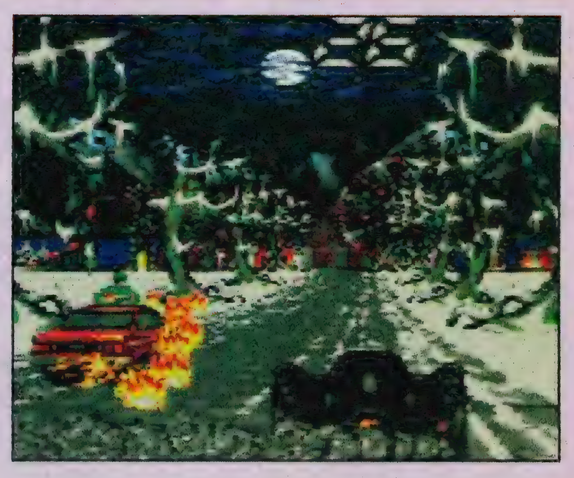

## HAVE YOU ANY CHEATS?

David, Merseyside

No problem, David (don't they have surnames in Merseyside?). On the Options screen, highlight 'Game Mode' and change it to 'Driving Only' while holding Left and pressing the B button. Then go to Difficulty, Driving Controls, Platform Controls, Lives, Music and SFX while holding Left and pressing B for each of them. Now that you've done that, you can change any option that you want and to skip a level by pausing the game and pressing C.

# REVENGE OF SHINOBI (MD)

## HOW DO YOU GET PAST LEVEL 8, ROUND 2?

Darren O'Dowd, Dorset

*Revenge of Shinobi*, eh? Ah, that old classic. A very troublesome game for most of you, if the number of letters that flood into my lab every issue on this very subject is anything to go by. Anyway, 'Daz', the solution to your particular problem is at hand. Go to the chamber with the pillars that sprout down from the ceiling and head left to the first door. In the new room, you must fight your way to the two doors at the far left. Go for the door at the bottom. You should now be in the exit screen. Simple really, when you know how...

# SPIDER-MAN (MD)

## I CAN'T GET PAST SANDMAN ON THE FOURTH LEVEL. PLEASE HELP!

Scott Wallbonk, Devon

Defeating the Sandman is quite obvious when you think about it, but it's the kind of thing that can have you tearing out your hair until the answer comes to you in a flash of inspiration. Luckily for you, Mr Wallbonk (is that *really* your name, or did the XS team make yet another goof-up when they sent the letters to me?), Doctor M is here to save your scalp. Lure the Sandman back to the fire hydrant that can be found earlier in the level. Now, using the hydrant, wait for the Sandman to get near and kick the hydrant to release the water inside it. Did you know, if you continue to walk right to the edge of the screen when you first reach Sandy, you will collect a life power-up?

# MIGHT & MAGIC (MD)

## CAN YOU GET ME STARTED WITH THIS GAME, PLEASE?

John Clark, Essex

Have you been to see the wizard yet? He can be found to the right of the inn at the start of the game. Visit him, and he'll ask you to help retrieve a goblet that was stolen by some goblins. The goblins are to be found underneath the city in the caverns. When you have the goblet, take it back to the wizard and he'll reward you with gold and ask you to help his sister. The sister can also be found in the city and she'll ask you to rescue her kidnapped children. The children can also be found underneath the city (their exact whereabouts can be found in the local pub, of all places!). Return the children to the distraught woman and she'll tell you what to do next.

# XS CODES

How we manage to cram all the codes into this section is still a mystery. Here you will find all the best codes for the Datel Action Replay and Hornby Hobbies Game Genie. No other magazine regularly prints ALL the codes you will ever need. Every code printed here can only be used with the relevent device. You CANNOT press F, F, 1, B, Ø, 4 on the joypad – just in case there were any of you still trying to get them to work. You MUST have an Action Replay, or a Game Genie, to make full use of these codes. Both devices are available from our Super Savers at the back of the magazine.

## DOCTOR M.

**Welcome once again to the domain of Dr M, where all problems are solved and all frustration is cast aside. There seems to be much concern with *Phantasy Star* for the Mega Drive and *Mortal Kombat* this issue. Prepare for the Doctor to do some serious bustin' on these games and many more. To all you struggling gamesters out in Sega land I have one message, if you have a problem and have exhausted your patience, let Dr M do the talkin'. Send your worries to *Dr M, SEGA XS, Durham House, 124 Old Christchurch Rd., Bournemouth, Dorset BH1 1NF.***

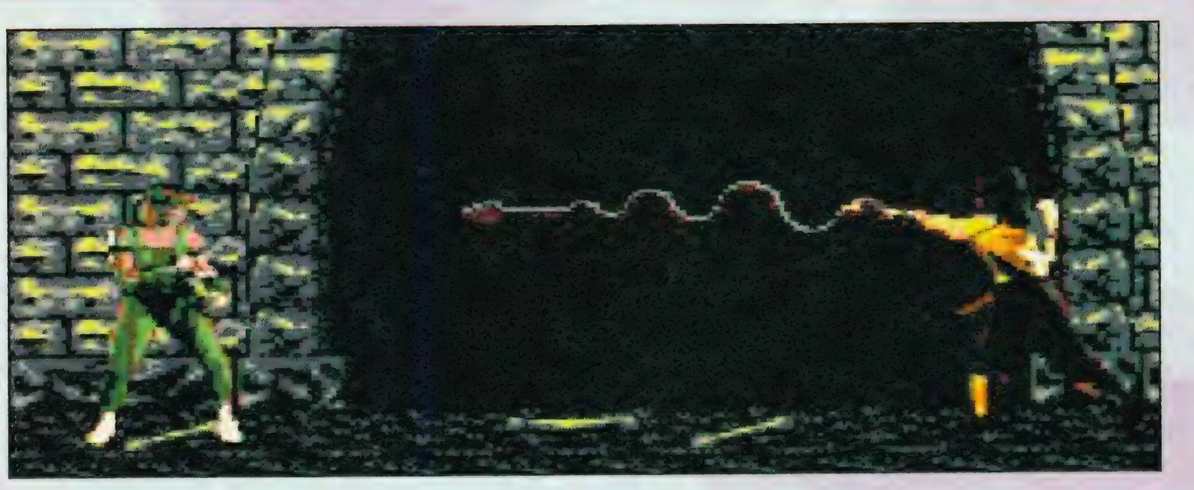

## MORTAL KOMBAT (GG)

**WHY ARE THERE ONLY ONLY SIX CHARACTERS ON THE GAME GEAR, AND WHERE IS THE BONUS LEVEL?**
Brian Kawanah, London

Kano has been left out for practical reasons only. It would seem the Game Gear has not quite got the power to accommodate the complete range, which is a shame, but at the same time it is an impressive feat of memory crushing to have the game on the Game Gear at all!

Unfortunately, the bonus stage also had to be sacrificed. The superb D, U, L, L, A, R, D cheat for the hidden option screen on the Mega Drive does not work either. However, do not drop your head in despair. I have a tasty code to make the game pack a harder punch.

After the intro screen, you will be confronted with a grey screen before the character profiles. When the third screen appears, enter two, one, two and press Down, followed by Up and watch the blood fly! I hope that is enough to juice up the action for you, Brian.

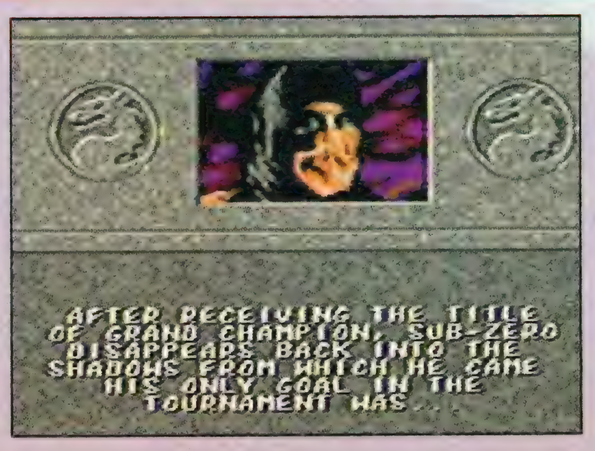

## MORTAL KOMBAT (MD)

**I CAN'T PERFORM SCORPION'S DEATH MOVE. IS IT ME, OR A MISPRINT?**
Carl Johnson, West Yorkshire

It wasn't a misprint, I am glad to say. The correct way to activate Scorpion's special move is to block, then press Up twice, whilst standing slightly back. He will blow out a cloud of lethal bad breath. So, it seems you have the right technique, but just need to put in a bit of practise. The death blow is quite a scorcher of a move when you get it right, so keep trying because it's worth it.

# PHANTASY STAR (MD)

## I CAN'T FIND AND USE ALL THE OBJECTS; HOW DO I GET TO LASSIC'S CASTLE?

Allan Lawry, London

For some reason, this game is confounding all you ordinary beings. I suggest you listen carefully to my prescription of tips and solutions.

Allan doesn't know where the miracle key is. He also does not know how to get to Lassic, or how to use the prism, crystal, and nuts. Allan is also having trouble reaching Lassic's Castle in the sky, and he can't seem to locate the hovercraft or Gas shield. Have no fear. I will clear this up in the time it takes to flick through the pages of my dusty, leatherbound games bible.

First of all, I will deal with those who are being driven mad by the objects, so pay attention. After collecting the crystal, head back to level one and go up the stairs, heading up in the lower right hand corner. By the way, Allan, you cannot use the crystal, it automatically protects you without having to be activated.

Follow the instructions on the game map. If you explore the levels, you will discover the Miracle Key. If you want the Laerma nuts, go to where you exit the third cave from Skure, facing northward. Turn left, move a few spaces and turn left again. Use your Ice Digger. A hole will appear which you should follow to the tree that is in a circular clearing. Use the torch on the tree and you will receive the nuts.

You also seem confused as to how you can reach the castle in the sky near the end of the game. Once you have gone to level 13, you'll find yourself on the roof of the Baya Malay Tower (you will see blue skies, forest, etc). Use the prism, followed by the Laerma Nuts, and Myau will fly to Lassic's Castle. Once you have defeated Lassic, you will have to go to the Governor's Mansion but Mayau must be alive at this point or you will have to backtrack to Palma.

I will allay Allan's troubles now and reveal the whereabouts of that elusive hovercraft and Gas Shield. You must go to Bortevo Junkyard, and enter the very first house on Alis' left. Go in and "search", and you will automatically receive the hovercraft.

The Gas Shield is hidden in Palma. Go down and to the right from Scion, using the hovercraft. You will then find a floating island. Go into the city on this island and find the dungeon. Within the dungeon there is a shop and you can purchase the Gas Shield there.

# PSYCHIC WORLD (MS)

## COULD YOU TELL ME HOW TO COMPLETE THE LAST LEVEL?

D Cooper, Leicester

So you want to know how to complete that last level, the Fortress. You have come to the right doctor, for I shall disclose all. Begin by collecting all of the hearts on the far right. Go back to the stairs on the left and ascend. At the top, go right. Go through the door and wait for the swordswoman to get underneath you. Drop, and defeat her, preferably with the ultra sonic weapon.

Collect the ESP items and go right down the hole. Continue down and exit on the right. On the next screen, head all the way right, but don't drop in the green containers. On the next screen, go up the stairs in the top right corner or drop down the hole. Only go up the stairs if you want the B capsule. Otherwise, drop down the hole. Use the shield ESP here. Keep dropping down until you land in a room with two doors, hearts and a B capsule in it. Take either door – they lead to the same place eventually. You will find yourself in a room with stairs and exits on both sides.

Now you must face the three guardians. Use the shield ESP and the Psy Cannon to defeat the dragon and the green creature, and also the ultrasonic weapon to kill the wizard.

After these are beaten, you should return to the room withthe B capsules and pick them up. Return to the room where you finished off the dragon and an exit will have materialised. Take this and go right to take another exit. You will appear in a room with red lights. Use your levitation ESP to go up and right. When you reach the bottom, destroy the blocks and take the exit in the lower right corner. When you exit, there will be another woman with a sword. Go through the door to exit, or to the right of the screen, as they lead to the same place.

You will now be in a room with a small heart and an ESP restorer. When taking the other exit, or the exit in the previous room, you will face your sister. Use the freeze ray and take the stairs above her. Traverse the passages all around her until you meet a brain-type enemy which does not move. There are a pair of lasers here, so watch yourself. Stand right before the brain area and use your shield ESP, as well as your weapons in the following order – Hydrowave, Ultrasonic, Psy Cannon, Burning Bullet, Freeze Ray. Repeat this pattern three times to win. The brain will flash when hit.

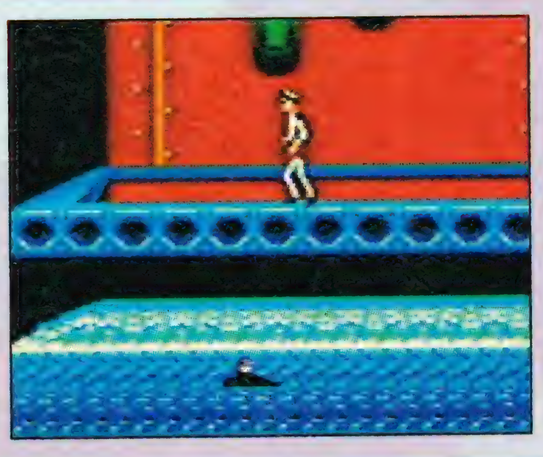

There will be a short end sequence before you face the final foe, Dr Knavik. This doctor is not as accommodating as myself, so wait for him to get about halfway across the screen, then press right on the directional pad. Hit him ten times to defeat him.

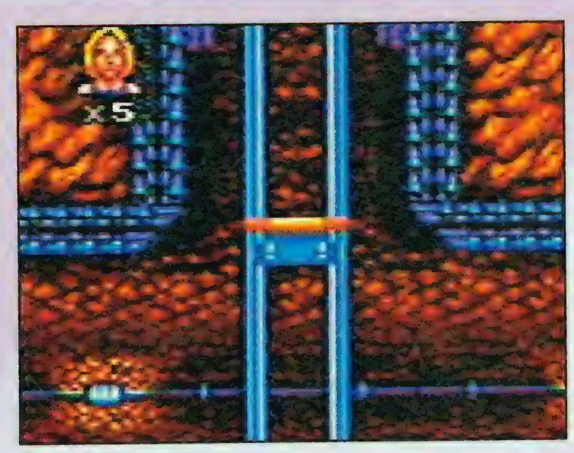

# JAMES BOND (MD)

## I CAN SEE THE SIGN TO THE EXIT ON LEVEL THREE, BUT CAN'T EXIT. WHAT DO I DO?

Peter Novkovic, Skipton

You say you cannot find the exit on level three, despite the sign pointing you towards it. This is a common problem, and seems to occur through lack of experimentation. When you see the sign you must go down as far as possible and press Down and fire which will activate the 'hang' command. Go down until you reach the floor. After this, go right and up the ladder to the top. Carry on as far as possible and then take the pulley to the exit.

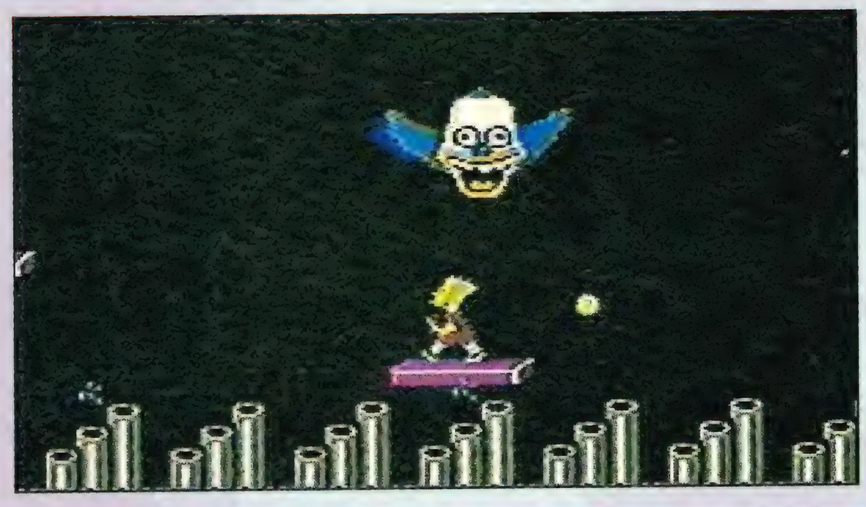

# BART VS THE SPACE MUTANTS (MD)

## DO I HAVE TO PAINT ALL 24 ITEMS, AND WHAT DO I DO ON THE MOVING SCREEN?

Sharon Hall, Newcastle

Sorry, Sharon Hall. It would seem that there are no cheats to this game. You are just going to have to plough your way through it, and yes, you do have to paint all 24 items to get onto level two!
As for the moving screen, I presume you are refering to Mo's tavern. I have more disheartening news. When the screen mysteriously scrolls right, it means you have prematurely used the key in the wrong location, and you are effectively trapped; leaving no option but to reset and begin again. Such is the trial of life!

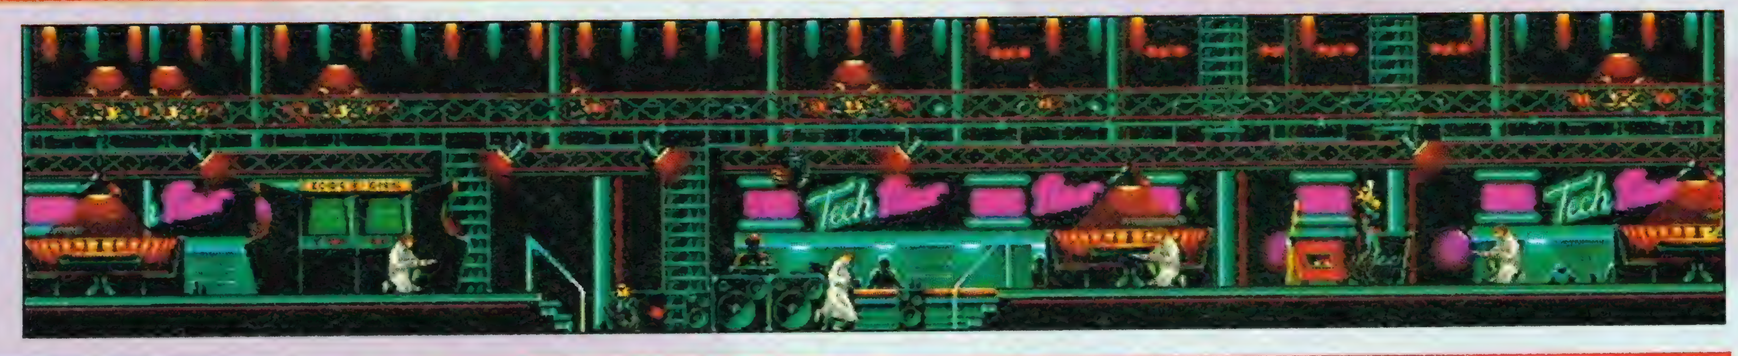

# THE TERMINATOR (MD)

## ARE THERE ANY CHEATS?

Mark, Berkshire

Well, well. I suppose I had better get all the bad news out of the way at once. You asked me if there are any cheats for *Terminator* on the Mega Drive. In a word, no. Sorry about that, Mark, but the game is not very difficult to defeat, and so if you tell me where you are stuck, I can get you through, no problem.

# SUPER HYDLIDE (MD)

## HOW DO I GET TO THE PHANG ON THE SUBTERRANEAN LEVEL?

Leslie Carlyle, Durham

If you go to the right of the entrance you will find a bank. Deposit money in the bank and you will receive a bank book. In the lower left corner of this town, find the guard patrolling the open area. Using the guard as a marker, go up one screen and head across the rocks to the left. You will find a secret entrance to the open area.

Search the chest in the upper left corner twice. You will be transported into the cave of the dead. Follow the cave two screens up and two screens to the left and take the top left exit. Follow the pathway down to the left and pass through the wall (the passageway is different from the rest of the wall). Follow this pathway to the upper left corner, then to the right. You will observe a pathway that leads straight up to the dragon. Dispose of each dragon head by waiting until it is facing either right or left, then run up to it and attack its mouth (effectively hitting it in the cheek).

Each head takes approximately ten hits to destroy. After the dragon is dead a room will appear. In the room is a chest containing the Phang, but be warned, open with magic, or you will be poisoned.

# XS CODES

How we manage to cram all the codes into this section is still a mystery. Here you will find all the best codes for the Datel Action Replay and Hornby Hobbies Game Genie. No other magazine regularly prints ALL the codes you will ever need. Every code printed here can only be used with the relevent device. You CANNOT press F, F, 1, B, Ø, 4 on the joypad – just in case there were any of you still trying to get them to work. You MUST have an Action Replay, or a Game Genie, to make full use of these codes. Both devices are available from our Super Savers at the back of the magazine.

# XS SOS

## DOCTOR M.

Greetings punters! How's life treating you? Got any new games? Are you stuck on them yet? Well don't worry, just get writing to me! I'm always ready for your letters of need and am more than willing to answer them. To contact me write to the following address : Dr M, SEGA XS, Paragon Publishing, Durham House, 124 Old ChristChurch Road, Bournemouth, Dorset BH1 1NF. My minions will ensure the most troubled souls among you receive my immediate attention. That's the introduction out of the way, now's the time to release you from this issue's torment!

## DIZZY/CASTLE OF ILLUSION

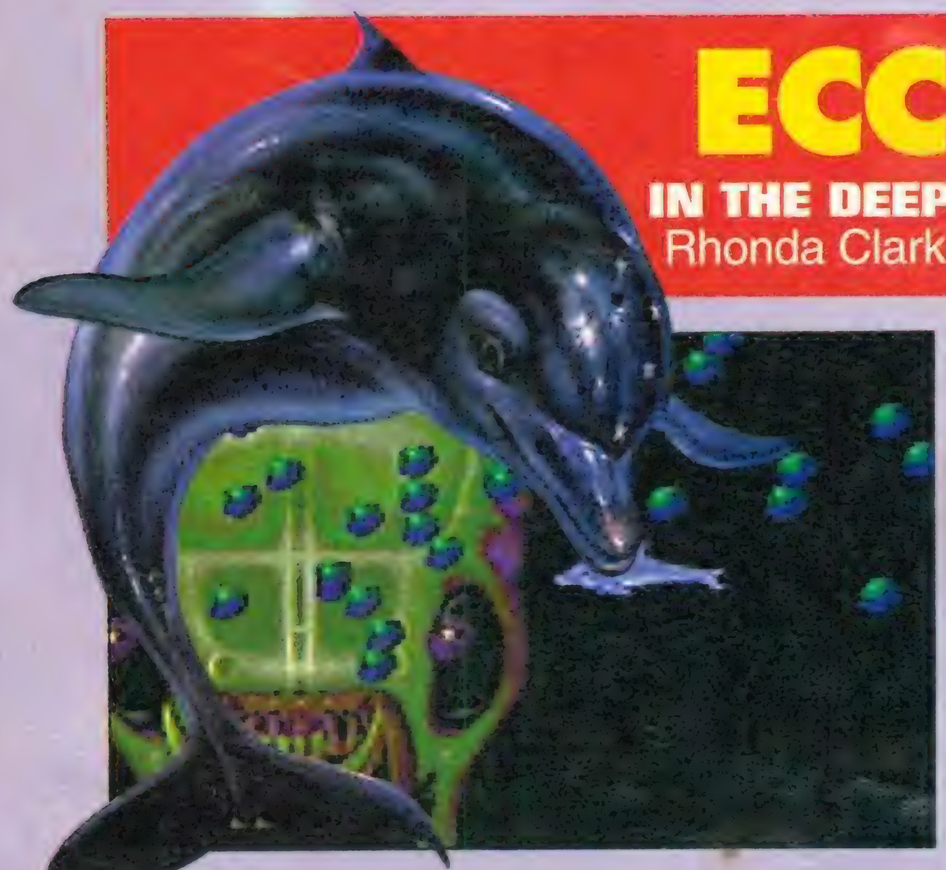

**I CANNOT GET INTO THE DIAMOND MINE IN DIZZY. ALSO I CAN'T KILL ANY OF THE GUARDIANS IN CASTLE OF ILLUSION! WHAT CAN I DO?**
R Pemberton, Cheshire

First of all, to kill the guardians you'd better be aware each has a weak spot just waiting to be exploited. For example, the first guardian should be struck when he starts spinning, while the Chocolate Monster has a particular block which is vulnerable to attack.
Onto Dizzy, to get into the Diamond Mines simply go to the Countryside; on the far left of the screen there's a hole in the ground. Jump into it and into the Diamond Mines you fall!
Come now, surely you can provide me with more challenging problems than this. A brain as gifted as mine needs to be vigorously tested, otherwise it grows lazy. If that happens you will be the ones to suffer. You have been warned!

## ECCO

**IN THE DEEP WATER ZONE HOW DO YOU SPEAK TO THE ASTERITE?**
Rhonda Clarke, Devon

To speak to the Asterite, hit five balls of the same colour. You're now free to speak to him to your hearts content. Although I really can't imagine anything of interest that mere mortals such as you could possibly find to say to anybody.
I on the other hand have held court throughout the length and breadth of this insignificant Planet you call home. My words have captivated Kings and held superstars spellbound. In fact ... Snip. (Unfortunately the good Doctor's words became too nauseous to print at this point — Ed)

# SPEEDBALL 2 (MD)

**CAN YOU GIVE ME SOME TIPS ON THE MANAGER MODE?**
K Alsop, Hull

Can I give you some tips? Of course I can, if I feel like it, you cheeky young upstart!
Playing the part of the manager requires a logical and level-headed approach, something I suspect you lack. It's vital to concentrate on building your player's stamina up a bit to be competitive with other teams. Speed is important, as well as strength, so concentrate on building up those arms and legs.
After a few matches you should have enough money to buy a couple of star players and start winning some games. To begin with make the purchase of defenders a top priority. It may not be pretty, but it's a firm base to build the team around.
After all, as I've always believed, winning isn't the only thing it's everything. Show me a good loser and I'll happily feed the wimp to the vicious wolf pack that guards my laboratory!

# ALTERED BEAST (MD)

**I BOUGHT THIS SECOND-HAND, BUT SADLY DON'T HAVE A RULE BOOK. CAN YOU HELP ME?**
Peter Mear, Rochdale

Well then, I presume you want to know what the joy pad buttons are and what to do in the game, eh? Ok, I'm feeling generous.
Start pauses the game, button A is for punch, B for kick and C makes your character jump. The direction pad will move you left and right.
The object of the game is to destroy any zombies, ghouls and ghosts you find by kicking and punching them. If you see any two-headed wolves, punch them and collect the crystals they release. After collecting three crystals change into a beast and prepare to face the end-of-level guardian. There are five tough levels in all, so check out our busters section for some juicy cheats. They do make life so much easier you know.

# BATMAN (MD)

**ARE THERE ANY CHEATS FOR THIS GAME?**
Darren Hardman, Somewhere

Before answering your question Darren let me ask you something. What happened to your address? I like to know where my loyal readers come from, so try to remember the address in future please.
I don't know, standards have definitely slipped since my day. We respected our elders and betters, although that's a bit tough when the whole families immortal, as you maybe able to imagine Darren.
Anyway there's a simple answer to your question. No, I'm afraid there aren't any cheats at the time of writing, but I can give you some passwords — I know, I'm too kind for my own good sometimes.

# FLASHBACK (MD)

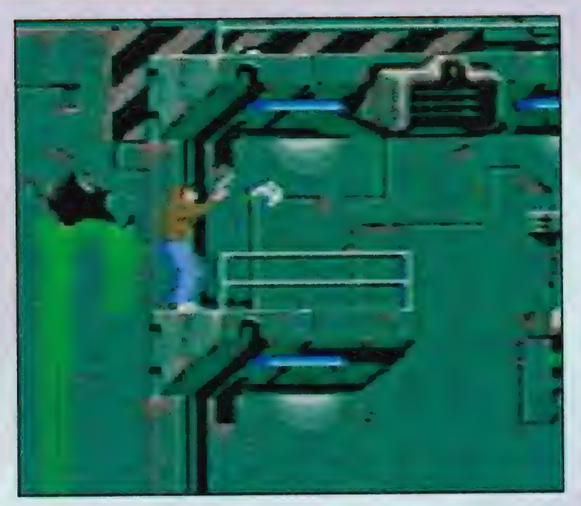

## HOW DO I COMPLETE THE GAME?

Chris Chris (Alleged name)

It's sad to say this is another letter proving my point about the poor standards of today's youth. First of all, for the life of me I couldn't read your signature. If you want to see your name printed in the mag, then you should ideally print it in block capitals (my eyes aren't what they used to be, you understand).

Also, if my interpretation of your spidery scrawl is correct, and I pray to all that's holy it's not, may I suggest suing your parents. Anyone who inflicts this type of ridiculous name on a new-born baby deserves everything they get in my opinion. If you're a problem child they've no one to blame but themselves!

Anyway, to complete this cunning platformer, place the atomic charge and watch the whole place start to shake. Now run back into the corridor and through the door that was previously locked. You should now be in the spaceship room. Stand to the right of the leg strut and press up. The game is now completed and you're the envy of all your friends..

# THUNDERHAWK (CD)

## THE INFINITE ARMOUR/WEAPONS CODES IN BUSTERS DON'T WORK. WHY?

Mrs C Frandeual, Huddersfield

Well, let me apologise in advance for any inconvenience caused by faulty cheats. This experience has upset me greatly and once again I lay the blame at the feet of mere mortals. We get sent in many, many different codes, cheats and tips every day by our readers and we try our best to test every single one out before they get printed.

Unfortunately, even my resources are stretched to the limits by your demands. We simply can't find the time to test them all out, and so, inevitably, some bad apples do get through.

Can I just take this opportunity to tell all readers who send codes, cheats or whatever in to please check them all out before doing so? In this way we can be assured they all work.

Finally, if I ,Doctor M, discover any faulty cheats amongst all the fan mail you people send me I vow to personally boil those responsible in a vat of oil! Remember, my subterranean torture chamber awaits…

# SPIDERMAN (MD)

## I CAN'T GET PASS LEVEL TWO!

Peter Churchill, Herts

Any relation of Winston Peter? I bet it's the chubby cheeks and big cigars you puff that give the game away!

OK, in answer to your question, Level two is the Warehouse (if my memory serves me correctly), and this is where you must face the evils of Doc Octopus. The guards are no stronger than flies on this level, falling after a couple of hits. So they're no problem to even the weakest of players.

The dogs, on the other hand, should be avoided. Try not to get too close to the crates dotted around the level. The mutts have a nasty habit of running out from behind them and biting your legs. When all of the guards have been knocked-out, your spider-sense tells you the Doctor is near! First deal with the Fork-Lift truck driver, who's best attacked from the rear. When he dies, the 'puss enters the fray. If you can't defeat him I'm afraid you'll have to contact me again!

If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.

# XS SOS

## DOCTOR M.

Welcome once again to my subterranean games lab. Chris asked me if I could handle the extra workload now the mag has become a six weekly event. I simply chuckled quietly and told him I could do a daily column with my eyes shut! Suitably chastised he slunk back to XS Towers.

I am, however, going to need many more letters from my loyal readers to fill these pages. My supreme knowledge is always at your disposal, ready to administer swift relief to all your gaming headaches; so write to me, DR M, at the following address — SEGA XS, 124 Old Christchurch Rd, Bournemouth, Dorset BH1 1NF.

## SHINING FORCE (MD)

**I'M HAVING PROBLEMS COMPLETING SHINING FORCE ON THE MEGA DRIVE, ARE THERE ANY CHEATS TO HELP ME THROUGH?**

Richard Hardy, Gosport

I think I can expend a minute fraction of a brain cell thinking about this one Richard. There is a cheat, although it's sometimes hard to implement, to increase the number of levels. Take note of the following instructions and be sure to follow them to the letter.

Turn the Mega Drive off and hold Up and Start on the second joypad before turning the console back on. When the Sega Logo appears, hold A and Start on Player One's pad and A and C on the second controller. If it sounds like you need more fingers than the fabled eight-armed Peruvian Mountain Ape fret not! Rest assured it's possible to achieve this feat. Once the code is entered begin any stage and, when you use the forbidden box, the party's levels rise to 19.

## FINAL FIGHT (CD)

**THIS GAME IS SIMPLY TOO HARD, HAVE YOU ANY CHEATS?**

Simon Baggaley, Co. Durham

Come now Simon, no game is too hard. They're all little more than child's play. In fact *Final Fight* is one of the easiest games ever. I remember completing it many moons ago, while simultaneously thrashing the proverbial pants off Nigel Short in a series of ten Chess games. It was the easiest five minutes of my entire life!

Anyway, I digress (Don't you always? — bored SEGA XS gang), try this cheat, which creates an automatic punch to finish off most of the foe, you unfortunate young creature. Enter the options screen and highlight Exit. Hold down Right, A, B and Start to gain Automatic punching. I hope this helps you to a more fulfiling and wholesome existence, but, sadly, I very much doubt it!

# COSMIC SPACEHEAD (MD)

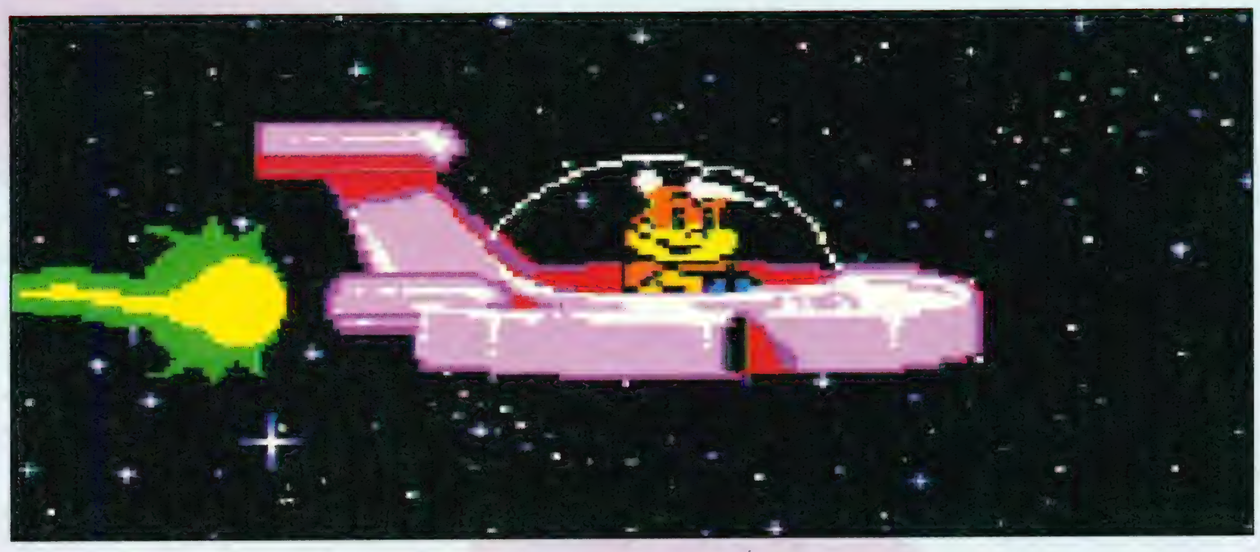

**COULD YOU PLEASE PRINT SOME LEVEL PASSWORDS TO HELP ME THROUGH THE GAME?** Alison Dunreid, Portsmouth

Well Alison, as you asked so nicely, here are some passwords. It's a mystery to me why you're finding such an easy game difficult. I realise no human has my gaming skills but I thought that the public at large would have the basic skills of a Mark Pilkington!

Dodgey City - D7C3 TEEA LDWI LQIY MSTD

Gas Station - Z7HF BFE6 WWL4 LRWE MDOY

No Mens Causeway - MNHF JEE6 WW81 LSWW M7T3

# SONIC (CD)

**COULD YOU TELL ME THE LEVEL SELECT FOR SONIC CD AND IF THERE ARE ANY OTHER CHEATS?** Michael Dagg, Blackpool

There is a level select for the *Sonic CD* but there are no other real cheats. To activate the level select do the following — On the title screen, push Up, Down, Down, Left, Right and B to access any level.

Hold on a moment, my incredible intellect is dredging up a little something to tickle your fancy young Michael! It's more a game quirk than cheat, but see what you think of it anyway.

When activated this little beauty lets you see Sonic in a host of other guises, such as a cool DJ and a Manga hero. On the title screen, push Down, Down, Down, Left, Right and A. This brings up a Sound Test screen with three headings. The headings are FM, PMC and DA. By giving these headings a value and playing them, the following appear:

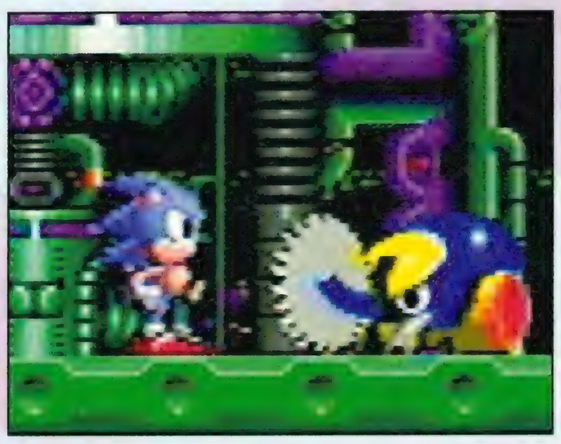

FM 07 PMC 07 and DA 07 - A special stage showing Sonic running towards a giant Robotnik.

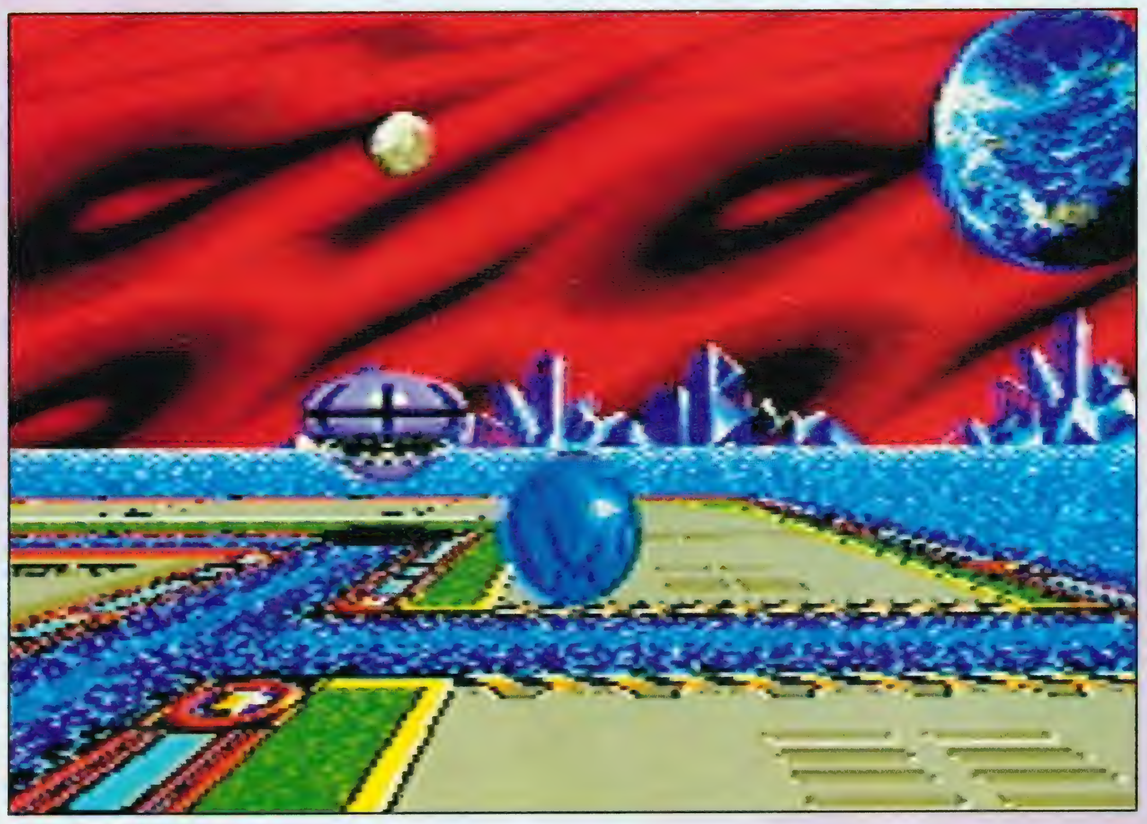

FM 42 PMC 03 and DA 01 - Sonic the DJ.

FM 46 PMC 12 and DA 25 - Sonic background.

FM 42 PMC 04 and DA 21 - Future Sonic.

FM 44 PMC 11 and DA 09 - Manga Sonic.

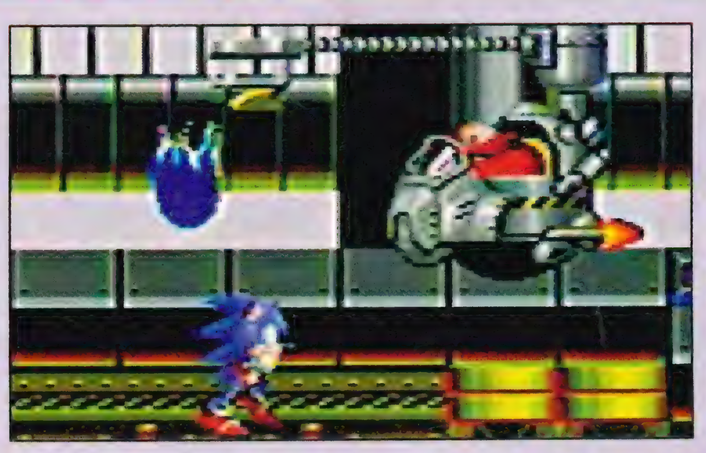

# SONIC 2 (MD)

**I READ SOMEWHERE OF A HIDDEN PALACE ZONE. IS IT TRUE AND, IF SO, HOW DO YOU GET THERE?** Jim, Surrey

Oh Jim, my good man, is the reason you failed to include your surname related to any embarrassment at asking such a trivial question? I don't think you read this information in SEGA XS, Jimbo. The existence of an extra zone in *Sonic 2* is nothing more than fabrication! Never have I heard such rubbish and if I were you I'd find out which publication printed this fiction and tell them what a bunch of ignorant buffoons they really are ( I don't think DR M is in a good mood this issue folks! — Ed). In future only buy the best in gaming literature, which is SEGA XS naturally. Stick to this rule and you won't be suckered by this type of bilge ever again.

# DUNE (MD)

**_DUNE_ IS ONE OF THE BEST MEGA DRIVE GAMES BUT I ALSO FIND IT VERY HARD. CAN YOU HELP?** Duncan Lewis, Dartmoor

Of course I can help you Duncan, don't you know I know everything? *Dune* is a splendid game, which earlier in the year was given the XS Recommended mark which is reserved only for the cream of all Sega software.

Here are some passwords for the Atreides Missions that should give you a great deal of help.

# MASTER OF DARKNESS (MS)

**ARE THERE ANY ACTION REPLAY CODES FOR MASTER OF DARKNESS AND IS THERE A SUB-GAME CALLED VAMP?** Pat Jones, Oldham.

I have good news and bad news for you Pat. The good news is there are indeed some Action Replay Codes to give you infinite energy, the bad news is I think you should seek immediate medical advice about your Vamp complex. There is no such sub-game in *Master of Darkness* or any other game for that matter and I have absolutely no idea where you got the information from. I only hope these Action Replay codes can help remedy the situation!

Use these codes together for infinite energy:

Build two levels above the water. Try to keep the ground flat and build up your people who've settled on one level of land. You may struggle in the power stakes to begin with. However, when you reach enough manna to flood the enemies positions, the evil should be virtually destroyed.
If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# DOCTOR M.

**"FROM OUTER SPACE, HE'S ON YOUR CASE!"**

**Faster than a speeding bullet, more powerful than a locomotive, able to leap tall buildings in a single bound! Look! Up in the sky! Is it a bird, is it a plane? No, it's Dr M, strange visitor from another planet, who came to earth with powers and abilities far beyond those of mortal men (Once again Dr M gets carried away with himself - ED). My mission is to rescue all those SEGA XS readers who's gameplaying ability is inevitably lower than my own; it's a tough job but someone has got to do it.**

**Write to Dr M with your problems, pleas and posers at the following address:**

**SEGA XS, Paragon Publishing, 124 Old ChristChurch, Bournemouth. BH1 1NF.**

## BATTLETOADS (MD)

**How do I get off of the frustrating Turbo Tunnel level?**
**Jordan Thompson, Suffolk**

Not to worry young Jordan, I'll see what I can do for you. The Turbo Tunnel level is a cheeky little number and you need every ounce of your lightning reactions to survive in one piece. I hope you're up to the challenge my good fellow.

Race along the scrolling level while ducking and diving between the obstacles hurtling towards you. Jump over any hurdles getting in your way and remember to pull back after you've cleared any to allow yourself more time to jump the next one. The small ramps can be a tad tricky, so line yourself up and press the jump button just as you make contact. Flit daringly between the pillars by pressing up and down on the pad. Steer yourself under any hanging rocks you come across.

To get past the floating platform, use the following tactic: Make a small jump to reach the necessary height to jump onto the floating platform. As you hit it, go for a mega jump to make the gap, then pull back to land neatly at the beginning of the next island! After this comes the menace of the Renegade Rocket Rats, who try and drop blocks in front of you. Watch their shadows to see where the next obstacle is coming from.

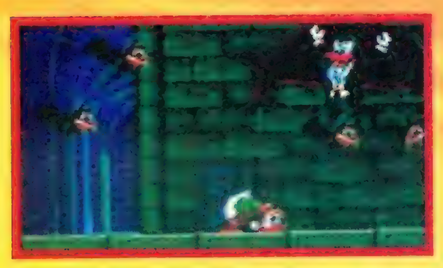

I'm sure these tips are enough to see you through. However, should you be of such a depressing gameplaying standard you still need more help, use these Action Replay codes. I know, you just don't know how to thank me do you?

# QUACKSHOT (MD)

**My Son and I keep getting killed by the lowering roof in the Pyramid! What are we doing wrong?**
**Roger Harris, Avon**

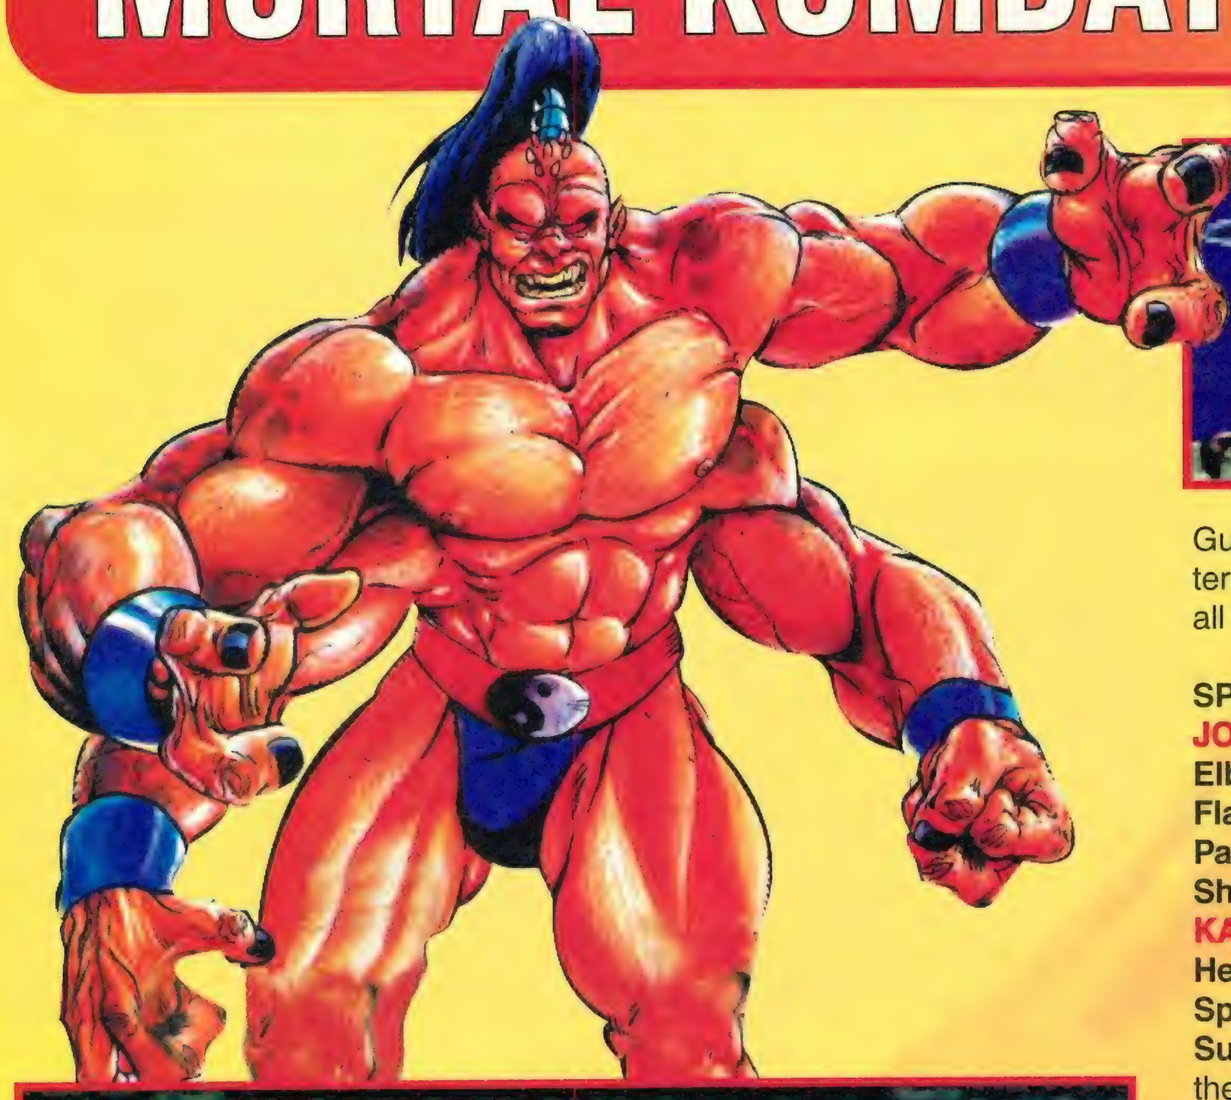

Ah-ha — That old chestnut, eh! The first thing to remember is the ceiling only kills you when it touches the floor, so you can still walk around when it's touching your head. As for solving this problem, read the scroll given to you at the start for a major clue.

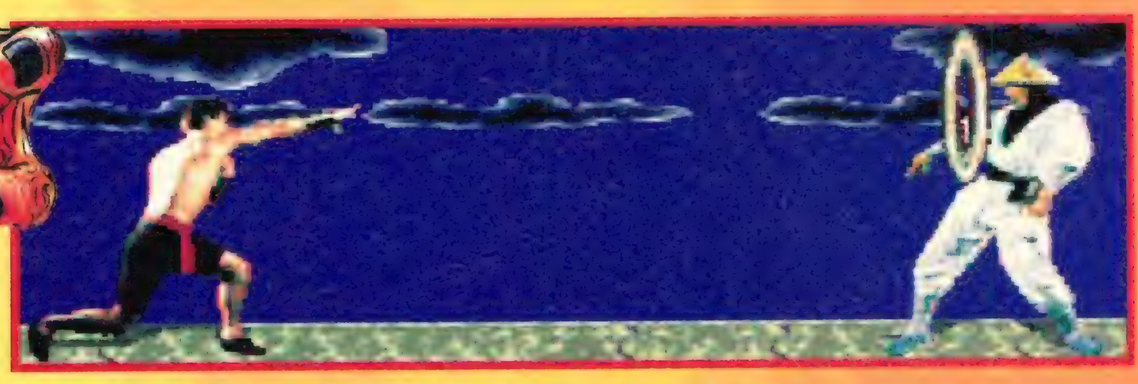

It reads — 1 Sun, 2 Moon and 3 Star. These are the combinations to use in the pyramid. The chamber where the roof comes down to crush you has four symbols on the floor and you must quickly jump on each one so it drops slightly. First jump onto the Sun symbol, then the moon (which is at the far right) and back-track to the Star symbol. The roof now goes up, leaving you free to get the brillo sceptre of Rah. All that's left for you to do is cry, "Hurrah, for DR M!"

# MORTAL KOMBAT (MD)

# ROCKET KNIGHT ADVENTURES (MD)

**I'm stuck on the level 3 guardian and why can't I make your level skip work?**
**Riven Oak, Suffolk**

As far as I know, young wood nymph, the level skip cheat does work, so maybe you're doing it wrong. All I can say about that is if at first you don't succeed, try, try again (Thanks for the sad homespun philosophy Dr M - ED).

As for the pesky level three guardian, that mockery of a goldfish, you'll be pleased to know it's one of the hardest bosses in the game, so you're not alone in your plight! I bet that's made you feel so much better hasn't it?

However, there is hope for all you mortals trapped out there, he follows a specific attack pattern. When he starts to swallow the platforms, continually jump backwards to stay one platform ahead of him. After a while he stops this and emerges in the middle of the screen, firing off energy balls and extra health. Shoot the Pig Man, as he jumps out of the guardians mouth, before the whole process starts again.

To give you a helping hand in your quest here are a few Action Reply codes, they get everywhere, don't they?:

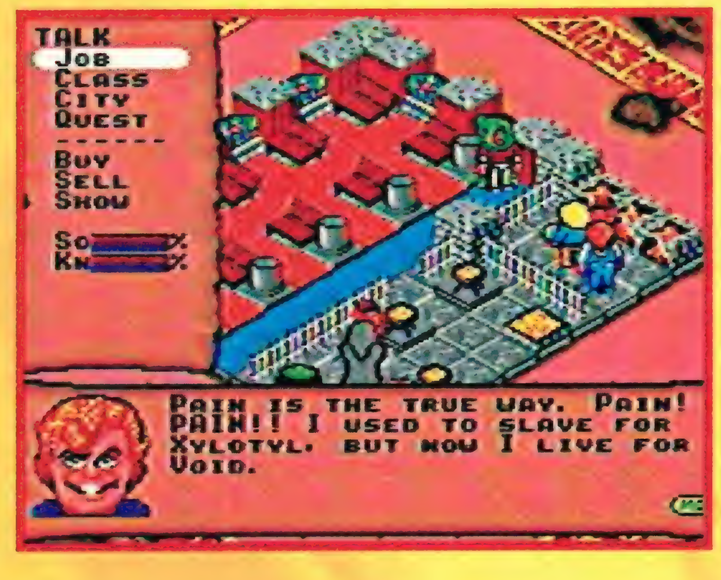

**FFFB0D0005 - Infinite Lives**
**FFC041003F - Infinite Energy**

# RINGS OF POWER (MD)

**I have all the rings apart from the Ring of Intuition. Could you help?**
**Audrey Wallace, Edinburgh**

Of course I can Audrey! Take the Key of Intuition back to Oxbridge and show it to the first Sorcerer at the Guild. Buy the Dove from him and go to the mountain in the desert near Necropolis at (30'3",11'8"). Look for a cave entrance on the second slope and enter the cave. Take the orange path to come across a Dragon! Do not fret, if you have the Dove, the Dragon will give you the Ring of Intuition.

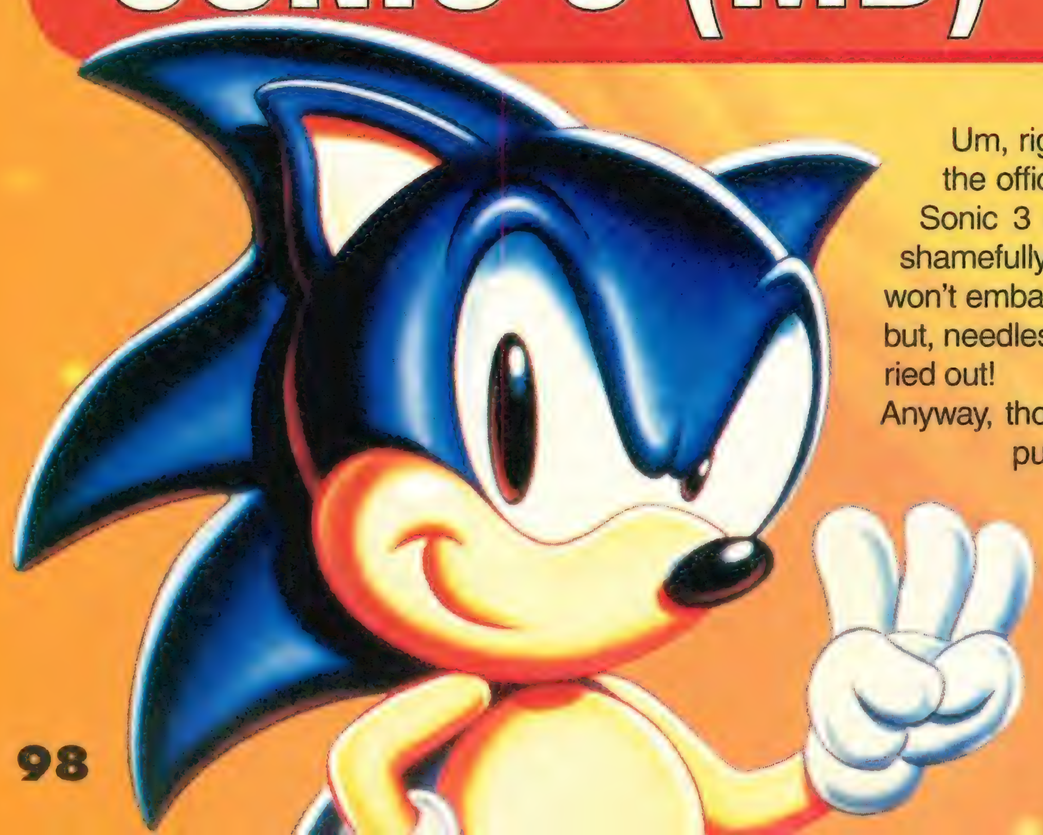

# SONIC 3 (MD)

**How on earth do you get past that bouncing barrel on the Second act of the Carnival Night Zone?**
**Charly Streets, W. Yorkshire**

Um, right this is a delicate one to explain. I'm afraid one of the office minions made a bit of a clanger in our enormous Sonic 3 solution. This, the most important of all tips, was shamefully omitted from the hallowed pages of SEGA XS. I won't embarrass the young oik who committed this cardinal sin, but, needless to say, a strong punishment is currently being carried out!

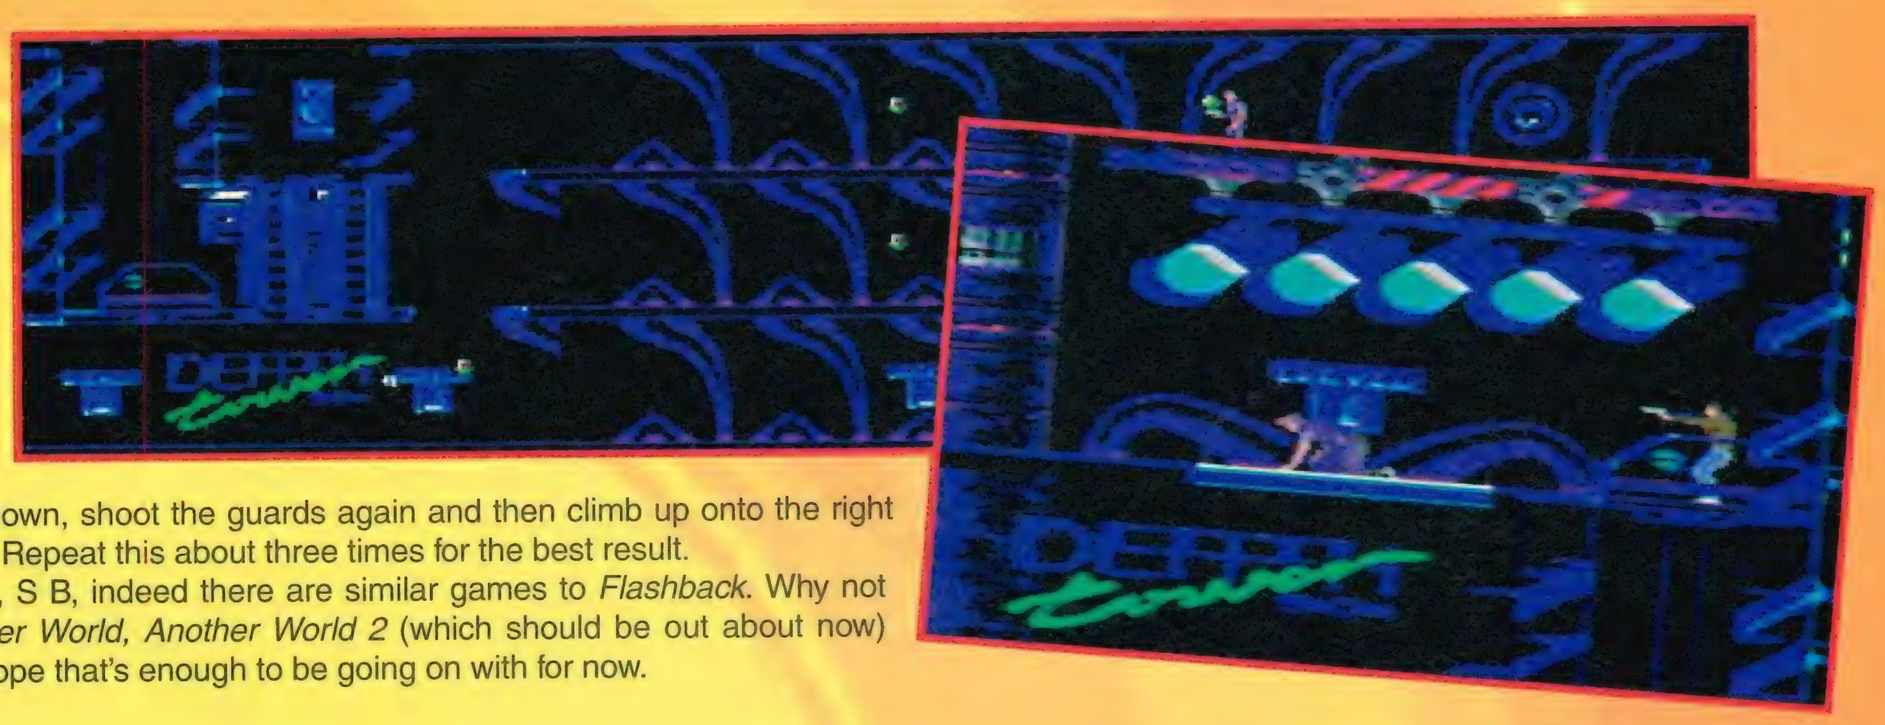

Anyway, thousands of people have called up about this, so, to put everyone's minds at rest, this is what you have to do:

Stand (don't jump!) on the barrel and press up and down on the pad. The barrel now starts to move up and down. Once it has reached its peak, simply jump off it and run underneath.

It's that simple. No, really, it is! Can I just take this opportunity to say sorry, on behalf of the minion involved, to everyone who got stuck on this section, it won't happen again — honest!.

# FLASHBACK (MD)

**How do you open the doors on the last level? Also, can you recommend any similar titles that I can have a go at?**
**Mr S B Price, Devon**

I know just where you're stuck S B my friend. The door only opens after you have shot the controlling brain on the far right. After you've done this, you can go down into the heart of the Planet and onto the final guardian!

To kill the little blighter shoot the two guards and then climb up onto the left side. Shoot the heart, drop down, shoot the guards again and then climb up onto the right side to take a chunk out of it. Repeat this about three times for the best result.

As for your other question, S B, indeed there are similar games to *Flashback*. Why not try these crafty carts; *Another World, Another World 2* (which should be out about now) and *The Prince of Persia*. I hope that's enough to be going on with for now.

Happy gameplaying S B!

# NIGHT TRAP (MD)

**Can you tell me how to get pass the time 19.00?**
**Luke Evil, Bath.**

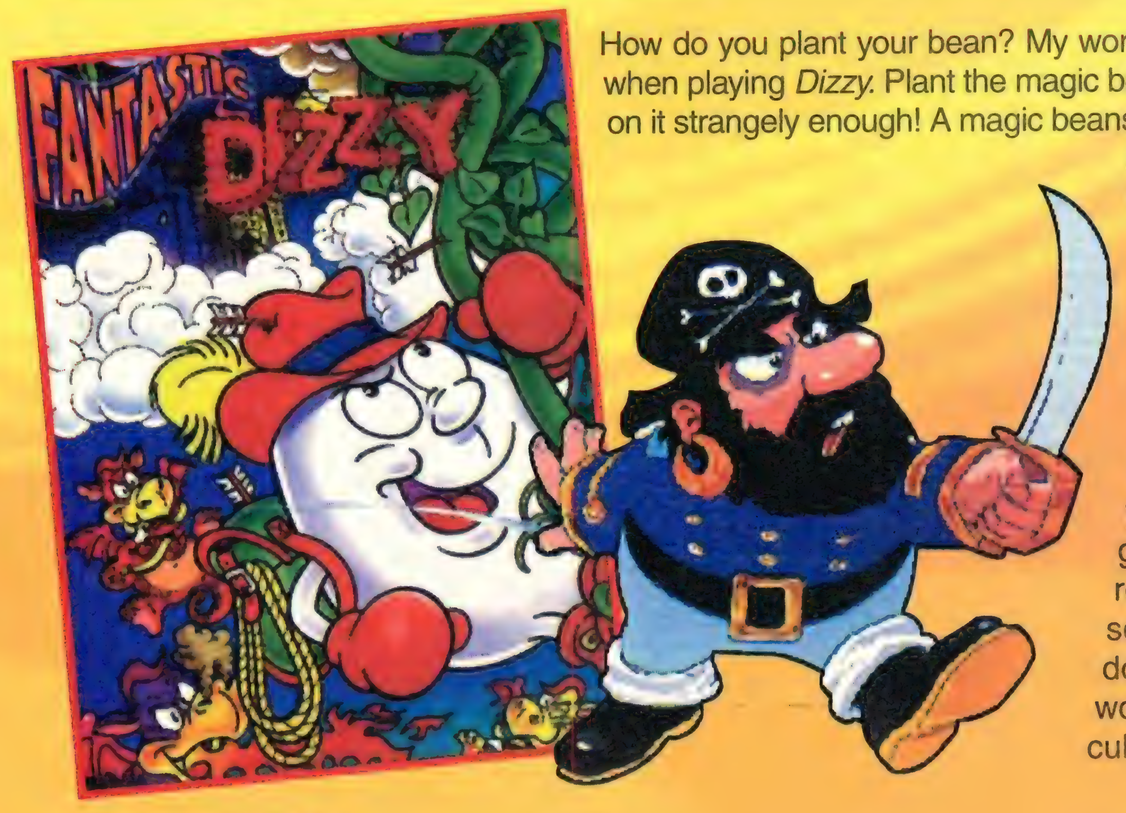

Do you live at 666 Hellfire Street Luke my lad. With a name like Evil I can only envisage a family something akin to the Munsters. Tell me young man does your Dad's neck contain a couple of handy bolts?

Your surname's quite appropriate as well, considering your question is about *Night Trap!* Anyway, I think it's about time to answer your question (Gee thanks Dr M and, for the record, I don't condone your abusive behaviour towards our readers. If only you hadn't cast the last editor to cross you into the Nintendo wasteland I might even do something about it - Ed). When the time reaches 19.00, you should be in the first hallway. When you get there, watch out for Magan as she panics and runs over the trap. Don't use the trap until the second time the bar goes red. You must trigger the trap at exactly the right time or else you lose the game instantly — and you don't want to do that, do you?

# FANTASTIC DIZZY (MD)

**How do I plant the bean and wake up Dozy?**
**Joanne, Shropshire.**

How do you plant your bean? My word, why don't you try watching *Gardener's World?* Let me explain how I'd go about it when playing *Dizzy.* Plant the magic bean on the grasslands, right at the spot where you see a sign with a picture of a bean on it strangely enough! A magic beanstalk grows there, leaving you free to climb it and reach Zak's Cloud Castle!

As for your other problem, you can wake up Dozy with the cymbals, found in the pool under the bridge and next to the mines. Use the axe to break the bridge. Once you have the cymbals, make your way back to the Dozy one's house. Drop the cymbals on the floor and, as if by magic, he wakes up!

For some strange reason, in return for waking him up, he decides to give you a rug! Now this is all very well and good - but if anyone walked into my room when I was asleep and clashed some cymbals at me, the last thing I'd do is offer them my duvet! Although it would be another matter altogether if the culprit was Mrs M!

If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# DOCTOR M.

**"FROM OUTER SPACE, HE'S ON YOUR CASE!"**

**Once again I have been roused from my peaceful slumber to sift through the desperate pleas for help of you mere mortals. For some reason my subterranean laboratory has been particularly busy these last six weeks, consequently I've again been granted four pages in which to spread my inspired wisdom. If you wish to contact me in future, fear not my Earthling chums, no problem is too big or too small to respond to; so write to me, DR M, at the following address —**

**SEGA XS, 124 Old Christchurch Rd, Bournemouth, Dorset BH1 1NF.**

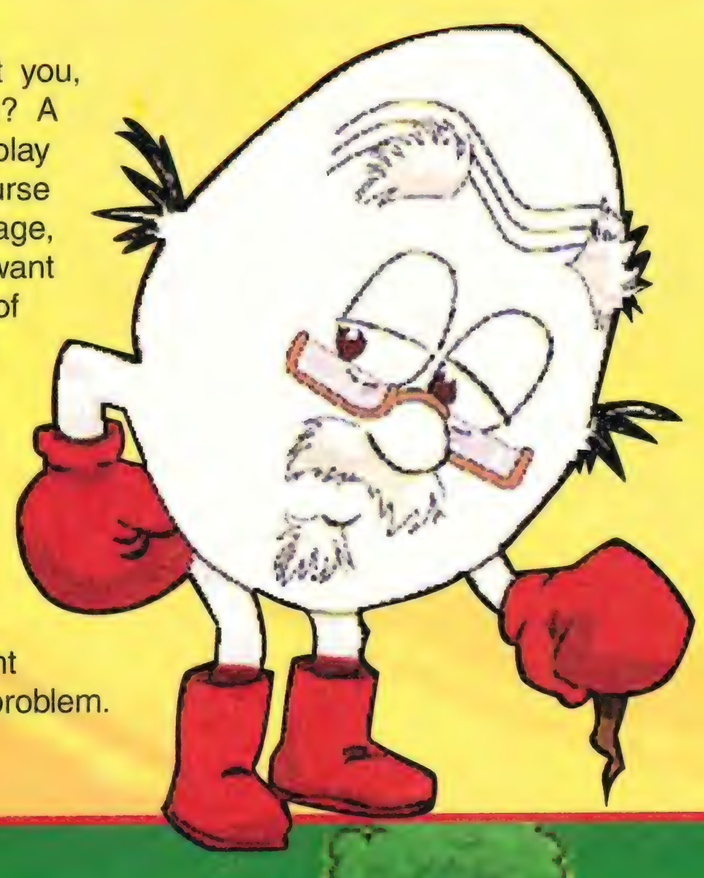

## FANTASTIC DIZZY (MD)

Please tell me where to find the straw, to light with the matches, and set Denzil free from his spell?
Graham Stalker, Peterhead

My, you are in a bit of a fiddle, aren't you, young fellow? Problems with matches? A lad of your age should know never to play with fire, but will you listen? No, of course not. Just like every other boy of your age, you think you can do just what you want without a care in the world for any kind of responsibility. Well let me tell you this, young Master Stalker, I've got my eye on you and, further more, I know just where you live (Oh dear, Dr M has finally lost it! -Ed).

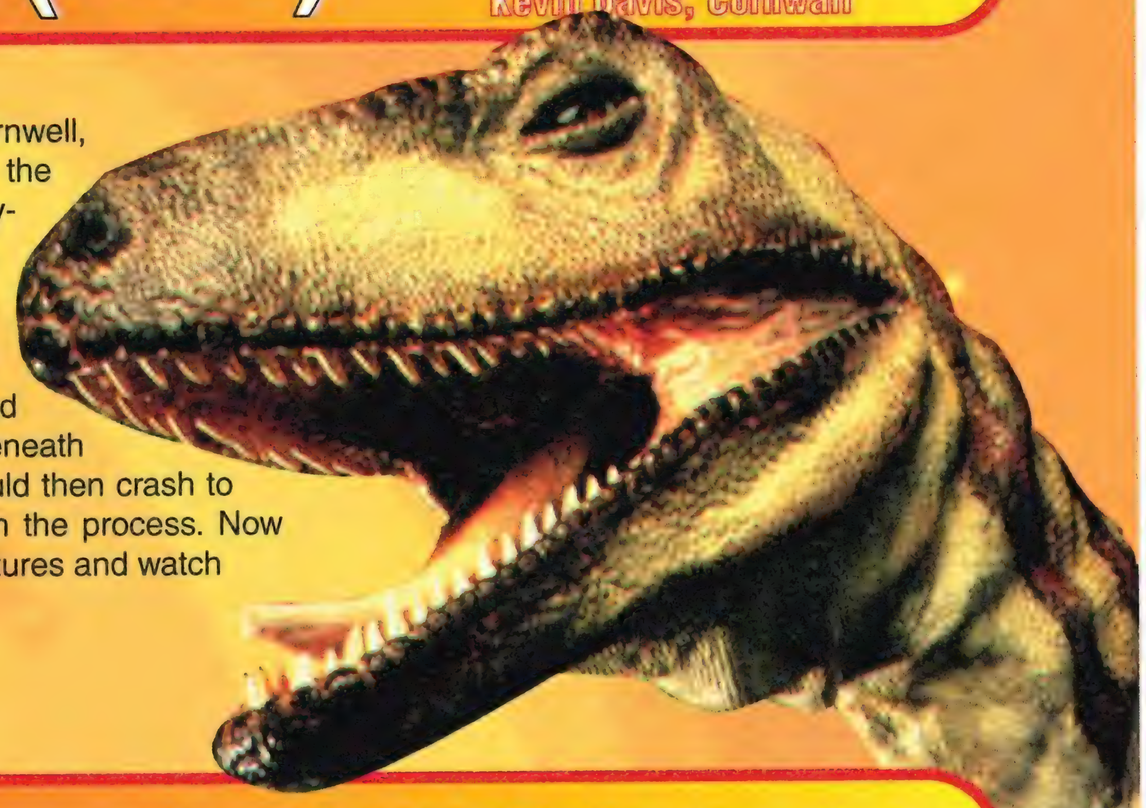

Anyway, onto the problem of finding the straw. It's hidden away on the Grasslands, between the leprechaun and the sub-merged log. Once you have the match in your possession, go back to the tree house, light the straw and set poor old Denzil free from his icy problem. There, happy now?

# JURASSIC PARK (MD)

**How do you defeat Grant on the very last stage, while playing as the raptor?**
**Kevin Davis, Cornwall**

I once had a glorious camping holiday in Cornwell, young Kev. It was, oh let me think, the Summer of 1745. Lovely green countryside, pleasant young country wenches, but I guess that's another story.

Anyway, onto your problem. To complete the game, playing as the Raptor, drop past Grant and simply kick the boulder beneath the larger skeleton. It should then crash to the ground, killing Grant in the process. Now sit back, take out your dentures and watch the end sequence!

# SONIC 3 (MD)

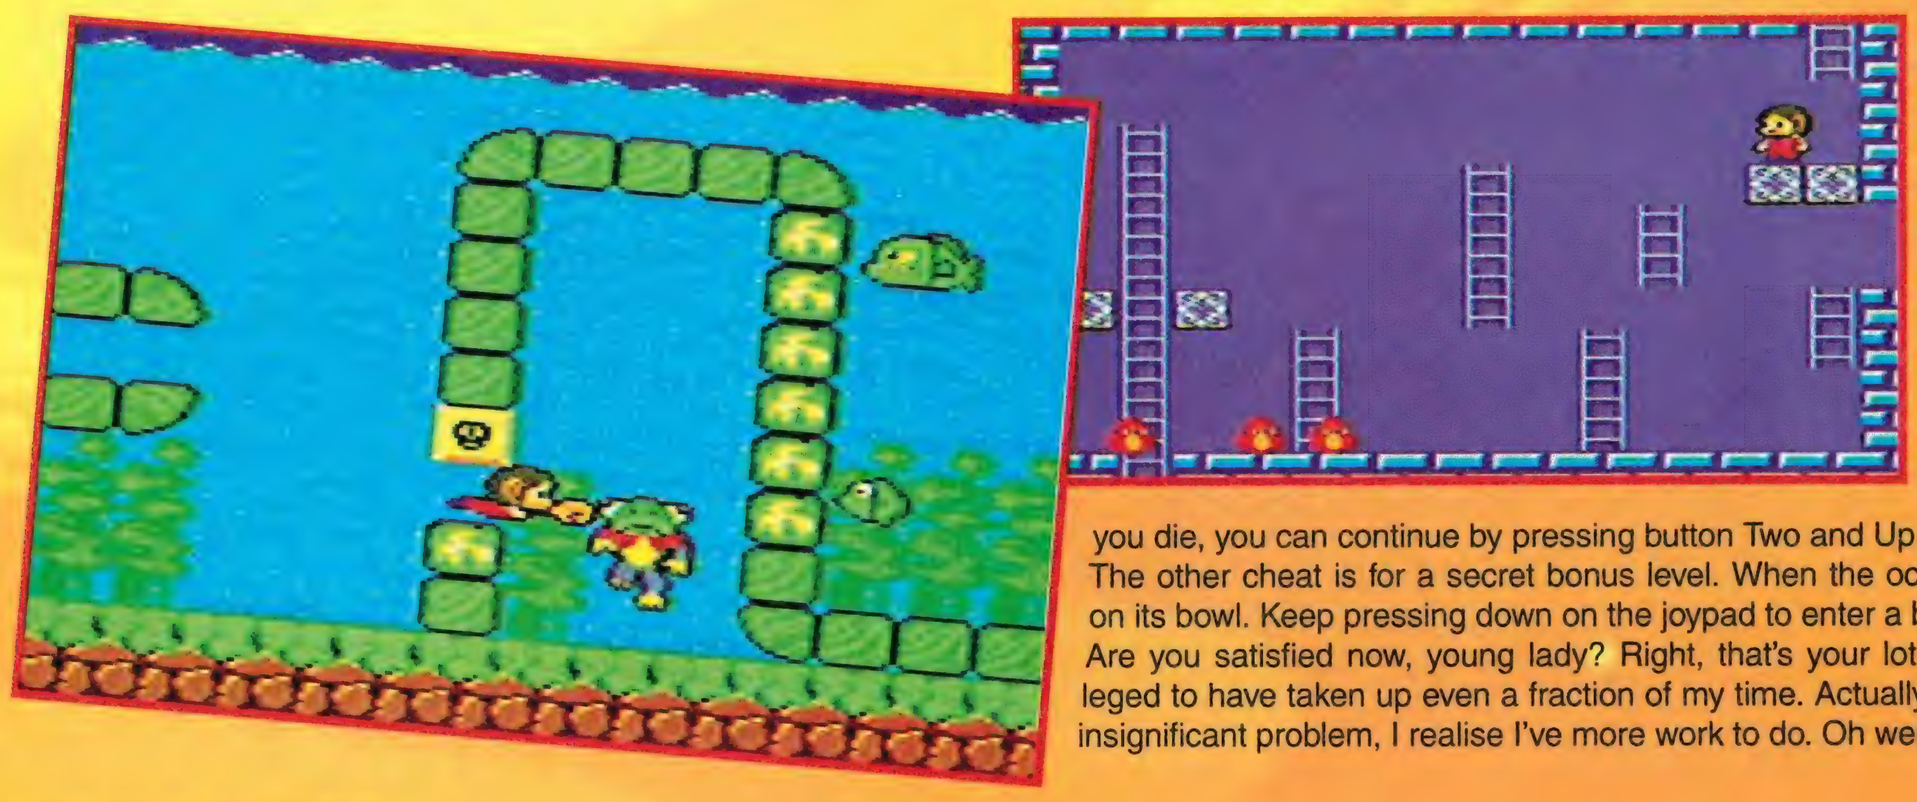

**I have collected all of the Chaos Emeralds, so why can't I turn Super Sonic?**
**Philip Hudson, Northampton**

Look Philip, it's really not that difficult you know. I'll spell it out simply for you, as I feel you may not be too bright! After collecting all the Chaos Emeralds all you need to do is collect 50 rings and you're Super Sonic. That's it. It's that simple. What really scares me is your generation will soon be running this Planet. Maybe it's time I filled the Space Ship with two stroke and sought a new home.

# ALEX KIDD IN MIRACLE WORLD (MS)

**Please can you help me, are there any cheats for this game?**
**Jessica Peters, Norfolk**

There are two particular cheats that I am aware of, Jessica - but the thing is, I'm growing tired, so I may not be able to write them both down before I fall into a deep sleep. Oh well, as I've always said, sooner started, quicker finished — or something…

Providing you have a score of over 4, 000 (easy enough to achieve) when you die, you can continue by pressing button Two and Up eight times simultaneously . The other cheat is for a secret bonus level. When the octopus appears, kill it and sit on its bowl. Keep pressing down on the joypad to enter a bonus level.

Are you satisfied now, young lady? Right, that's your lot then. I hope you feel privileged to have taken up even a fraction of my time. Actually, now I've finished with your insignificant problem, I realise I've more work to do. Oh well, no rest for the wicked!

# ASTERIX (MD)

**I'm having trouble getting through the levels in the time limit. Is there a cheat for extra lives or time?**
**Andy Lord, Avon**

Hmm, I seem to recall a certain wee member of the SEGA XS team having similar problems. Don't worry, I won't embarrass the poor culprit by mentioning his name; will I Mark! Ha, ha! Oh, I really am quite funny some times, aren't I?

Unluckily for you, Andy, there aren't any actual cheats for this game but I can offer you these level codes that might come in useful:

**Roman Encampment:** ..... **INSULA**
**The Forest:** ..... **CONDOR**
**Germany:** ..... **VIENNA**
**Roman Galley:** ..... **AVALON**
**Rome:** ..... **DULCIS**

# PUGGSY(MD)

**Is there a level select for Puggsy?**
**Karen Stokes, Fish Guard.**

Fear not Karen, you can rely on Dr M! Not only have I got the level select password but I also have passwords to all the end of level sequences:

Access to all levels: **600 276 007 714 325 661 027 316 576**

Access to Galleon EOL: **377 501 770 653 677 333 740 161 204**

Access to big Racoon EOL: **377 503 570 653 677 333 740 161 204**

Access to the other end of levels: **205 632 654 640 215 777 227 413 146**

Have fun trying out all of these codes, Karen, and if you want any more help don't hesitate to write in again (I think Dr M has a bit of a soft spot for you Karen. -Ed), remember I'm always here for you.

# ROAD AVENGER (CD)

**Do you have a level skip for this ace racer?**
**Paul, Tony and Craig, Welling**

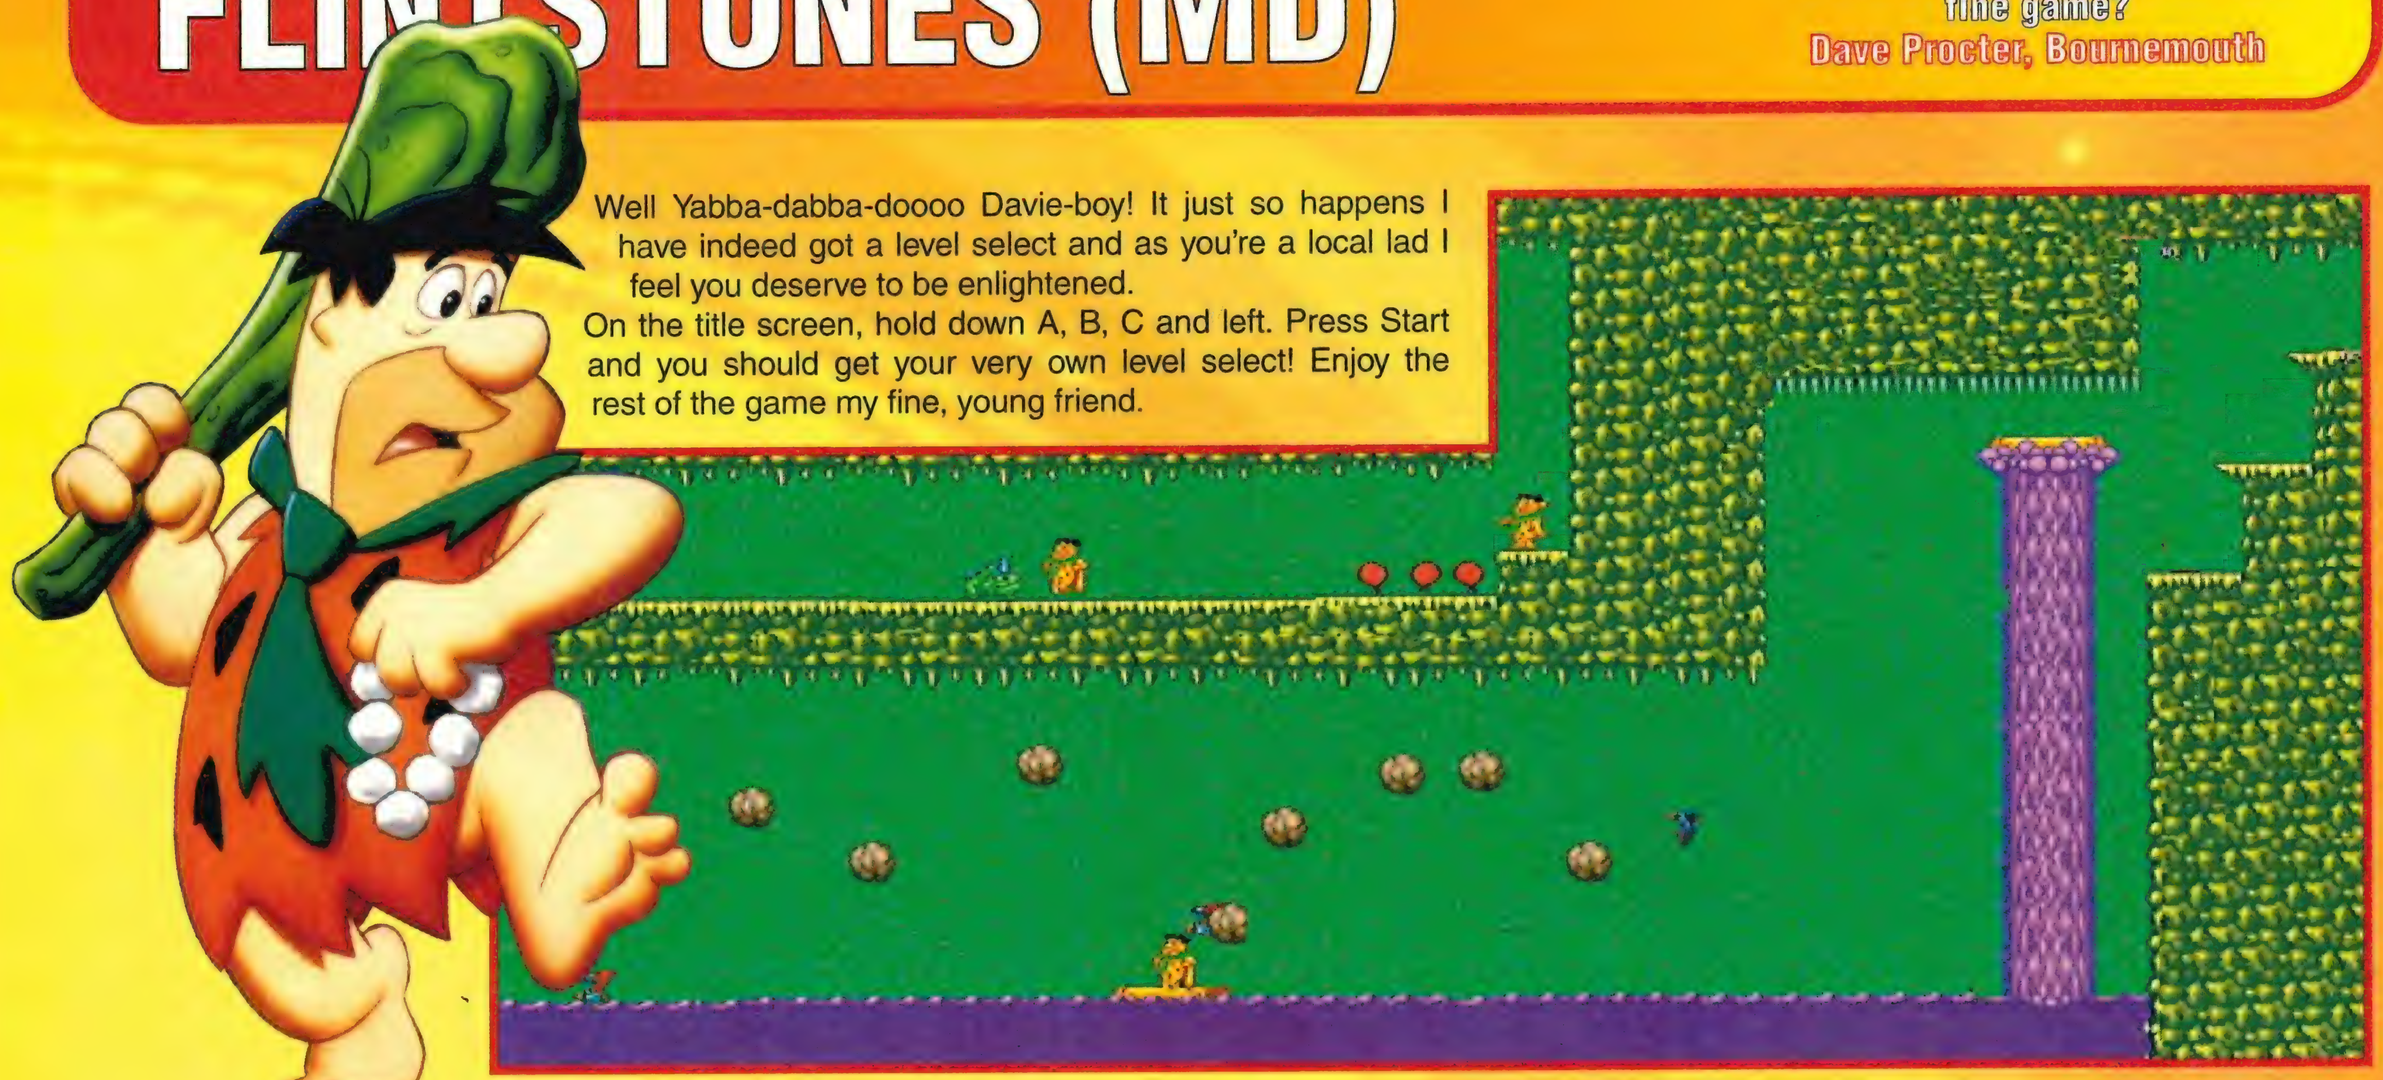

A level skip? Are you telling me you can't even get past the first stage? Normally I wouldn't look at questions like this twice, but I'm feeling in a good mood after the last letter, so I'm going to help you out this once.

Switch the machine on (you can manage that I presume) and go to the main choice screen. Press up and go to the option screen, highlight Players and press A six times. Now comes the tricky bit! Start the game and when it asks you what stage you want to start on press up to advance a stage!

# FLINTSTONES (MD)

**Is there a level select for this fine game?**
**Dave Procter, Bournemouth**

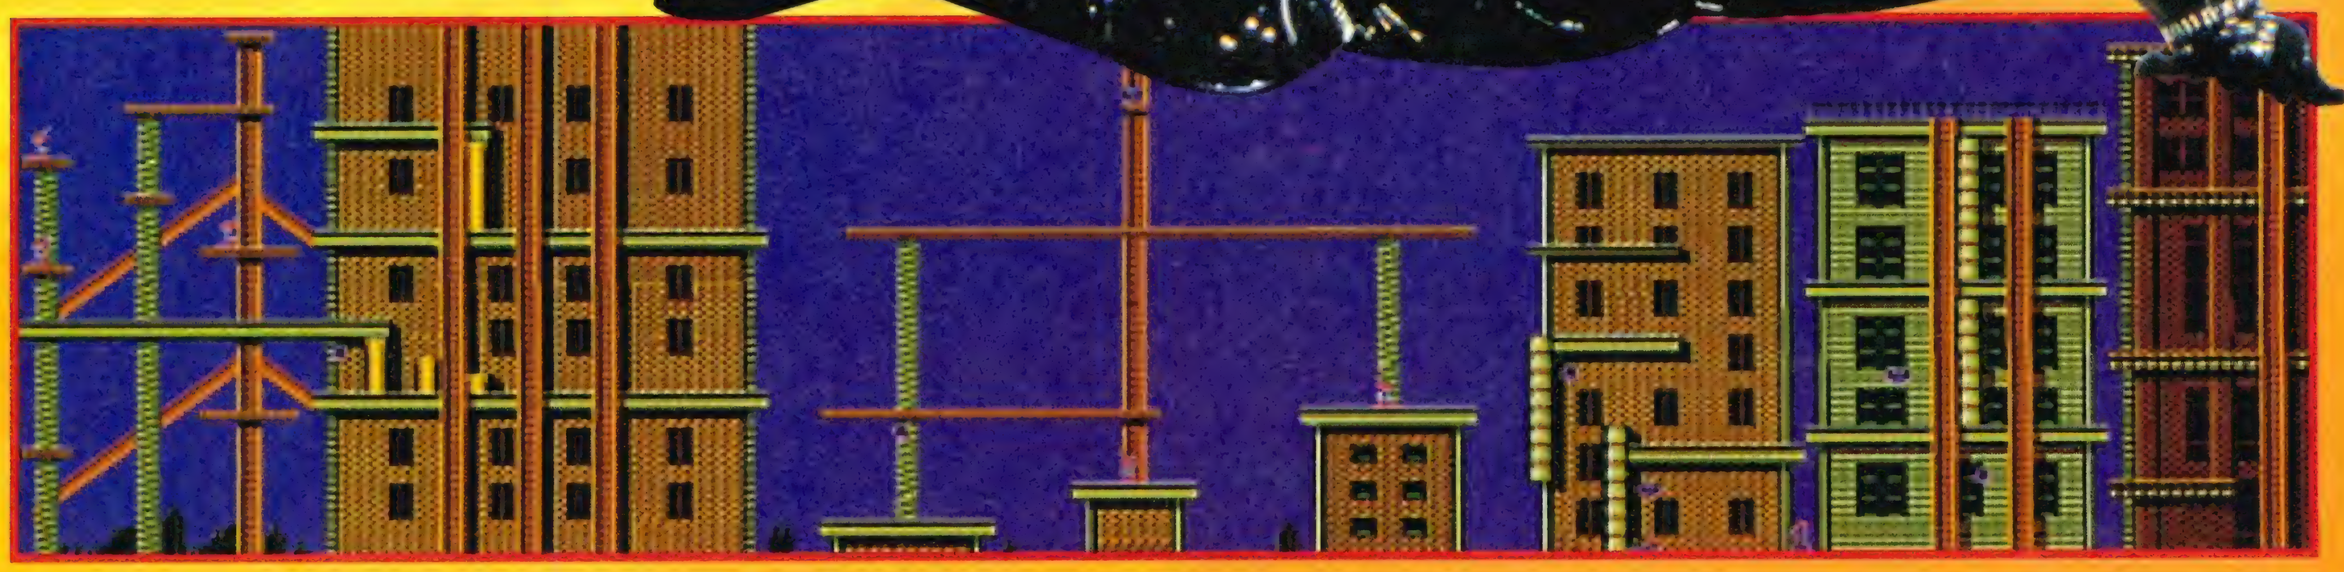

Well Yabba-dabba-doooo Davie-boy! It just so happens I have indeed got a level select and as you're a local lad I feel you deserve to be enlightened.
On the title screen, hold down A, B, C and left. Press Start and you should get your very own level select! Enjoy the rest of the game my fine, young friend.

# BATMAN RETURNS (GG)

**Are there any cheats for *Batman Returns*? Also what game would you recommend for me to get next?**
**Ian and Roy Sampson, Glos**

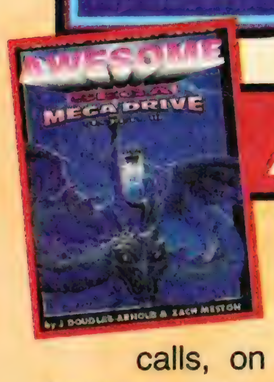

Well Ian and Roy, the answer to your questions lies within me and, seeing as you've written in such obvious desperation, I shall answer them. Aren't I kind? (Not to mention a tad tedious - Ed)
*Batman Returns*, eh? I seem to remember this being quite a good game, but has it got any cheats? Well no, it hasn't as such, but I can give you a few Action Replay codes. I only hope you have one of these important accessories, after all every cheat should have one! Anyway, back to those codes:
**ØØCØ21Ø3: Infinite Lives.**
**ØØC159ØA: Infinite Energy.**
**ØØCØ1FØ2: Infinite Specials.**
Now to your plea for advice. After you've finished off *Batman Returns* you'll probably want to get your hands on a copy of *DinoBasher* by CodeMasters. Once you've got the game, I'd advise you to get your sweaty palms on a copy of SEGA XS issue #6, which contains the complete solution to the game.
An essential buy is, of course, *Ecco the Dolphin* by Sega. This cart has it all — awesome gameplay, a high level of difficulty and oodles of lastability.
What more could you young fellows want? Go out and buy it immediately! In fact I'll be round to give you what for, if I don't hear that you've purchased this game. Don't think I won't know either.
I'm omnipotent after all, so beware the wrath of a Dr M scorned!

## SONIC 3 MEGA DRIVE

I must admit I've been driven insane over the past three months by the hundreds of phone calls, on the Red Hot Tips line, about this game. Imagine my delight when Matthew Silversides from Newcastle wrote in with some stunning cheats for the game. Come on down, Matthew, and tell the world.

***"After you hear the voice say SEGA and Sonic starts to come onto the screen, quickly press UP, UP, DOWN, DOWN, UP, UP, UP and UP. You should then hear a chime. This may take a few tries. The best way is to use your thumb ball and tap the buttons. If you now look under COMPETITION there will be a sound test. Really this is a level select. The Flying Battery, Mushroom Valley and Sandopolis zones are actually two-player levels.***

***Choose any zone on the level select and simply hold A and press START on the level. In the level, press B to turn Sonic into an object, C to duplicate and A to change into something different. Turn into a TV and then jump onto it. You will now turn into Super Sonic!"***

Cheers Matthew, have a copy of *Awesome Mega Drive Secrets III* on me!

## SENSIBLE SOCCER MEGA DRIVE

This is the one of the most popular football sims to ever hit the Mega Drive. Packed with awesome playability it's a must for any footie fan. To make life easier for any new recruits to the game, Sean Lee from Merseyside has a cunning tip.

***"If you want to play one of the options you can't select on the beginner level, such as the Cup Winners Cup, follow these steps very carefully indeed. Start a game on Normal or Hard level, then abort and go to the options screen and change to Beginner level. Go back to your previous screen, for example Club Teams. Choose Cup and you will have the option of continuing the Cup Winners Cup on Beginner level. This cheat works for all the extra options."***

What a way to equalise son, what a way to equalise!

# PGA EUROPEAN GOLF

MEGA DRIVE

Martyn Smith from Surrey certainly knows the difference between his bogeys, as he proves with this guide to EA's latest golf game! If you ever wanted to know how to double your winnings, Martyn's your man!

***"Play the game as normal, playing skins is best as you get more money, and save the game on the eighteenth hole, just before you tee off. Play the last hole and go to the option screen to check your score.***

***Restore the game you just saved and play the last hole again. When you win this hole, all the money you've won during the whole game is added to your score. This can be done as many times as you like, as long as you don't reset the saved game.***

***Save the game at the beginning of each hole, if the ball goes off in the wrong direction then you can just restore it and play the hole again until you get it right.***

***One more small cheat for the game — set up the computer's shot on the green. If you play as normal, let your opponent get on the green and press START. Now go to shot and select green. The computer will show you a plan of the green. Move the cursor in either direction as far as you want and continue the game. The computer will now take the shot you just set up for him."***

Thanks and I hope the tips book comes in handy!

mies positions, the evil should be virtually destroyed.
If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# DOCTOR M.

"FROM OUTER SPACE, HE'S ON YOUR CASE!"

**Well readers, it's finally happened. For weeks, I've been trying to ignore it, but no more! Eventually every man must admit to his hidden desires — admit to them and then maybe conquer them. For some people it's the demon drink, while for others it's women. Sadly, I can't hide behind a wall of lies any more (Well get on with the intro then! - Ed) and have a desperate confession to make — I'm addicted to *Mortal Kombat II* and *Super Streetfighter II* on my faithful Mega Drive. I just can't help myself! So, if anyone wants a hand at either of these brilliant games or any other game you happen to be stuck on, just drop me, Dr M, a line at the following address: SEGA XS, Paragon Publishing, 124 Old Christchurch rd, Durham House, Bournemouth, BH1 1NF.**

## RINGS OF POWER (MD)

Please, please can you help me find the Sextant?
Mrs G Morgan, Port Talbot

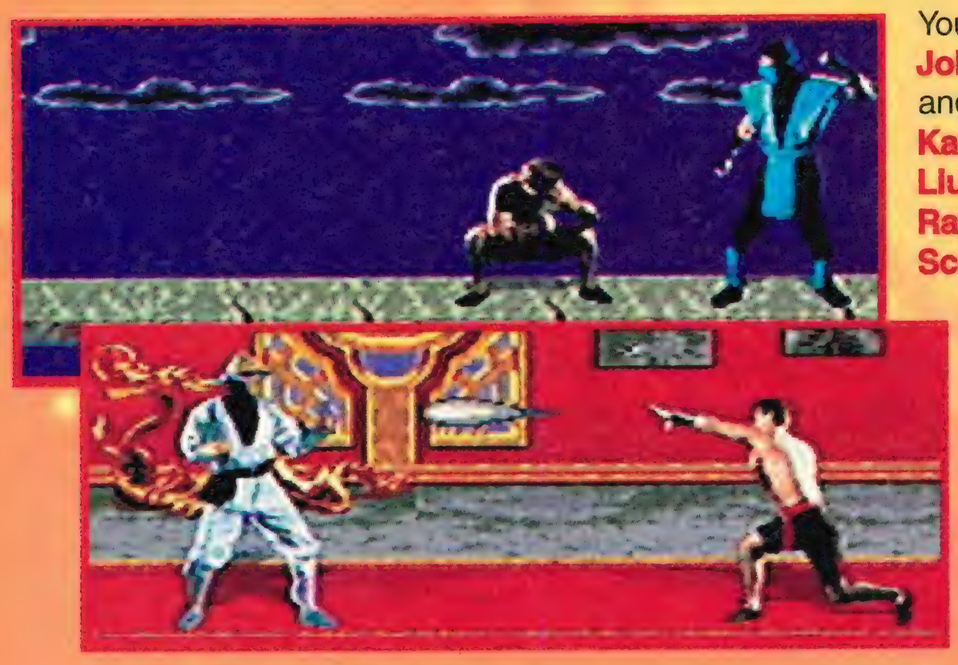

Well my dear lady, you do seem to be in a bit of a pickle about this don't you. However, as always I'm at hand to ease your gaming constipation with a well deserved laxative of helpful advice (You really are a sick man! - Ed). In fact my mailbag has been bulging with questions about *Rings Of Power* this issue. I can't for the life of me understand why, it's a very straightforward cart after all!

Right, ever onward, here's the answer to your query. Instead of travelling above the waterfall, go below it along the wooden bridge and push up when you are in front of it. You now enter a cave where the Sextant is hidden. From this moment on you're able to use it's co-ordinates to pinpoint items. Very handy I'd say!

## MORTAL KOMBAT (MD)

Please tell me how to do all of the Death Moves on this great game?

# REVENGE OF SHINOBI (MD)

**I am stuck on District 7 - The Breakwater. Why can't I make some of the jumps, even with Fushin magic?**
**Alan Jones, Hartlepool**

Do you know what your problem is, sonny? Like most of the youth of today, you just don't have any patience! District 7 CAN be passed. Believe me, for I myself have done it on a number of occasions!

Use your Fusion magic and only jump when you reach the very edge of a platform. Once you've done this, hold down on the jump button and push right. It takes some time to perfect this, but persevere and you should just about scrape through...

To get the Ring of Perfection, talk to the expert on perfection in the library in Oxbridge about your quest. After this go to the library and find a note about the Ring of Perfection.

In the Cathedral, there is a monk you should talk to about your quest, and then go ahead and search the shelves near him for a book about the Chamber of Perfection. Now go to the Celestial City and, during the day, talk to the Sun priest in the Temple of the Sun about your quest. He will direct you to a man in the library, who you should talk to about your quest. Search the shelves for a factory pass, go straight to Blood and then find a factory at a graveyard on a hill. If you have a factory pass, the guards will let you in.

Talk to the factory master and get the embalming fluid off him. Give it to the Sun priest in the Celestial City. Now go to the third floor and use the key to open the chest and get the Sun Gem. When night comes, go to the Temple of the Moon and talk to the Moon priest about your quest. Go to Sparta and show the Moon priest's request to the Marshall. Now go over to the arena and fight the bear and dragon. Return to the Marshall and talk to him again.

Find the foam pool in the Temple of the Moon and search it for the Moon Gem. Now go to the chamber of Perfection, where you will find Fezzik. Show him the Moon Gem and the Sun Gem before you fight him for the final ring — the Ring of Perfection.

Now that was all a bit of a mouthful. I hope you understand all that young Martin and may you enjoy the rest of your quest. Of course, you won't ever be as perfect as I am at this little game, but then again who is?

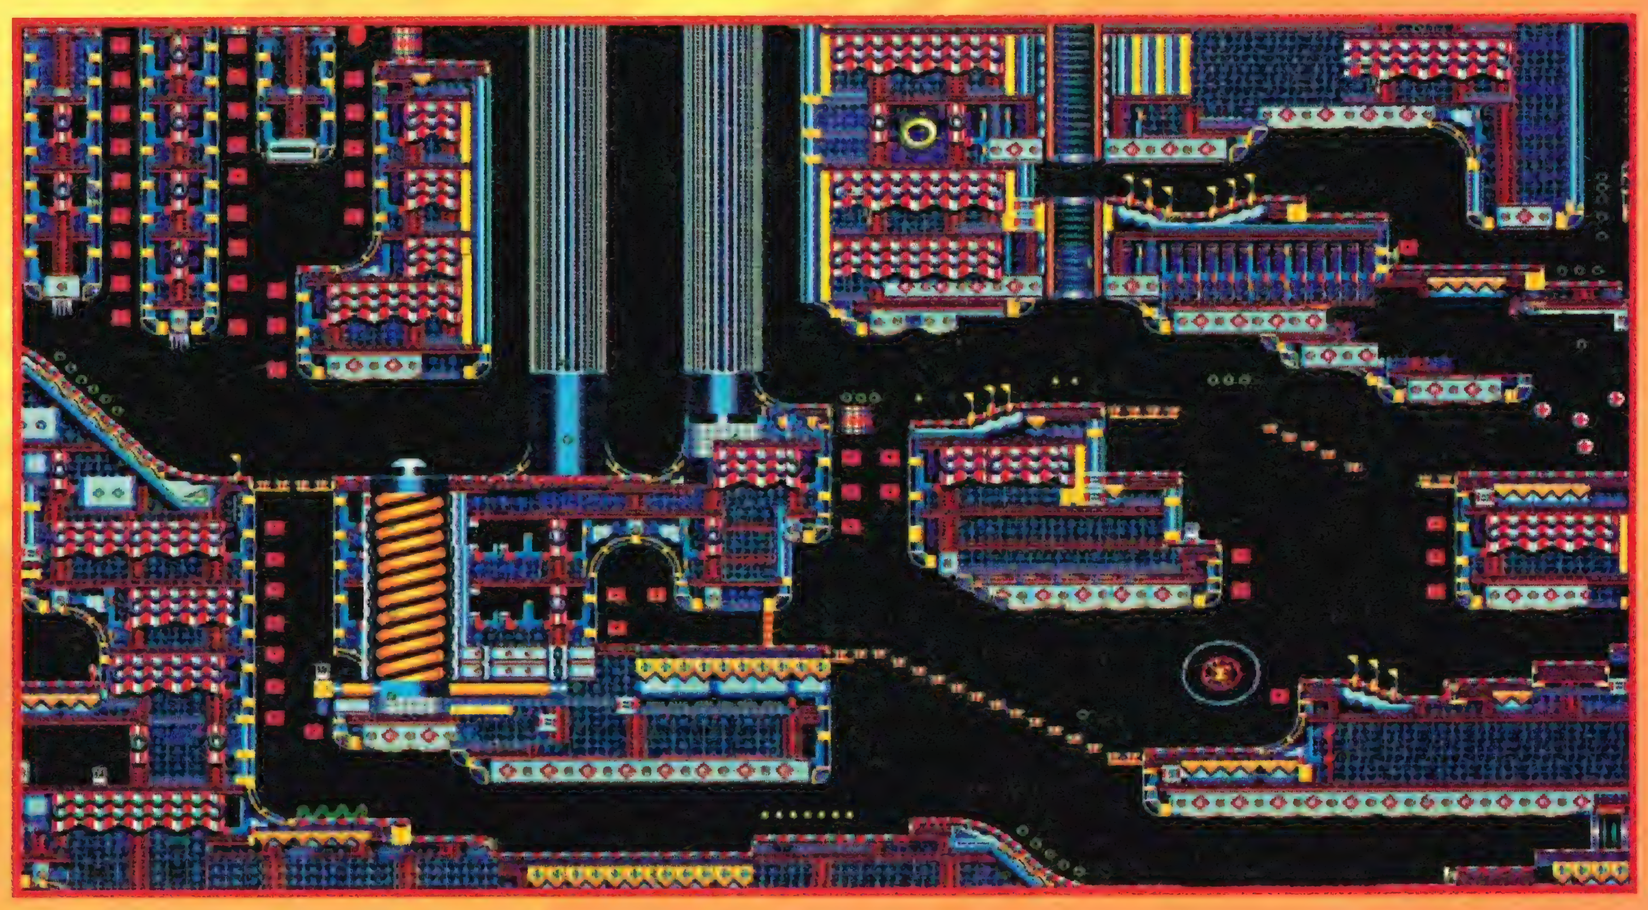

# SONIC 3 (MD)

**On the level select it shows three extra levels, but it won't let you play them! Why?**
**Ross Loram, Devon**

Oh dear, I knew this question would eventually crop up. For months, the SEGA XS crew have been bombarded with calls about this game and I bet you know what the question was? Yes, that's right young man — "Why can't I access the three secret levels?"

The answer to this question is quite simple really, the three 'secret' levels you're trying to access aren't, in fact, secret levels at all! What you're trying to do is open up the split-screen two player stages! Can you believe it? Oh well, life can be funny at times.

The poor unfortunate who has to field all these calls is usually that wee whippersnapper Mark Pilkington and, do you know, he seems to find the constant barrage of questions about this subject a bit daunting. He's even taken to slamming his head against the office wall, while tightly gripping a huge poster of the spiky, blue megastar we all love. How strange!

# ANOTHER WORLD (MD)

**How do you actually manage to complete this game?!**
**Adrian Rogers, Surrey**

Hmm, the last section of this tricky game is a bit of a puzzler, isn't it? What you have to do is crawl to the levers and wait for the two guards to stop their fight. Your pal then falls off as the enemy approaches you. When the enemy is in the middle, pull the first lever and he is instantly vaporised. Now pull the second lever and the roof opens. Tap left and crawl back to the centre of the room. If you have timed it right, the laser beams miss you and you're teleported back home, just in time for a nice cream tea!

# SONIC 2 (MD)

**How do you defeat the boss of the Metropolis Zone?**
**Alastair Lyle, London**

Now then, young man, I'm pretty annoyed I have to answer this simple question! I was just having a jolly two-player game of *Super Street Fighter II* and was about to lay the finishing blow on Mark (the poor chaps never actually managed to beat me!) when Chris calls me over, politely as always, and hands me this letter to answer! Annoyed? You bet! Oh well, you asked a perfectly legitimate question and as such it deserves answering.

The Metropolis Zone's version of Dr Robotnik is probably one of the hardest baddies in the game. His hovercraft is protected by rotating spheres, which are dangerous to hit. However, never fear, there is a way around this problem! When the spheres rotate in a straight line horizontally around his hovercraft, jump up and hit him from below. If you're having trouble beating the fat fool, drag a friend around your house and get him to control Tails. Your friend can now attack Robotnik, along with you, giving you twice the firepower.

# MASTER SYSTEM (MS)

**Please can you tell me how to do all of the special moves for the Master System?**
**Jonathan Nattrass, Carlisle**

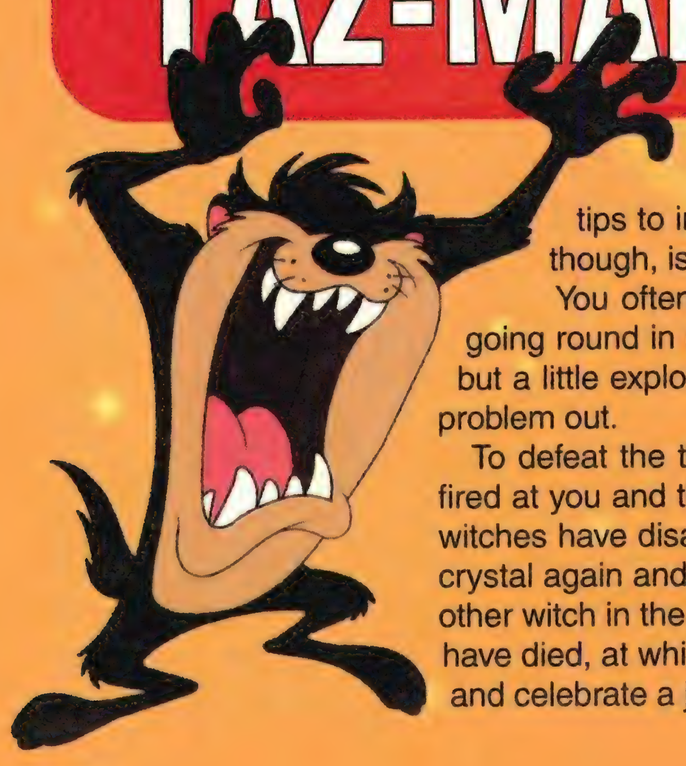

The Master System is a tricky little console to get to grips with, but after a while of playing around with it, you can actually accomplish some pretty impressive special moves! I have listed them all below, along with their effects.

**The Turn On**: Press towards and on once you get near the machine.
**Aerial Lock**: Pull the aerial lead away from the machine and into the Television.
**Joypad Dive**: Put the pad down on the floor, then leap up into the air and land on top of it!
**Tea Spiller**: A devastating move to perform on the machine, simply hold a hot cup of tea over the MS and let go!
**Door Stopper**: Press towards, up and once you get to the a door, down. You can now use your Master System as a door stop!

(Snip… Dr M continued in this sad vein for another page or so, chuckling as he wrote. What he's trying to tell you, in his usual cruel way, Jonathan is your letter forgot to mention which game you wanted help with. Write again and I'll make sure he answers your query with a little more courtesy! - Ed)

# TAZ-MANIA (MS)

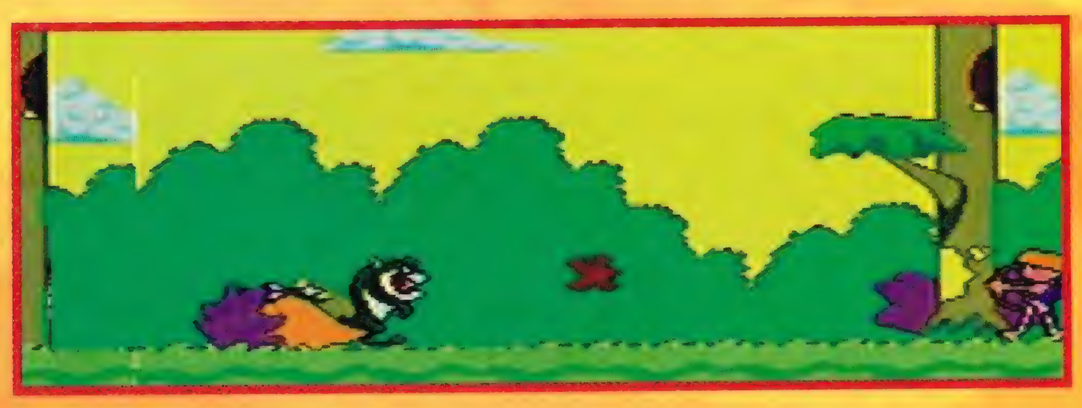

**Is there any way of getting out of the ruins?**
**Lyndon Stewart, Derbyshire**

A tricky little one this, isn't it? While I can't actually play the game for you, what I can do is offer you some hints and tips to increase your knowledge of this level. The first thing you notice about this stage is it's pretty damn big. A nice bonus though, is there are plenty of objects and extra life up for grabs!

You often find yourself in a place you've already been to before, without quite being sure how you got there. This is called going round in circles and can become quite frustrating, but a little exploring here and there should soon sort the problem out.

To defeat the two guardians, jump over the first crystal fired at you and then jump onto the top platform when the witches have disappeared. When they reappear, jump the crystal again and land on the opposite platform, hitting the other witch in the process. Repeat this technique until they have died, at which point you can pat yourself on the back and celebrate a job well done!

# SONIC / DIZZY/ ASTERIX (MS)

**Are there any cheats for any of these games? I hope you can help.**
**Jenny Rowan, Wolverhampton**

Can I help? Of course I can, Jenny my dear! Especially when I consider the top picture that you've sent in - it brightens up the office wall even as I write this!

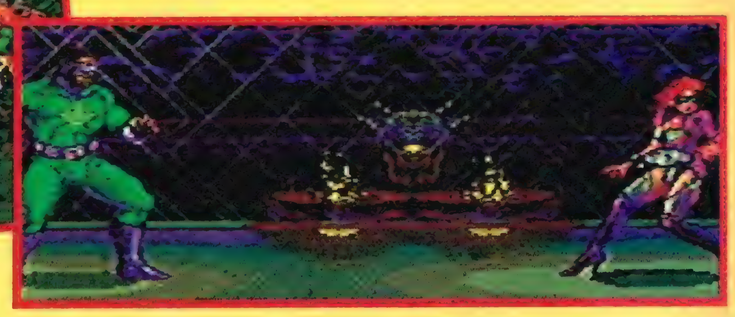

Sadly, there are no known cheats for Sonic and Fantastic Dizzy on the Master System. Asterix, on the other hand, is a different story - just look in the Busters section for full details on how to achieve infinite lives and access two secret rooms! Thanks again for the picture Jenny, Sonic and Tails have never looked better!

# ETERNAL CHAMPIONS (MD)

**How do you do the Midas Touch move for Xavier Pendragon?**
**Ben Murphy, South Wales.**

Ah-ha-ha! The Midas Touch move, eh? A tricky one to master, it takes time to charge up to, and it can be blocked. Press back for 5 seconds and then forward and Y. Get it right, and you turn your opponent to gold, much like Sub Zero's ice move in *Mortal Kombat*!

Actually, that reminds me. Did I ever tell you that I've currently got a bit of a craze for beat-'em-ups? I mean, check out Shadows Thigh Boot Crunch and Skyscraper Thunder or what about Jetta's Cabinet of Delights and Moving Corkscrew?

# FANTASTIC DIZZY (MD)

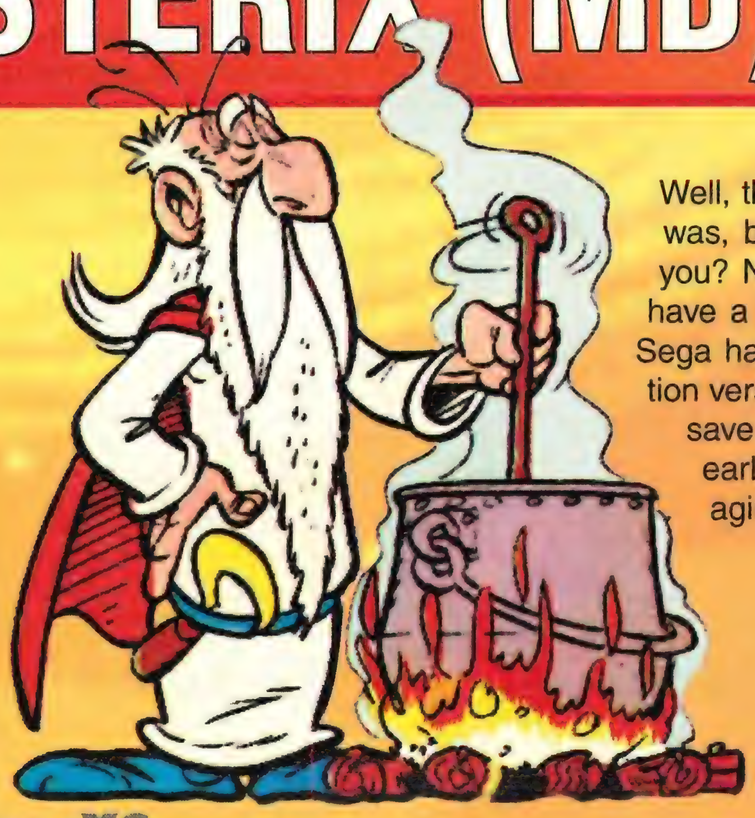

**Could you please tell me if there are any cheats for this game?**
**Stephen Thomas, Dyfed.**

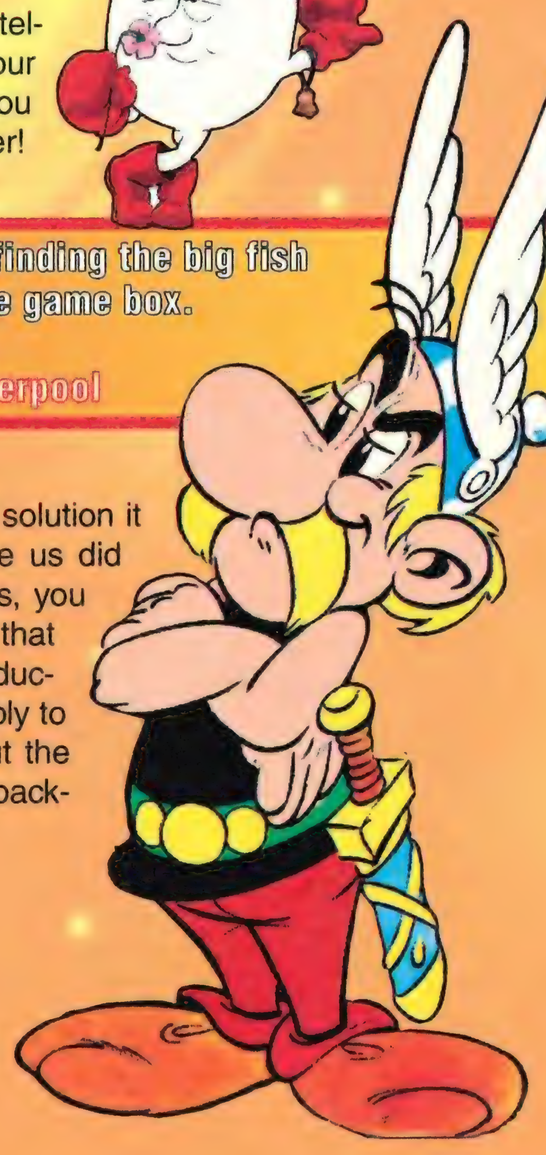

For some reason, Chris doesn't seem to like this game, whereas I do. I put this down to my superior intellect! Anyway, to answer your question, I'm afraid there aren't any cheats for this egg-citing game ( If your superior intellect comes up with dreadful jokes like that your welcome to it! - Ed), Stephen. I can give you an Action Replay code, though, so here it is: **FF81490002**. Put this in and infinite lives are yours for ever!

# ASTERIX (MD)

**We are having problems finding the big fish pictured on the back of the game box. Can you help?**
**Les & Magaret Tartt, Liverpool**

Well, thanks for saying what an excellent solution it was, but you didn't just write in to praise us did you? No, as with most people these days, you have a problem! Hmm, I can only guess that Sega had that fish included in the pre-production versions of the game. Later on (probably to save memory), the fish was deleted but the earlier game shots made it onto the packaging. Life, eh? Isn't it strange!

## MICRO MACHINES

GAME GEAR

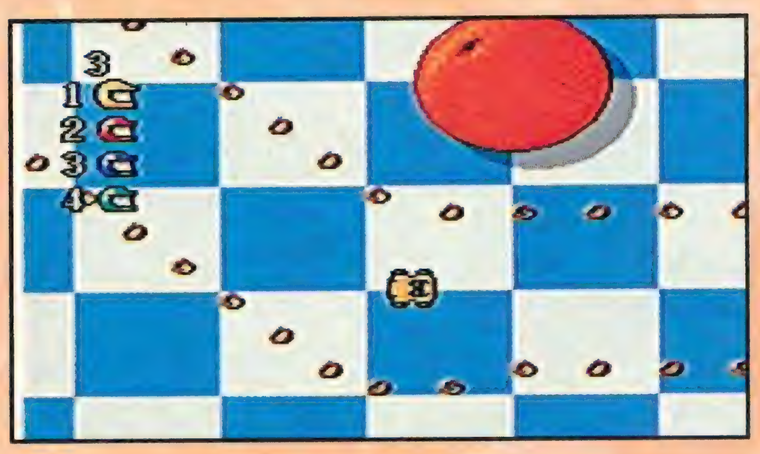

*Micro Machines* is one the best games ever to emerge on the Game Gear. With its addictive blend of challenge and gameplay, this was one game that really brought the boy racer out in us all! In fact, we liked it so much we even completely mapped the whole game back in SEGA XS 7, complete with tips and tactics for every track! However, life wouldn't be complete without a cheat to round things off nicely, so step forward reader Alan Daly from Eire, and tell us the facts as you know them!

***"Here is a cheat to win every race. On the first level, after qualifying in challenge mode, drive the wrong way around the track. After one lap, you'll hear a tone to confirm the cheat has worked. From now on, you appear in first position after every race, regardless of where you finished.***

***I also have a tip for winning bonus points in the head-to-head against the computer. When the two cars start to pick up speed, slightly nudge your opponent. This slows him down slightly. Now pull out directly in front of him and press button two to brake. He now crashes into the back of your car and you're free to press button one and accelerate away. Leaving him far behind and earning yourself a bonus point to boot. This tip works best on a long straight!"***

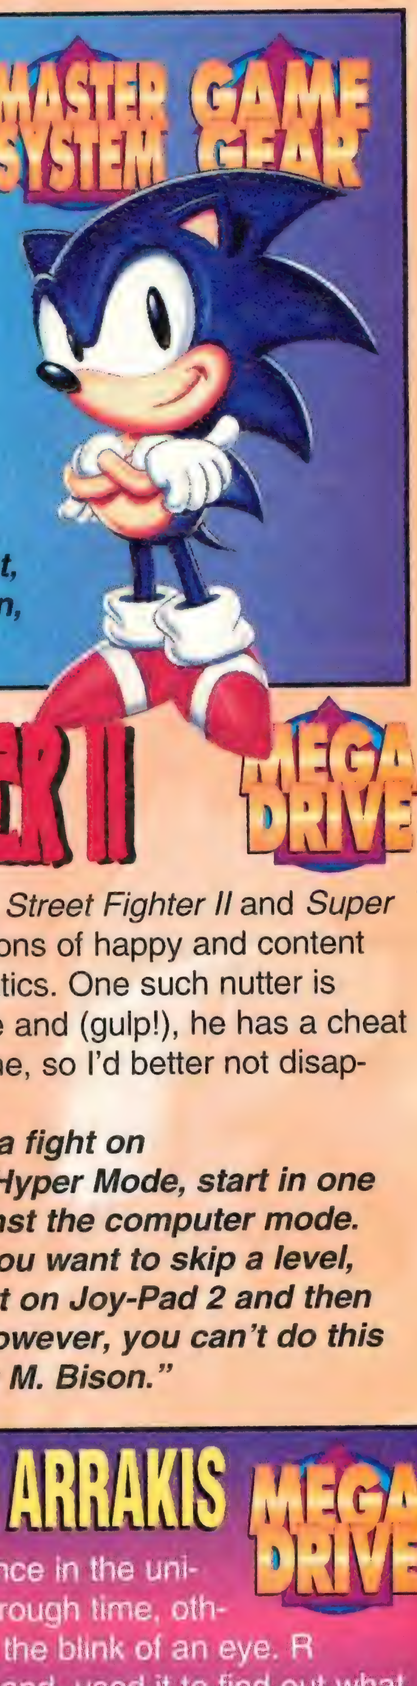

## SONIC CHAOS

MASTER SYSTEM GAME GEAR

Sonic the Hedgehog has become something of a cultural icon now. I mean, just look at him! Posters, T-shirts, Comic books, Cartoons and even Computer Games for Pete's sake! Whatever next, eh? A tip from reader Jenny Rowan from Wolverhampton perhaps?

***"Here is a level select! On the title screen, press Up, Up, Down, Down, Right, Left, Right, Left, 2 and then 1. On the Game Gear version, just press Start at the end of that."***

## SUPER STREET FIGHTER II

MEGA DRIVE

Two of Doctor M's favourite games, *Street Fighter II* and *Super Street Fighter II* have turned millions of happy and content gamesplayers into snarling lunatics. One such nutter is Matthew Baker from Shropshire and (gulp!), he has a cheat he wants to give me, so I'd better not disappoint him!

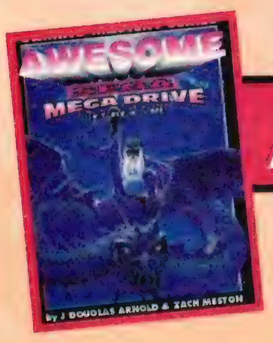

***"To skip a fight on Champion/Hyper Mode, start in one player against the computer mode. Whenever you want to skip a level, press Start on Joy-Pad 2 and then beat-up player two! However, you can't do this on the last fight against M. Bison."***

## STREETS OF RAGE 3

MEGA DRIVE

Mandy and David Cunliffe from St Helens fancy themselves at *Streets of Rage 3* anyday. Who can blame them, when they have fancy cheats such as this up their sleeves?

***"At the end of level 2-1, there is a Kangaroo and his keeper. Don't kill the Kangaroo, but kill his keeper. When the keeper is dead, the Kangaroo will run off. Now the next time you lose all your lives and select continue, you can choose to play as the Kangaroo who has some strong punches and special moves in his pouch. The Kangaroo cannot pick up weapons, do backslams or throws but he can do a rather nifty spinning kick similar to Ryu's in SFII!"***

I wonder what this new character's hobbies are? Boxing, maybe? Anyway, have an *Awesome* book on me, for this great cheat!

Hyahhh! Take that, Sucker! Bang! Pow! Biffo! Balloga! Yes, its time to get it on, so come out with your fists raised — the *SEGA XS* battle royal is now on! Anyone fancy their chances? Are you looking at me, Joost Winne from Belgium? Ahh, no, NO! I didn't know that you had all of the special Moves for Mortal Kombat! Help!

## GODS

So it came to pass that a young man going by the name of Peter Sinaman would emerge from the icy mountains of fear, the dark dungeons of blood, the twisted forest of evil and the city of lost souls barely alive! His epic quest had taken him month after month to complete, with the help of the complete solution in SEGA XS 6, and at last he has found the secret he was after! Tell us, Peter, what is it that you have discovered?

If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.

At this point the boss will have raised his helmet, so you must be quick with your attack. Jump up and shoot the flashing nucleus located above the neck. # DOCTOR M.

**"FROM OUTER SPACE, HE'S ON YOUR CASE!"**

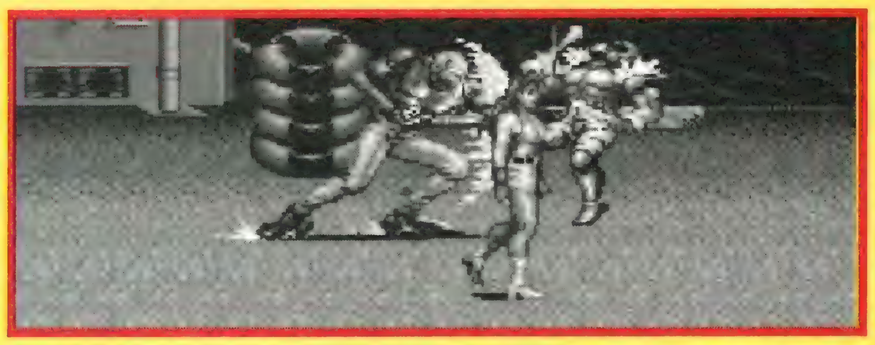

**Write to Dr M with your problems at: SEGA XS, Paragon Publishing, 124 Old Christchurch Road, Durham House, Bournemouth, BH1 1NF. He's very friendly, and he doesn't bite. Well, apart from that rather nasty incident at the last Paragon Party — the one where he drunk two glasses of shandy and got a bit carried away with the barmaid, before asking the head waiter outside for a bundle. In fact it took the whole SEGA XS team to stop him! Oh well, that's all in the past, Dr M is a reformed character these days, as long as you don't let him near the shandy!**

## STREETS OF RAGE III (MD)

How do I get past the bosses on level 4?
Paul Eccleston, Luton

If you're having problems with *Streets of Rage III*, maybe it's time you invested in a back issue of SEGA XS, namely issue eight which contained the full solution to this enjoyable beat-'em-up romp. However, as it's my birthday soon and Mrs M has promised me a special treat, I'm in a good mood, so I think I'll give you a little helping hand with your problem.

Right then, level 4 contains three rather scary bosses who go by the name of Yamato. They will come onto the screen individually, throwing shurikens as they go. Keep moving to avoid these and attack them with a Power Move and low Foot Sweeps whenever you get a good opportunity. The best fighter to use during this section is Skate.

## SPLATTERHOUSE 2 (MD)

How do I kill the Red Monster on level 8? Are there any more guardians? Should I buy *Splatterhouse 3*?
Mohd Amir, France

Well really Mohd, my little Parisian friend, you're just full of irritating little questions aren't you! However, as you're obviously a fan of these blood feasts it would be cruelty not to answer your trivial queries.

You'll be pleased to hear the Red Monster is, in fact, the final guardian! Punch the evil creature a few times and a horde of devil dogs will attack. The way to defeat them is to get to the right of the screen, punch the first dog, then jump over the second one and attack the hell beast! The final transformation of the hell beast is into a bloodthirsty bat's head, which flutters all over the screen. Continually hit the head or it changes back into the beast and you have to start all over again! Hit the bat's head four times, and you've completed the game!

Should you buy *Splatterhouse 3*? I think you should, but I'm an ageing sociopath who doesn't mind admitting to feeling pleasure at the sight of a mortal's suffering (My God, Dr M's a serial killer! - Ed). To give you a more impartial view on the subject, here are a few lines from the review of the game in SEGA XS Issue 4, written by young Mark, who's completely normal by the way:

"Gore galore is featured here, everything from heads being ripped off, to dismembered hands and slime oozing from the walls. After playing the game for a while, I quickly found that the gratuitous violence has the opposite effect; causing laughter, not offence." So, if you like gore, buy this game!

# ASTERIX (MD)

**How do I get past the man on the log at the end of level three?**
**Mrs B M Brown, Notts**

Asterix is one of those games I find particularly frustrating and the level three guardian is one example of this. To defeat him, frantically move your fingers back and forth over buttons A and C. By doing this you should easily win the battle. Finally, if you thought that was tough, just wait and see what the other levels have to offer!

# X-MEN (MD)

**How do you make the infinite health, mutant powers and level select cheats work?**
**Mr S R Blackburn, Stamford**

Right lets sort this problem out once and for all! If these cheats don't seem to work, its only because you're using a different version of the game to the one we used or because you're not entering them correctly.

To get full health, mutant power and back-up team, press A, C and Down on the title screen. Plug the controller into port two and press start when you see Magneto. Now play the game to your hearts content in port two.

As for the level select, to the right of the danger room there are eight panels on the wall and six on the floor. Each is a level. Stand on any tile and press Down and C to warp!

If you're still stuck, I'm afraid there is little hope for you. However if your worrying little niggle persists, write in and explain to me in more detail exactly what the problem is and I will endeavour to find the solution.

# ETERNAL CHAMPIONS (MD)

**Can you tell me how to do all of the finishing moves?**
**Stephen Ridgeway, Rockwell Green**

I can, as it happens! These finishing moves are dependent on which background you're playing in, rather than what character you're using.

**BLADE:** Throw your enemy into the bottom right-hand corner of the fan from the right-hand side of the screen.
**JETTA:** Chuck the opponent from the first right-hand pole at the centre to the left of the screen.
**LARCEN:** Throw your foe from the right-hand door into the left-hand one.
**MIDKNIGHT:** Kick your opponent out of the first left-hand door from the centre.

**RAX:** Throw your enemy from the statue in the middle of the screen towards the left.
**SHADOW:** Throw your rival from the post in the centre into the left of the screen.
**SLASH:** Corner your opponent in the far-left of the screen and kick him so he lands to the left.
**TRIDENT:** Throw your opponent from the left to land right in front of the statue.
**XAVIER:** Throw your opponent to bounce just before they reach the stake in the centre of the screen.

# TERMINATOR 2 (MD)

**Why am I unable to stop the machines from taking over and killing John Conner on the back of the jeep?**
**Mac Harris, Basingstoke**

There are a number of reasons I can think of for your incapability to achieve this objective, sadly most of them are too rude to print in a family magazine (or so Chris tells me). Fortunately for you I refuse to sulk at this blatant censorship of my artistic talents and will continue toying with my lengthy column.

However, back to your question Mac my young chum. Sadly I can't play the game for you, but the objective is to shoot the Terminators before they get to John. It's as simple as that. At the time of writing there aren't any cheats to help you overcome this stage of the game, although my army of minions are working on finding some.

The old adage learn from your mistakes applies here Mac. However, in my experience some people just never learn. Take Reg Grumblebelly, my neighbour on Rubiton, a planet in the Altar system. After several serious warnings he still persisted in brazenly calling me baldy. Despite this he couldn't understand why I set up a cunning trap in his garage, which sliced him clean in two. As I said, some people never learn, try not to be one of them Mac!

# SPIDERMAN (MD)

**How do you get pass the motorbike after the Central Park level?**
**Chris Simpson, Devon**

Just as I was about to answer this query, do you know what happened, readers? Mark Hill from SEGAPRO magazine leant over my shoulder, rather rudely actually, and bellowed in my ear some inane remark, before asking to look at the letter I was reading.

He read it for about five seconds, looked up and then simply said "Easy — all you have to do is blow it up!" And with that, he walked away again! He was lucky I didn't teach him some manners for such an ill-disciplined performance, but if truth be told, there is some substance in his rather coarse comment.

I'd better go into more detail, though. The motorbikes can be real pains in the neck unless you can react quickly enough. If you're on the sidewalk (to use a disgusting American term), when one appears, either duck or web it and you'll be fine.

# JURASSIC PARK (MD)

**How do you get past the dinosaurs on the last stage, while playing as Grant?**
**Miss S L Harding, Stroud**

Well, its quite simple really, my dear. Get to this part of the game again, and look at the screen. Done that? Right, what can you see? Two huge skeletons and two ferocious dinosaurs? OK? Now you want to know what to do I suppose.

The answer is simple. To the raptors, do nothing. Instead concentrate on the skeletons. Think back to the film, for a moment. Did Grant kill them himself? No, he jolly well didn't! All you have to do is climb onto the hanging platform.

Now, if you already have lots of explosives, all well and good. If you don't, you can easily find some neatly tucked away, just below the position where you start. Got them? Good! Now drop onto the skeleton's back, and climb up until you can easily drop between the two raptors. Once down, throw grenades at the skeletons and, hey presto, crash, bang and indeed wallop! The skeletons come falling down onto the unsuspecting raptors, leaving you free to escape the island!

# RINGS OF POWER (MD)

**Where and how can you get into the Flame Cave? Where's Larry? Where is the moustache of a Thespian to give to the Necromancer at Magic 'B' Us?**
**Robert Hunt, Brighton**

It's that darned game again! I'd thought I'd seen the last of this last issue, but like most things it has come back to haunt me! The Flame (or Fire) cave can be found at 5'4", 10'8". Get the wood from it and show it to the man in the Perfection Restaurant. Go to the Lobotomy Club (the City of the Mind) and talk to Larry about your quest. Buy him a drink to get the conversation flowing!

Find Lucius in the Necromancy section of the Magic B Us. Go to the Great Amphitheatre at 27'9" and find the head thespian. Talk to him to get his moustache and take it and show Lucius. In return he gives you a spell. That should be enough to get you going — happy gameplaying.

# NIGHT TRAP (MD)

**Is Night Trap available for the Mega Drive?**
**Ben Murphy, South Wales.**

To answer your question, *Night Trap* isn't actually available on the Mega Drive. This is basically a memory problem - you'd never be able to fit all of the FMV onto a cartridge, whatever size it is — even with 24 megs to play with! You're not missing out on much though, because the Mega-CD version was a bit bland to say the least...

# ALIEN 3 (MS)

**Level 15 is causing me headaches! Can you help me through it, Dr M?**
**Nicola Collins, Crayford**

So, you've got a headache? Well, why don't you just take an aspirin! Actually, while you're at it could you send me one. That young fool Mark Pilkington has just turned up one of his dreadful albums on the office CD player. Honestly readers, this boy must have the worst taste in music ever. Even the tunes in Room 101, the enjoyable programme on television, sound better than his collection!

Anyway I digress, to start the level off, crouch on the floor and fire a few shotgun rounds off. This will expose the alien hidden in the floor, so immediately switch to flame-thrower and incinerate all the aliens dropping in. Climb the ladder to rescue the captive, then go to the lift. Take the lift down and leap up onto the platform with the struggling prisoner and give him a helping hand.

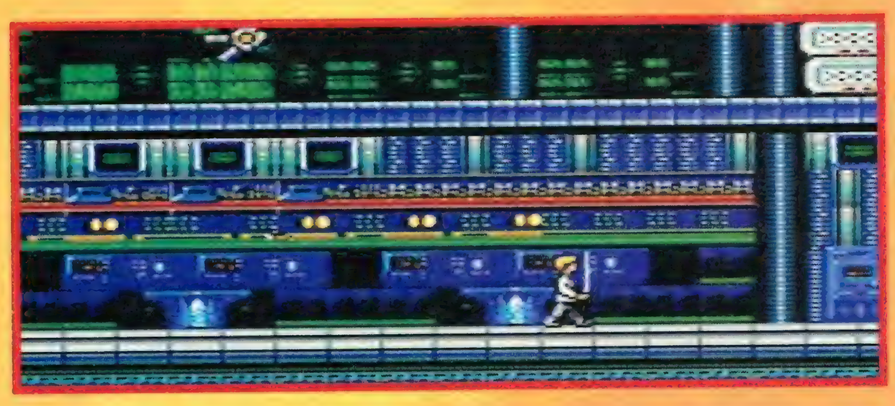

Jump down for another prisoner, then climb down the ladder and head right for yet another captive. Now head down to the far left and down to the ground level. Catch the lift down on the far left and climb the ladder. Jump across the gap and drop down next to the furnace. Fall down to the lower platform to get a prisoner. Go to the platform above the fiery furnace and then jump from platform to platform, falling down the last one to rescue the final prisoner. Once you have done this, you can walk without fear of interruption to freedom. My word I'm quite exhausted after writing all those instructions down.

# STAR WARS (MS/GG)

**We're stuck on the Final Hanger! Can you help us, please?**
**Emma, Julie and Marie, London**

My, my it's so nice to receive mail from members of the fairer sex! It's not often I have such a pleasure, but to get a letter from three of them all at once is astounding! I hope I can do justice to your faith in my problem solving ability (Oh dear, Dr M's flirting again!).

The Final Hanger is the hardest part of the game, with deadly spikes everywhere. Speed is the key, pause for thought and you'll find yourself horribly impaled. A handy hint is to jump out of the arrows, used to rise up the screen, when you are halfway up to reach the next platform. Also react quickly and jump over the Stormtrooper's fire. Time and patience is what's needed, so go for it, my girls, go for it!

# SHERLOCK HOLMES 2 (MD)

**What is the final solution to The Pilfered Paintings, please Dr M?**
**Ian Lewis, Kent**

Ian, what are you playing at? There was a full solution to this game back in SEGA XS Issue 4! Are you trying to tell me you haven't been reading every issue since the magazines started? Oh well, just for our ever-growing army of new readers, who haven't yet got the entire collection of back issues by telephoning Karen, our lovely subs girl, on 0202 299900, here's the answer.

Select Matthew Cole as the thief. Select Brady Norris as the scoundrel who put him up to it. The answer is then D — Brady was afraid they would be discovered as forgeries and this is why he had them stolen by Cole. You will now be asked who killed Cole. Select B — Norris, as he was trying to destroy all the evidence, including his accomplice. Answer B - Donnai forged all the DeKepurs. Finally, answer C - Herbert Cofman was employed to drive up the bidding at the auction. There you have it, elementary my dear reader!

# NEW BUSTERS

*New Busters* is here yet again and always will be, but I've got a bit of bad news for you folks. I'm going! Yes, I know, it's a time of great sadness and sorrow for us all, but you can be rest assured you haven't seen the last of me just yet (Damn! - a whole nation cries).

I'm moving on to SEGA XS's sister magazine — SEGAPRO. I'm sure someone will step into my New Busters shoes with ease and before long all I'll be is a distant memory. Unless, of course, you buy the brilliant SEGAPRO as well as XS! Remember, the offer for the two best cheats sent in is still a copy of *Awesome SEGA Mega Drive Secrets III*, so get writing to: **New Busters, SEGA XS, 124 Old Christchurch rd, Bournemouth, BH1 1NF.**

## JURASSIC PARK MEGA CD

Yipes, The Dinosaurs have escaped from their pens and I'm powerless to stop them! I'm too young to die, so what I need is an unlimited supply of knockout gas to really show these dinosaurs what-for. I wonder if Brian Ramesy from Middlesborough can help?

***"Enter the third room in the Visitors Centre for the first time. Inside you will find a computer terminal and a grey locker containing the gas canisters for use against the T Rex later in the game. In order to get unlimited gas ammo, turn to the computer terminal and insert the Triceratops CD, before grabbing the gas canisters. You should hear a bleep and now you will be able to go to the locker and grab the gas ammo , only to find it is replaced every-time you take it! You can only carry 50 gas canisters, but you can return anytime to stock up."***

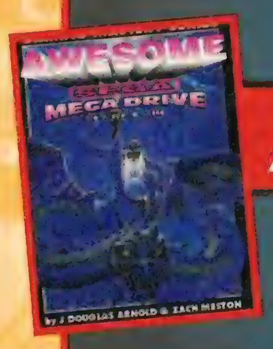

Wow, just for that extremely helpful tip, Brian, I'm going to give you a copy of that most desired of all books - *Awesome SEGA Mega Drive Secrets III*! Can you believe your luck?

A double dose of Dinosaurs mayhem awaits you here, readers, with not only a brilliant cheat for the Mega-CD version of this game, but also one for the Mega Drive game! Life's good.

***"On the code screen, enter NYUKNYUK and press start, a weird message should appear. Start the game by pressing A. Now, pressing A should restore all your energy and pressing B should restore all of your life."***

Cheers for that! Sadly, I can't actually send you your prize because you didn't send me your name and address, if you can write back (and prove to me it was actually you who sent the cheat in, remember I know your handwriting!) then an *Awesome* book is yours.

# MORTAL KOMBAT

MEGA DRIVE

The secrets out. The real reason why Sonia was dropped from *Mortal Kombat II* wasn't because she was too unpopular, it was because she's a reptile! I'll let David Cheddie from the Commonwealth Development Corporation (I kid you not!!) tell all!

***"Do the D, U, L, L, A, R, D cheat. Go to plan base and change it to three. Turn on flags 0, 2 and 3. Make the first map the Pit. Now play the game normally with any fighter (except Scorpion) until you get to Endurance 2. You should now be in the pit, if you are not, lose a continue. Now get double flawless and fatality. As you are on the pit, you will have to face Reptile and, as Sonia is the second person on Endurance 2, you will get a Reptilian Sonia! She is a glowing green colour and her moves include a Shadow Punch which turns into a harpoon upon contact, and a leg toss where she just hits you but doesn't toss you."***

# PUGGSY

So there I was, walking along the rough streets of Welling, when who should I come across, but none other than reader Ong Yih Wey from Malaysia. He looked at me with a strange and sinister glint in his eye, it was almost as if he had something to say. In a deep and meaningful voice, he said:

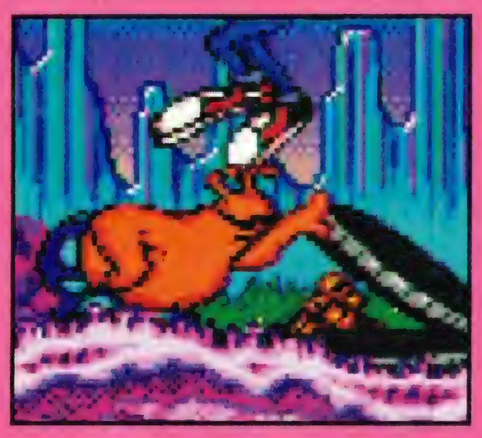

***"Here's how to use the same character in two-player mode. P2 must press B and START at the selection screen.***

***To get nine lives is simple! On the options screen, P1 must select Players and change the number to five. After that P2 must press A, B and C together. P1 can now change the number to nine!"***

If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# DOCTOR M.

**"FROM OUTER SPACE, HE'S ON YOUR CASE!"**

**This month has seen my minions scurrying around my lab like bewildered sheep. I've received pleas for help from every corner of the globe, as so many of you lesser beings suffer at the console due to your foolish ways.**

**Sometimes I wonder who would be there for you if I one day retired and settled down in the country, sipping tea, with my slippers on and the wireless whispering in the background. Oh, enough of this dreaming. Back to work I suppose, now then if you need my help write to Dr M, SEGA XS, Paragon Publishing, Durham House, 124 Old Christchurch Road, Bournemouth, BH1 1NF.**

## ECCO THE DOLPHIN (MD)

Could you tell me the passwords for this one please?
Mark Durbin, Blackpool

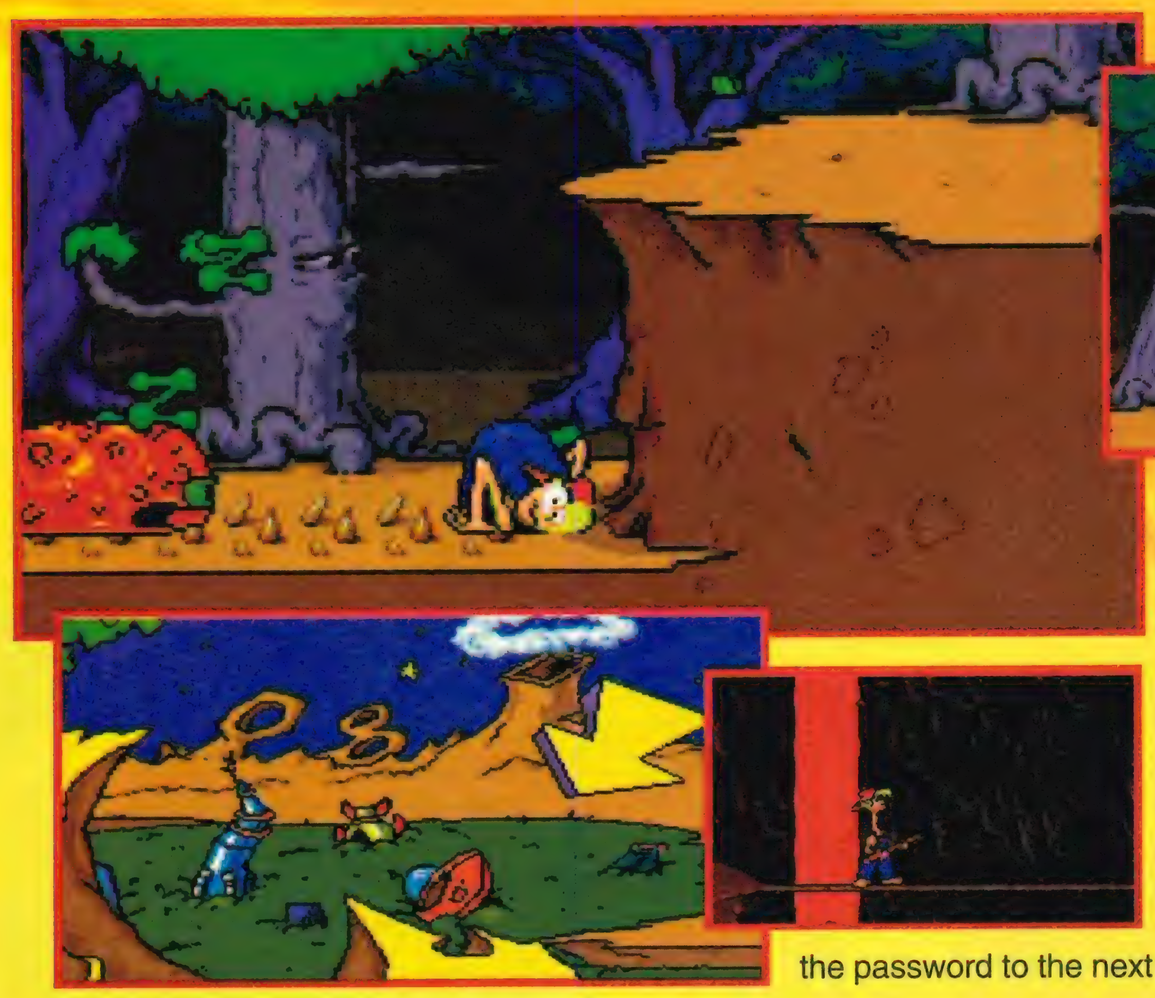

Let me fish around in my games cabinet a moment. Ah, yes, this is an old one, but what a classic. 21 frantic levels, jam-packed with problems to tax your tiny, dolphin brain. I have all the passwords you desire, but Mark, be careful. As my creator once told me, in the dark depths of an experimental laboratory somewhere in Eastern Europe, "You may have the key to the door, but if you have shaky hands, perhaps it's better not to find out what is on the other side?" (I'm sure that's put your mind at rest - Ed). Anyway, enjoy your swim, Mark!

# BUBBA N STIX (MD)

**On level four, how do get past the ball that rises with the water?**
**Nick Winter, Kent**

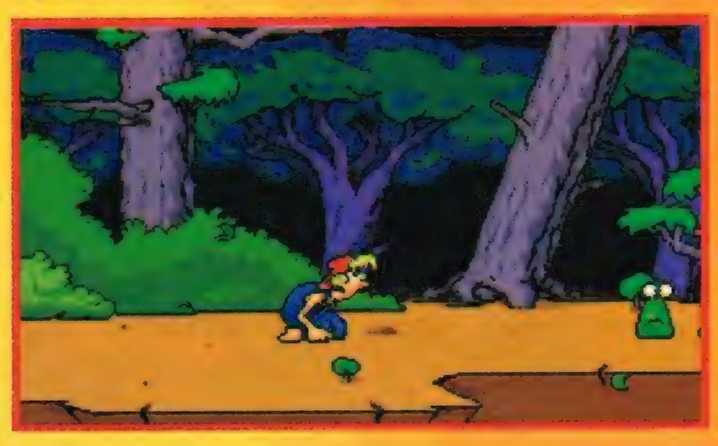

The problem is a tough one Nick, and there is no need to feel shame at your abject failure. To help you, here's the advice I always give the minions when they are playing the game, usually in the dark recesses at the back of my laboratory.

Press the button on the right to drain the water. Stand on the ball, before inserting Stix into the hole. Let the water rise and you with it. Don't be alarmed by the way you are flailing around. You are just an ungraceful swimmer without Stix to accompany you. When the water stops rising, release Stix and the ball comes shooting up underneath you to give you enough of a push to allow you to get to the nearest beam.

This requires split-second timing and perfect reflexes. Remember Nick, a little patience goes a long way! However, I feel this task may be beyond you so, before you toss your joy pad out of the nearest window, here is the password to the next level, **5XZKP!B38BR**.

# COSMIC SPACEHEAD (MD)

**Have you got any good cheats for this space age adventure?**
**James Falmer, Grimsby**

I have just the cheat for you my friend. No need to be a spacehead any more! Just type in **MLHUFFE6WWLGLRWFIDOU** as a password and you will find yourself at the space station with four lives left! Not bad, eh? James, it's a long password, so I suggest you sit down and have a sandwich while you type it in. We don't want you to become malnourished because of your obses-

# PHANTASY STAR (MD)

**Where do I find the Laconian Axe?**
**Bob Monkhouse, Pembrokeshire**

Presumably not THE Bob Monkhouse? That man is my favourite human being. His hilarious mother-in-law jokes are renowned throughout the galaxy. His face is a symbol of hope to lost tribes void of humour.

Some have said, I'm an evil version of this man. Well, I don't consider myself as handsome or witty, but in a certain light, even I fool myself sometimes!

Anyway, enough of this banter and back to your problem, Bob. *Phantasy Star* is an adventure game known for it's complexity.

To find the axe return to Palma and go to Gothic. Exit Gothic, and go down to the mountains. Turn left of the position where you discovered Dr Luverno and you see Medusa's tower ( red inside). At the top of this tower you must fight Medusa. When she is killed, you receive the Laconian axe.

# JURASSIC PARK (CD)

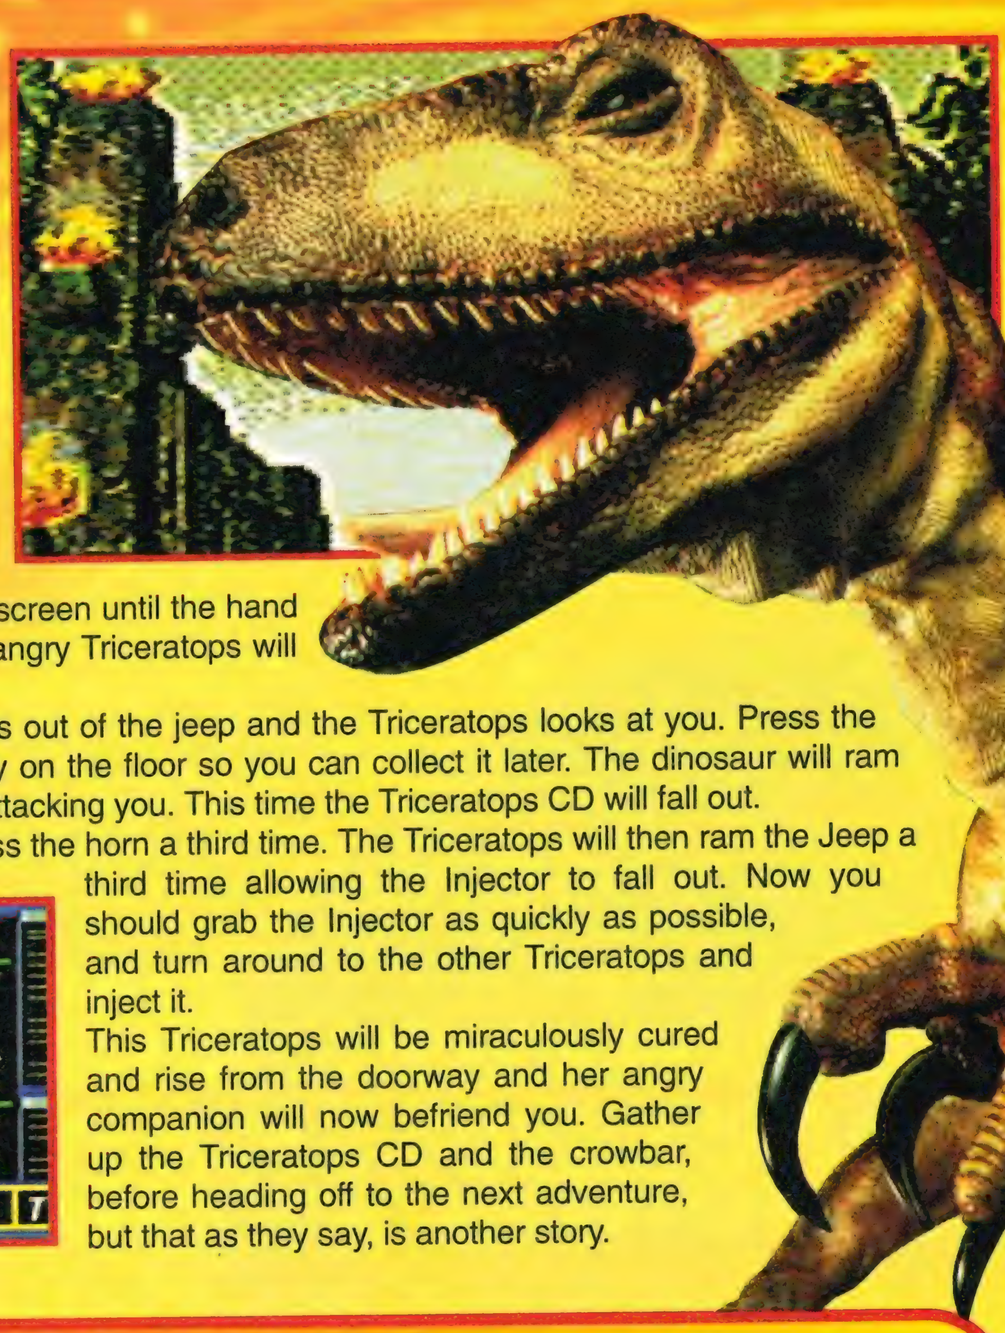

**I missed the solution in Issue #7, so can you tell me how to get the crow bar?**
**Rod Garner, Hampshire**

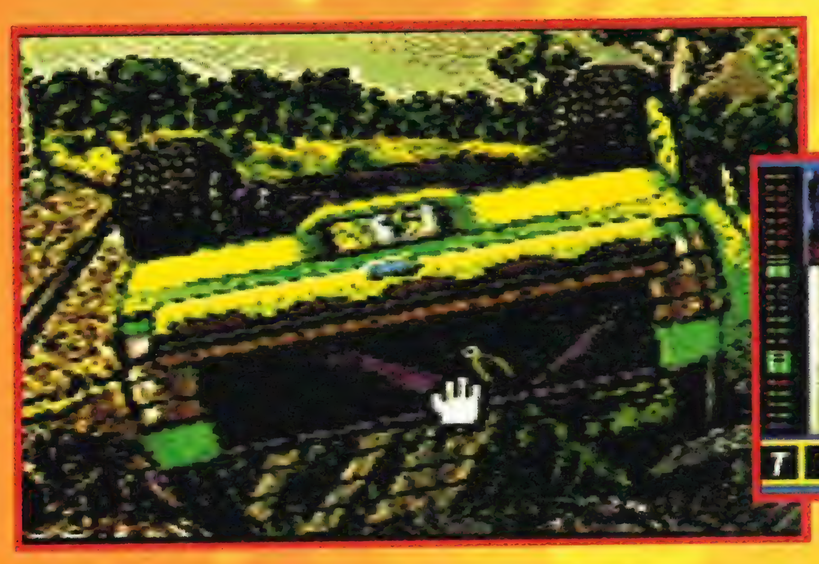

Well young Rodney, I'm not surprised you missed our coverage of *Jurassic Park* (CD), as Issue #7 sold out quicker than tickets to the last Neptunian orgy! You're not the only person who has missed the solution either, the local postman has been off sick with a bad foot because of all the post we've had on the subject.

Just for you here is exactly how to get the crow bar, as well as the Triceratops CD and the injector.

Travel to the Triceratops enclosure where you'll find an overturned jeep and two Triceratops; one next to the jeep looking rather angry and the other across the entrance to the hut, having collapsed from ill-health. Face the jeep and put your cursor on the windscreen until the hand icon appears. When you press the activation button, the jeep's horn sounds out and the angry Triceratops will ram the Jeep.

As he does so, the crow bar falls out of the jeep and the Triceratops looks at you. Press the horn again, leaving the inventory on the floor so you can collect it later. The dinosaur will ram the Jeep again now, instead of attacking you. This time the Triceratops CD will fall out. Leave it on the floor too and press the horn a third time. The Triceratops will then ram the Jeep a third time allowing the Injector to fall out. Now you should grab the Injector as quickly as possible, and turn around to the other Triceratops and inject it.

This Triceratops will be miraculously cured and rise from the doorway and her angry companion will now befriend you. Gather up the Triceratops CD and the crowbar, before heading off to the next adventure, but that as they say, is another story.

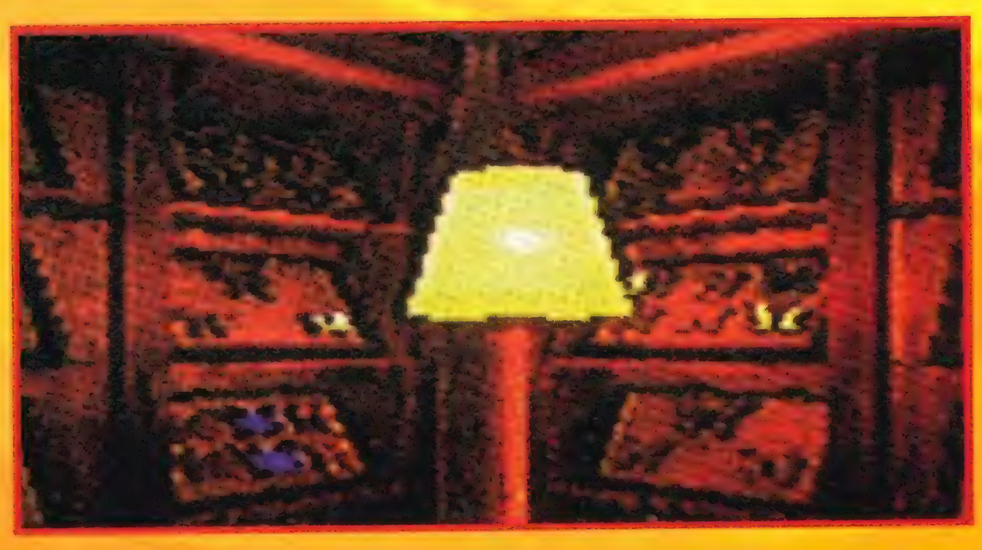

# MYSTERY MANSIONS (CD)

**How do you solve the candle puzzle?**
**Christina Foster, Brideshead.**

Well young lady, it just so happens I can help one as lovely as your sweet and pure self. First you must locate the matches. Walk up the main staircase and head for the games room. Once inside, go to the back of the room where the dart board is located. Go in for a closer look at the dart board and the box of matches will be revealed to you. Now you are ready to attempt the candle puzzle.

Make your way to the candle room by going down to the Butterfly room or by using the secret passage from the Art room. Once there complete the puzzle in the following way. Starting with the candle to the right of the Moon, blow it out and then go onto the candle to the right and put that one out also. Leave the next candle lit and light the next one with the matches. Leave the next one lit, but blow out the final two. Blowing out the candle to the left of the Moon last will open the secret door to the Butterfly room so go through it and come back in to attempt the second part of the puzzle.

Start from the right of the moon, making sure the first two candles are lit. Go back around to the Moon and go on past it in an anti-clockwise direction, missing out the next candle, which will be the last one you will need to light. Put out the candle to the left before lighting that final candle and the secret door to the basement will slowly open. I know it all sounds a little complicated for your sweet, yet simple

# NEW BUSTERS

Once again it's time to gather up all the letters we've received recently and decide which tips deserve the ultimate accolade of entering the hallowed New Busters pages! As you know Mark Pilkington's red hot tip faded long ago and he has since moved to graze in pastures new. However, fear not, his replacement has the reddest, hottest tip since Richard spent the night with triplets! Chris Hunt-Newham is his name and cart busting is his game (Mainly because he's got no choice in the matter!).

## AWESOME WINNER!

## MORTAL KOMBAT II

MEGA DRIVE

The first book winner this month is **Steven Stockdale from Bradford** who very kindly called our Cheats Hotline and told us of a new option screen he discovered when playing *Mortal Kombat II*.

***When you turn the game on, go to the option screen and move down to the Done option, then press L, D, L, R, D, R, L, L, R, R, now a new option screen should appear called Test Modes. From here you are given three different screens, each containing cheat options, which are as follows:***

***1 Infinite energy.***
***2 One hit kills enemy.***
***3 1 & 2 player demos.***
***4 3 player demo.***

***In addition to these options, if your character wins, he will only perform Babalities, Friendships and Fatalities to finish the fight. Finally there is a nasty cheat you can try out. This occurs when you let the computer beat you. By using the cheat he will always perform the worst fatalities possible!***

MEGA DRIVE

This next *MKII* tip has also been awarded a copy of the *Awesome Sega Mega Drive Secrets III book*. This superb set of handy tips was sent in by **Paul Browne from Sidcup** who also congratulated us on the *MKII* guide we printed in issue #10 of SEGA XS. Thanks mate!

**When fighting against Liu Kang, Jax, Kitana, Johnny Cage, Mileena and Shang Tsung always use Baraka. Start with a flying kick then retreat and use his Blade Fury attack. Keep repeating this combination, with the occasional jump back to protect your energy when the opponent comes in too close.**

**For Kung Lau, Raiden, Sub Zero, Scorpion and Reptile try using Milena or Kitana. Again start with a flying kick then retreat and duck. When the opponent gets into range use a flying kick and keep repeating the procedure. Victory will soon be yours!**

**The best character to play as when you reach Kintaro is Sub Zero. To defeat Kintaro start with a flying kick, retreat and use the freeze attack to stun him. Once Kintaro is frozen use the uppercut or roundhouse then jump back and duck down. When Kintaro jumps at you, leap away and kick but never get too close to this fiend. Follow up with a freeze attack and flying jump until Kintaro is down and defeated.**

**Next use Baraka against Shao Khan. Start with the ever popular flying kick and then use his Blade Fury attack, before retreating. Keep repeating this procedure until your opponent is looking dazed. This technique works virtually every time.**

Paul also sent in a small bit of *MKII* trivia. He noticed the secret opponent Noob Saibot's name is in fact the reverse of the two names Ed Boon and John Tobias in the end credits. Thanks for the information Paul!

## AWESOME WINNER!

MEGA DRIVE

Since the release of *Mortal Kombat II*, beat-'em-up mania has reached fever pitch, with sales going through the roof. Consequently, it was only a matter of time before the phones started ringing with hoards of cheats and tips for Acclaim's latest smash. First up we have **S Little from Saltcoats** who has found a cheat for Random Select.

***When you get to the character select screen hold the Start button and Push Up twice and the random select cheat will spring into action, allowing you to play against a random selection of the other fighters. Our Scottish friend also informs us this is a good option to use in the two player mode.***

The last letter of the month concerning *MKII* is from **Ben Parris from Paignton**. He sent us this list of fatalities for characters from the Game Gear version:

***Liu Kang - Down, Forward, Back, Back, and then Button B.***
***Sub Zero - Forward, Forward, Down then Button B, followed by Forward, Forward, Down and Button A.***
***Kitana - Hold block then press Forward, Forward, Forward and press Button B.***
***Shang Tsung - Hold block then press Up, Down, Up and then Button A.***
***Mileena - Forward, Forward, Back, Forward, and then Button B.***
***Reptile - Back, Back, Down then Button A.***
***Scorpion - Hold block, Up, Up and Button A.***
***Jax - Forward, Forward, Forward and then keep tapping Button A.***

The crowd think its all over and it could well be after you've read these tips sent by **P Bougie from Cornwall**. He reckons he's the number one fan of the EA Sports' outstanding football sim on the Mega-CD.

***At the Game Set-up Screen, highlight Options. Go into Options and put in any one of the following codes or all of them together. Simply press the buttons in the correct order for even more fun and games!***
***Dream Team: A, A, B, B, C, C, A, A.***
***Crazy Ball: C, A, B, C, C, B, A, C.***
***Crazy Curve Ball: B, A, C, B, C, C.***
***Invisible Wall: C, C, C, B, A, A, A, B.***
***Super Power: B, A, B, B, B, B, B, B, B, B.***
***Super Goalie: A, A, A, A, A, B, B, B, B, B.***
***Super Defence: B, B, B, B, B, C, B.***
***Super Offence: A, A, A, A, A, B, C.***

Our Cornish buddy also informs me of some hidden video footage to be found within the game:

***This can be done by entering the Coaching/Stats Screen and moving the soccer ball next to either the Formations, Coverage or Strategy options. In each of these categories you may see the secret video by highlighting one of the options and pressing the A button. Each video is related to the option you highlight.***

## SUPER STREET FIGHTER II

This hint is for fans of *Super Street Fighter II*. It's just a small one we discovered in the office one evening when beating the daylights out of each other, before we started playing the game — well Richard and Pilky were having a go anyway!

All it does is allow you to speed up the computer versus computer matches in the Tournament Battle mode. On the Title Screen choose the Tournament Battle Screen and highlight the word END. Now press Start. All of the matches will be fought by computer opponents. By pressing any button you can speed up the match. This isn't a very interactive or particularly exciting cheat, but it does give the crew something else to do with their hands when they're bored!

## VIRTUA RACING

This cheat, sent in by **K Brady from Tyne and Wear**, is for Sega's latest driving simulation, Virtua Racing. This game is a personal favourite — in fact the last time I played it the joypad had to be wrenched from my sweaty palms with a crowbar! I'm now only allowed to play the game for 10 minutes a day under strict supervision.

***K Brady says there is an easy way to play the Mirror Mode, allowing you to drive the courses in the opposite direction, without first having to win all 3 races. On the title screen press and hold A, B and Up together then press start and select the mirror image icon on the options screen.***

Build two levels above the water. Try to keep the ground flat and build up your people who've settled on one level of land. You may struggle in the power stakes to begin with. However, when you reach enough manna to flood the enemies positions, the evil should be virtually destroyed.
If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# XS CODES

**How we manage to cram all the codes into this section is still a mystery. Here you will find all the best codes for the Datel Action Replay and Hornby Hobbies Game Genie. No other magazine regularly prints ALL the codes you will ever need. Every code printed here can only be used with the relevent device. You CANNOT press F, F, 1, B, Ø, 4 on the joypad – just in case there were any of you still trying to get them to work. You MUST have an Action Replay, or a Game Genie, to make full use of these codes. Both devices are available from our Super Savers at the back of the magazine.**

# DOCTOR M.

## "FROM OUTER SPACE, HE'S ON YOUR CASE!"

**Christmas... My favourite time of the year. Ah yes, I have had some very enjoyable Yuletide's lately, I remember, oh it must have been back in the 16th century when I used to edit the *Leper's Times*, I had a wonderful Christmas picking the weevils out of flapjacks and telling small children there's no such thing as Santa, so be off with you before I eat you for breakfast. Happy times indeed!**

**Anyway, there I go again, reminiscing about the dark old days again, when I'm really here to help with your insignificant little Sega related problems. If you have a problem, send it to me, Dr M, SEGA XS, Paragon Publishing, Durham House, 124 Old Christchurch Road, Bournemouth, Dorset BH1 1NF. The boys on the mag will send the post on to my secret laboratory. See you in the New Year, have a Happening Christmas one and all!**

## ALEX KIDD IN MIRACLE WORLD (MS)

**How can I impress my son by getting past the final Level?**
**Anthony Low, Wallisdown.**

Well Anthony, I can see by your letter this is more than just a game to you and your family, in fact your fatherly pride could be on the line! Well despair no longer Tone, here is how to wow the family the next time you play.

At the start of the level, fall into the water and go to the left side to kill the first two little fish. Kill the Merman and drop through the gap to enter a small room. Go up to the door and open it by using the moonlight and sun stone. Now go through to find some pink blocks.

These pink blocks need to be stepped on in this order; Sun, Waves, Moon, Star, Sun, Moon, Waves, Fish, Star and Fish. Before your very eyes a crown appears, but to get it you need to take a good run up to leap over the spikes. Once you have done that, sit back and revel in the your son's excitement as the elusive game over screens scroll into view.

## JURASSIC PARK (CD)

**Where can I find the Boltcutters?**
**Joe Scully, Port Vale.**

You must be very near to the end of the game young Joe and I assume you need the Boltcutters to complete your inventory list so you can then go on to face the vicious T-Rex. Go North to the site of the Dilophosaur Eggs and look to the left to find a small green frog. Select your stun gun and shot the frog so he hops off down the river. Now travel across the shallow river by clicking in the direction he jumped. You're now able to reach a separate part of the river to find a sewer gate on your right. Look to the bottom of the gate to locate a big log and move the log aside to reveal the Boltcutters. Take the Boltcutters and open the Sewer grate with them. Now climb through the sewer grate to arrive in the location where you earlier found the Wrench.

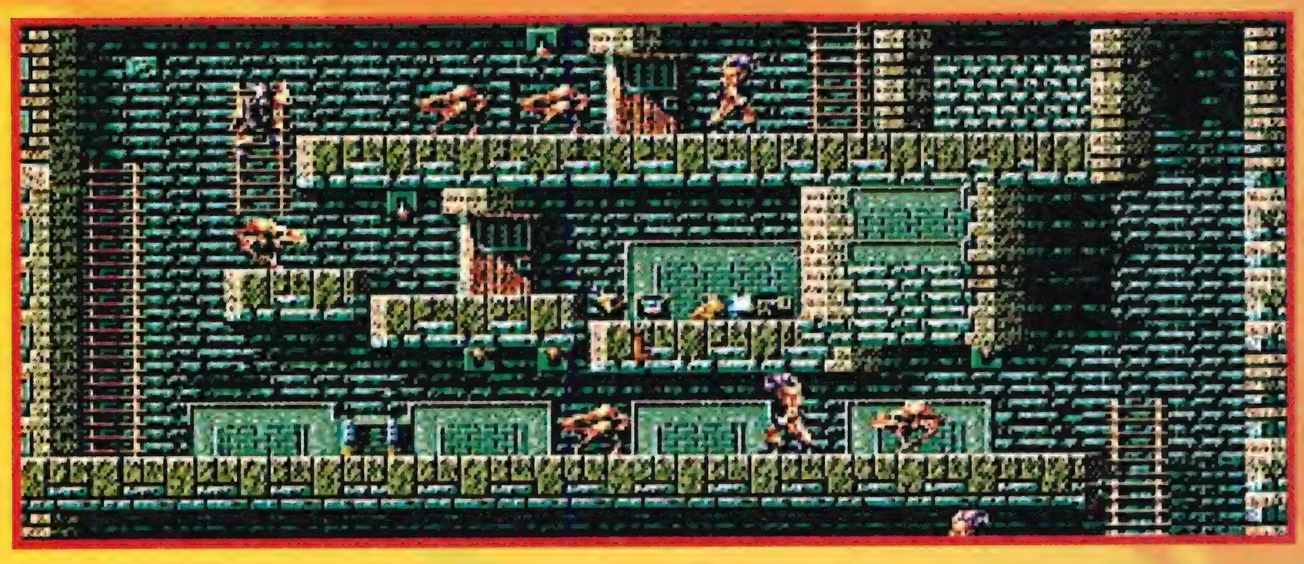

# GODS (MD)

**Can you help me defeat the final Guardian?**
**Sean Hudson, Cardiff.**

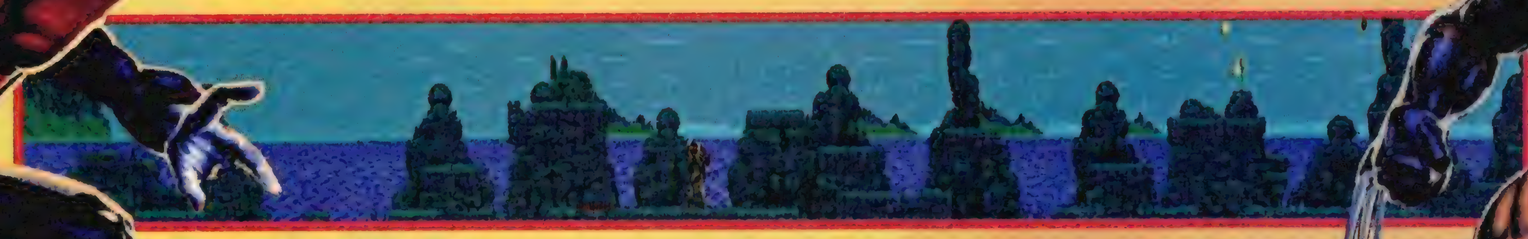

Of course I can Sean, even though it was many moons ago I defeated the Gods and laid claim to be the supreme ruler of the Universe. Although I soon became tired of that particular job and chose to spend the rest of my days working for the benefit of others within the hallowed pages of SEGA XS. I wonder if I made the right choice?
To defeat the boss leap up onto the middle platform and start shooting when the yellow Chinese Dragon comes towards you. It's a common mistake, when playing *Gods*, to think the Skull is the thing to shoot. This is a false assumption. In order to slay the Guardian you must first slay the Dragon. The Dragon will go underneath you and then right around you until it's back at the front. You must shoot as soon as it appears and keep on hitting it as it travels around you. If you constantly hit it on its route, you should find that it explodes right in front of you.

# X-MEN (MD)

**Are there any cheats for X-Men?**
**Rick Hunter, Selkirk.**

There are a couple of cheats, which might make your gamesplaying life that little bit smoother young Ricky:

**Cheat Mode City**
When the screen shows "Press Start Button", hold A, C and Down on controller one and press Start. Now take out controller one and place it in port two, when the picture of Magneto appears. Now press Start and choose your difficulty level and your X-man. Play the game via port two and you will have infinite health and mutant powers.

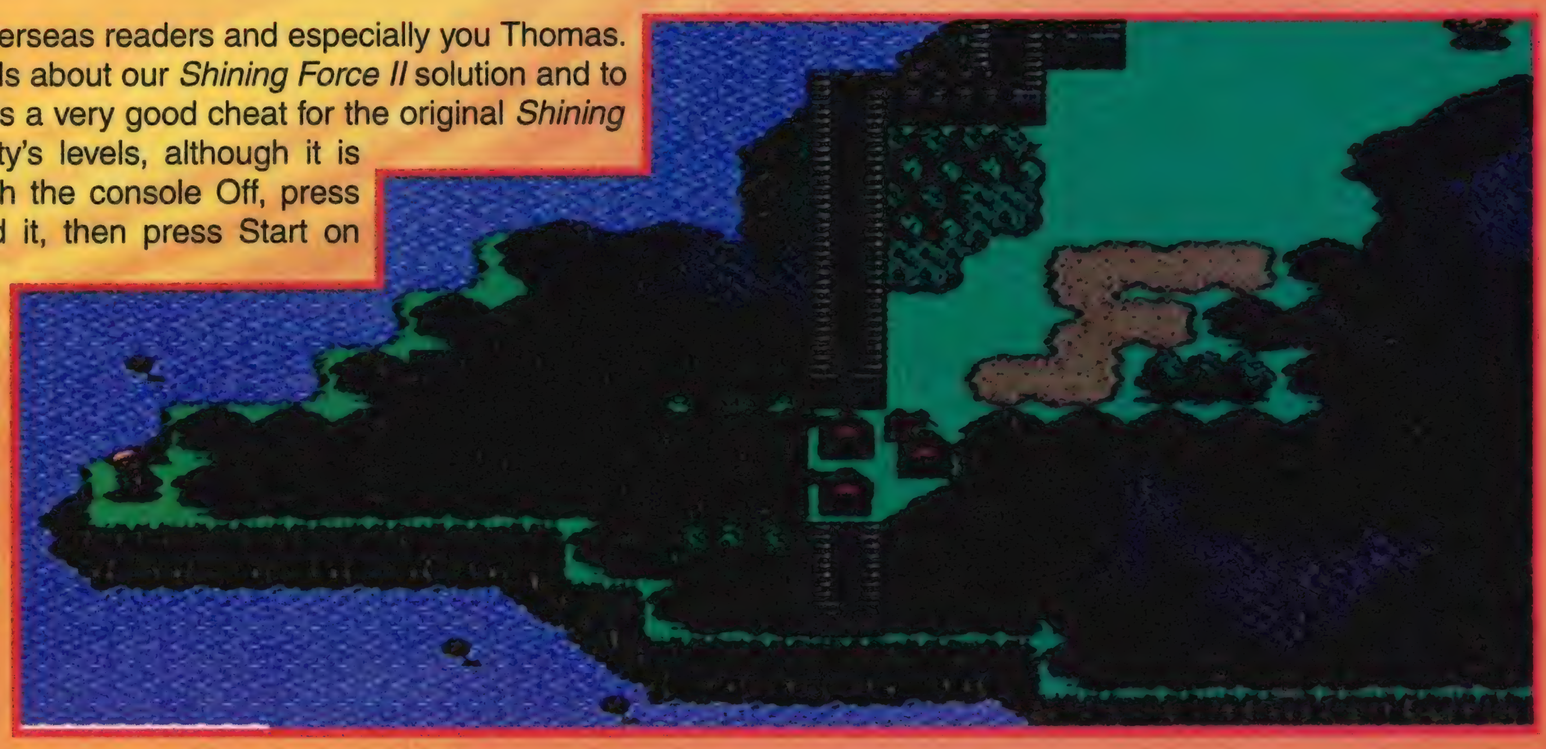

**Level Select**
Put in the Cheat Mode City Cheat and then go to the top right danger room and smash the generator. In this room there are six tiles on the floor, each is a game level. To warp to each zone, stand on a different tile and press Down and C to warp.

# SHINING FORCE (MD)

**After reading your Shining Force II solution, I wondered if there were any cheats for the first Shining Force game?**
**Thomas Vincent, Berlin, Germany.**

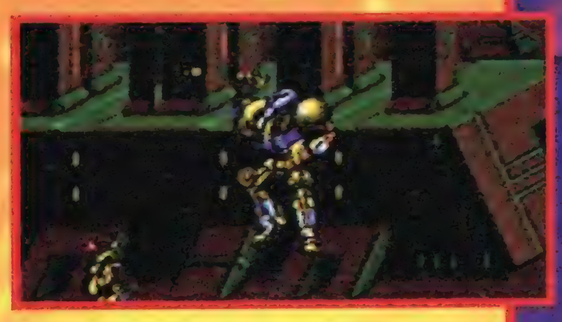

Well, a big hello to all our overseas readers and especially you Thomas. Thank you for you kind words about our *Shining Force II* solution and to answer your question there is a very good cheat for the original *Shining Force* to increase the party's levels, although it is very hard to activate. With the console Off, press up in direction and hold it, then press Start on player two's joypad and switch the console on. When the Sega Logo appears, hold down A and Start on player one's pad and A and C on player two's pad. Now begin any stage and when you use the forbidden box, all the party's levels rise to 19.

# CYBORG JUSTICE (MD)

**Are there any Action Replay codes to help me get through the game?**
**Nigel Davenport, Nottingham.**

Did you know there was a footballer with the same name as you Nigel my boy? He played for Man United, Sunderland, Middlesborough and Nottingham Forest among others! Although I always used to say to Brian Clough he should never let you go. Sadly I think old big head had drunk one too many of my Deep Space Dive-bomber cocktails because he sold you the very next day. Isn't life strange.

Anyway here I am wittering on and you're probably someone completely different. However if you are <u>the</u> Nigel Davenport, whatever happened to you old chap? Please write in again and we can discuss your possible comeback in the SEGA XS five-a-side team.

Anyway Davva, there are some Action Replay codes for *Cyborg Justice* and here they are.

**FFAF9EØØ7F - Infinite Energy**
**FFAF5AØØØ2 - Infinite Lives**
**FFACE6ØØØ3 - Infinite Continues**

# URBAN STRIKE (MD)

**Are you sure about Elvis in the Casino Level?**
**Memet Zeppa, Highbury.**

Now, now Memet, surely you are not questioning the XS collective and their gaming knowledge! I know the idea that you can find the late great Elvis Presley in an air combat game is somewhat hat stand, but in this case it's absolutely true. All you have to do in order to awaken the King is firstly get to the pen-ultimate level of the game named Casino. Here you can delight in this funny little game quirk by blasting the many slot machines in the area to gain extra weaponry.

If you blast the set of machines just to the North-east of the Cashier's Booth, Elvis Presley will appear, wearing his big, white, flared suit with the huge collars, and he will start to dance around while playing his guitar. Elvis the Pelvis lives!

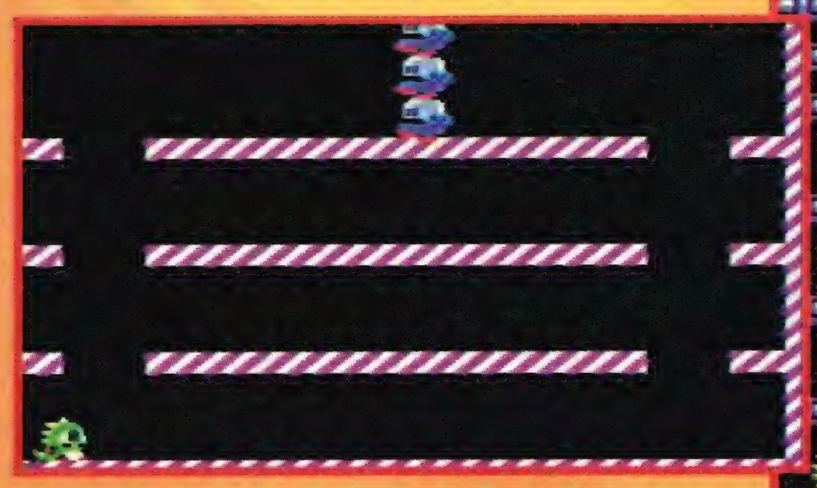

If you're trying to find Elvis and can't, just keep blasting away at all the machines in the area and eventually you will come across him, in all his glory. It's worth waiting for I can assure you, although I must admit to having more fun in the seventies during my regular visits to Gracelands. Elv, as I called him, always used to love playing the ancient Zargonian game, developed in the Zepar Galaxy, I once explained to him at a cocktail party. It involved a toilet and plenty of intoxicating Zargonian pharmaceuticals, but perhaps that's another story.

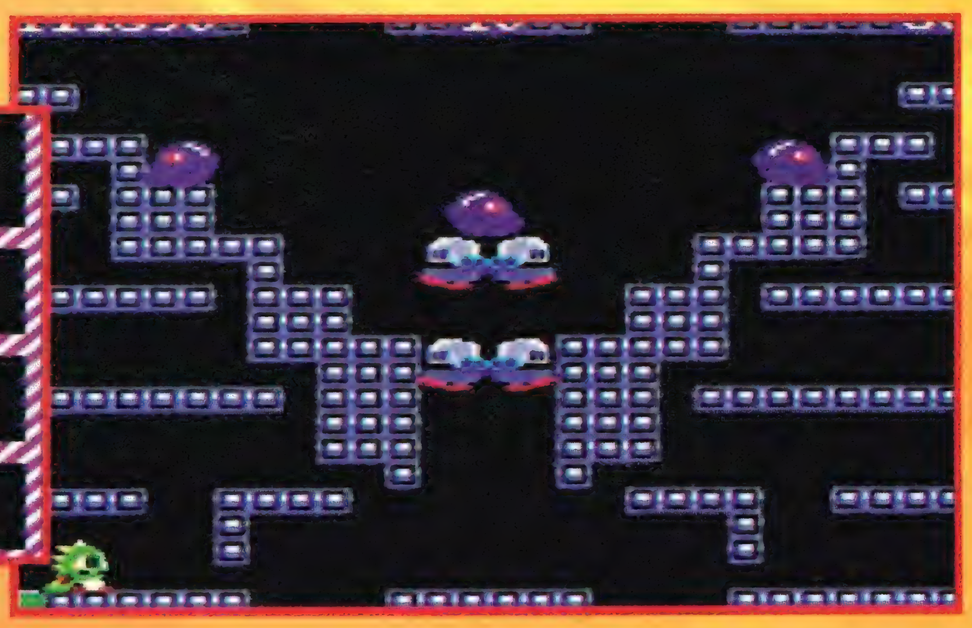

# BUBBLE BOBBLE (MS)

**I just can not finish the game, can you give me a password to the final level?**
**Jill Walker, Liverpool.**

Indeed I can Jill, here is a password to beat all other passwords. Simply enter it and you can travel to any of the 200 levels and have all the game icons showing at all times. The password is **9S5CLNN3** and now you have no excuse not to complete the game in double quick time.

# NEW BUSTERS

Well Christmas is nearly here, and all you game freaks must be hoping for some new games from Santa. With so many hot new titles hitting the shops, you're spoilt for choice. This months New Busters has got some of the best tips and codes for the newest games on the market. If you get stuck on some of those Xmas presents, get stuck into the exciting pages of New Busters for sweet inspiration. And remember if you come across any tips or codes you think are worth sharing, then send them into **New Busters, SEGA XS, 124 Old Christchurch Rd, Bournemouth, BH1 1NF.** If we think your tips are good enough, you could be a winner of the rather excellent *Awesome SEGA Mega Drive Secrets ///* book!

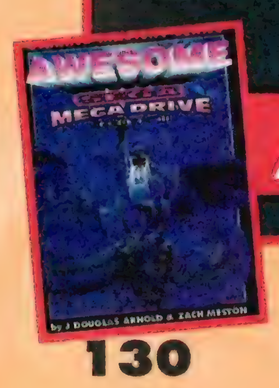

## THE INCREDIBLE HULK MEGA DRIVE

Chris Stephens from Watford wrote and informed us that when he got stuck on this game it used to make him so mad, his body would mysteriously expand, leaving his clothes in shreds. If you live in the Watford area and you have had your washing stolen from your line, Mr Stephens could well have been responsible. That is until he discovered this handy level skip cheat. ***Start the game as normal and pause whenever you like. Press Up, Right, Down, Left (rotate the D-Pad round in a clockwise circle). Now unpause the game and lose all your lives. When you go back to start the game, you will notice that after the end of the intro screen, a black screen suddenly appears which contains a handy level skip.***

The only thing that worries me, is that the crime squad have informed us it was woman's clothing which vanished. I suppose, if it was dark, mistakes can easily happen!

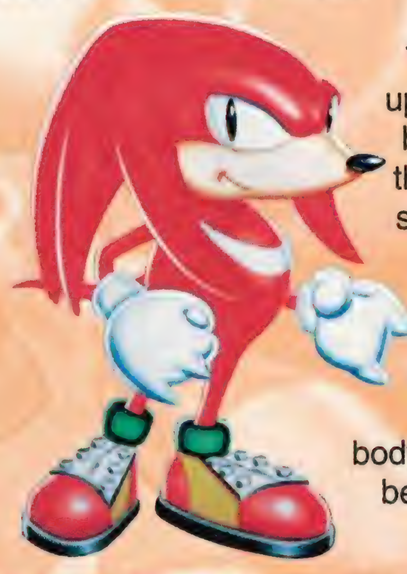

**AWESOME WINNER!**

**AWESOME WINNER!**

This has got to be one of the biggest games on the Mega Drive. With the option to plug existing Sonic carts into this new one, there's enough to keep any die hard games fan busy for a while. It certainly looks that way for Gordan and Emily Brants of Staines in Middlesex, who has discovered that you can plug Sonic The Hedgehog 1 into *Sonic and Knuckles*. ***When you plug the two together you will get a screen come up with Sonic, Knuckles, Tails and Dr. Robotnik, all telling you "No Way". At this point if you press A, B and C down at the same time on control pad one, the screen will now say "Get Blue Spheres". You will now have the following options of Start, Level and Code. From here you can now play as Sonic or Knuckles by changing the colour of the stars from blue to red, (press buttons A, B or C to do this).You can change the codes to access different levels of the special stage, when you are ready, press start to begin the level. Our friends from Middlesex also sent us this list of codes for the first fourteen levels.***

| | |
|---|---|
| ***Level 1 3659 8960 3263*** | ***Level 2 2965 3192 9023*** |
| ***Level 3 3610 2354 7327*** | ***Level 4 2921 0274 3999*** |
| ***Level 5 3737 7423 1487*** | ***Level 6 3053 9029 9071*** |
| ***Level 7 3698 8191 7375*** | ***Level 8 3009 6111 4047*** |
| ***Level 9 3482 7286 3167*** | ***Level 10 2809 6267 2575*** |
| ***Level 11 3454 5429 0879*** | ***Level 12 2765 3348 7551*** |
| ***Level 13 3582 0497 5039*** | ***Level 14 2898 2104 2623*** |

Thanks guys, keep up the work. We have been informed by the guys at Sega that some of them are up to level 850! ( yes, you did read it right, 850), and are still going strong. Is there anybody out there that can beat that!

## SONIC AND KNUCKLES MEGA DRIVE

# Micro Machines

MASTER SYSTEM

We've had all sorts of tips and codes for this brilliant race game, but none have been for the Master System. That is until now, because Jenny Rowan from Compton in Wolverhampton has been glued to the game in an attempt to bring us the following tips and cheats.

***1. Win Every Race.***
***On the first Breakfast Table circuit, turn round and do a lap the wrong way round. Now you'll automatically win every race, even if you don't finish first.***
***2. 5 Lives.***
***Fall off the bottom right hand corner of the Breakfast Table circuit to notch up five lives.***
***3. Slow Other Drivers.***
***To slow the other drivers down, Reverse off the top right hand corner of the Breakfast Table Circuit.***
***4. Better Grip.***
***Press up and Buttons 1 and 2 in the milk on the same circuit as before, for better grip.***
***5. Extra Speed.***
***Just as you're about to win the qualifying race, reverse over the finishing line. This will increase your speed in the subsequent races.***
***6. Track Select.***
***On the intro screen press Up, 2, Down, 2, 2, Left, 2, 2 then 2.***
***7. Harder Game.***
***Wait until you see the intro screen, then press Up, Down, Left, Right, Left, 2 then up.***
***8. Rock Hard Game.***
***Press Up, Down, Left, Right, Left, 2, Up, Up, 2, then Up on the intro. screen.***

# JUNGLE BOOK

MEGA DRIVE

Our friend Jenny from Wolverhampton, has also sent in this level select cheat for the stunningly graphic game *Jungle Book*.

***Jenny has informed us that if you wait till the Disney logo fades from the screen, then press Up, Down, Up, Down, Left, Right, and Start. A level select should now appear.***

Didn't she do well. Thanks for all those tips, it certainly sounds like you're keeping busy!

# CASTLEVANIA BLOODLINES

MEGA DRIVE

This letter was sent in by Simon Goram. He told us he's totally addicted to this Gothic horror game and, in his quest, he has managed to find this Extra Lives and Extra Level cheat.

***Enter into the options screen and set the options to the following. BMG setting to Five, and the Sound FX to 73. Now wait until the title screen appears and when it does press Start. Now press Up, Up, Down, Down, Left, Right, Left, Right, B and then A. You will now hear a chime, and, when you return to the options screen, you can select nine lives and also an expert level that's really tough.***

Fangs for that tip Simon, but no I don't find the daylight too bright! I suggest you buy a pair of sunglasses in future.

# BATTLECORPS

MEGA CD

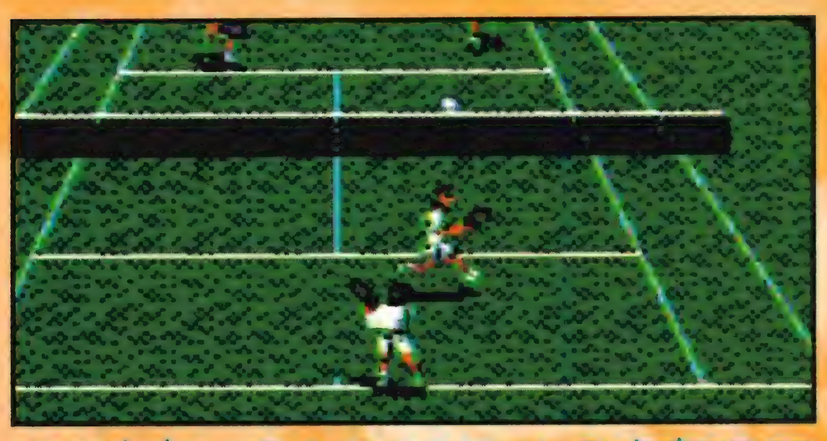

Our next letter, from Gary Rothwell of Bear Cross right here in sunny Bournemouth, congratulated us on an excellent magazine. He admits to being a big fan since ISSUE #1. There's devotion for you! Anyway Gary has informed us of a level select for this brilliant MEGA-CD game.

***First go to the "Practice Mode" and press pause. Then enter B, A, B, A, Right, A, C, Up, and Start. The screen will flash to indicate this little sequence has actually worked. Then a little map should appear back on the character select screen. Use this map to select a level.***

Thanks for that Gary. You'll want to keep up your collection of SEGA XS when you hear what's coming over the next few months I can assure you.

# PETE SAMPRAS TENNIS

MEGA DRIVE

Samantha Newham, from Hamilton in Scotland, sent in a cheat for this brilliant tennis game from our friends at Codemasters.

***In the human Vs human mode, get one player to play as Mr. Sampras. When it is your serve (not Pete's), use button A. As soon as you have served press diagonally Down and Right on the pad and Start all at the same time. This will make Pete storm over to the umpire and argue with him.***

Samantha also tells us she prefers Andre Aggassi and thinks he's well sexy — ooh I say, that's a bit steamy.

# NEW CODES CORNER!

**Remember to keep those codes coming in. With so many new games arriving on the scene, we're expecting a flood of letters from you Game Busters out there. If we think they are any good, you could find yourself the proud owner of an *Awesome SEGA Mega Drive Secrets III* book! This month we've found some codes of our own.**

POPULOUS II: TWO TRIBES

**Tactics**
Build two levels above the water. Try to keep the ground flat and build up your people who've settled on one level of land. You may struggle in the power stakes to begin with. However, when you reach enough manna to flood the enemies positions, the evil should be virtually destroyed.
If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# DOCTOR M.

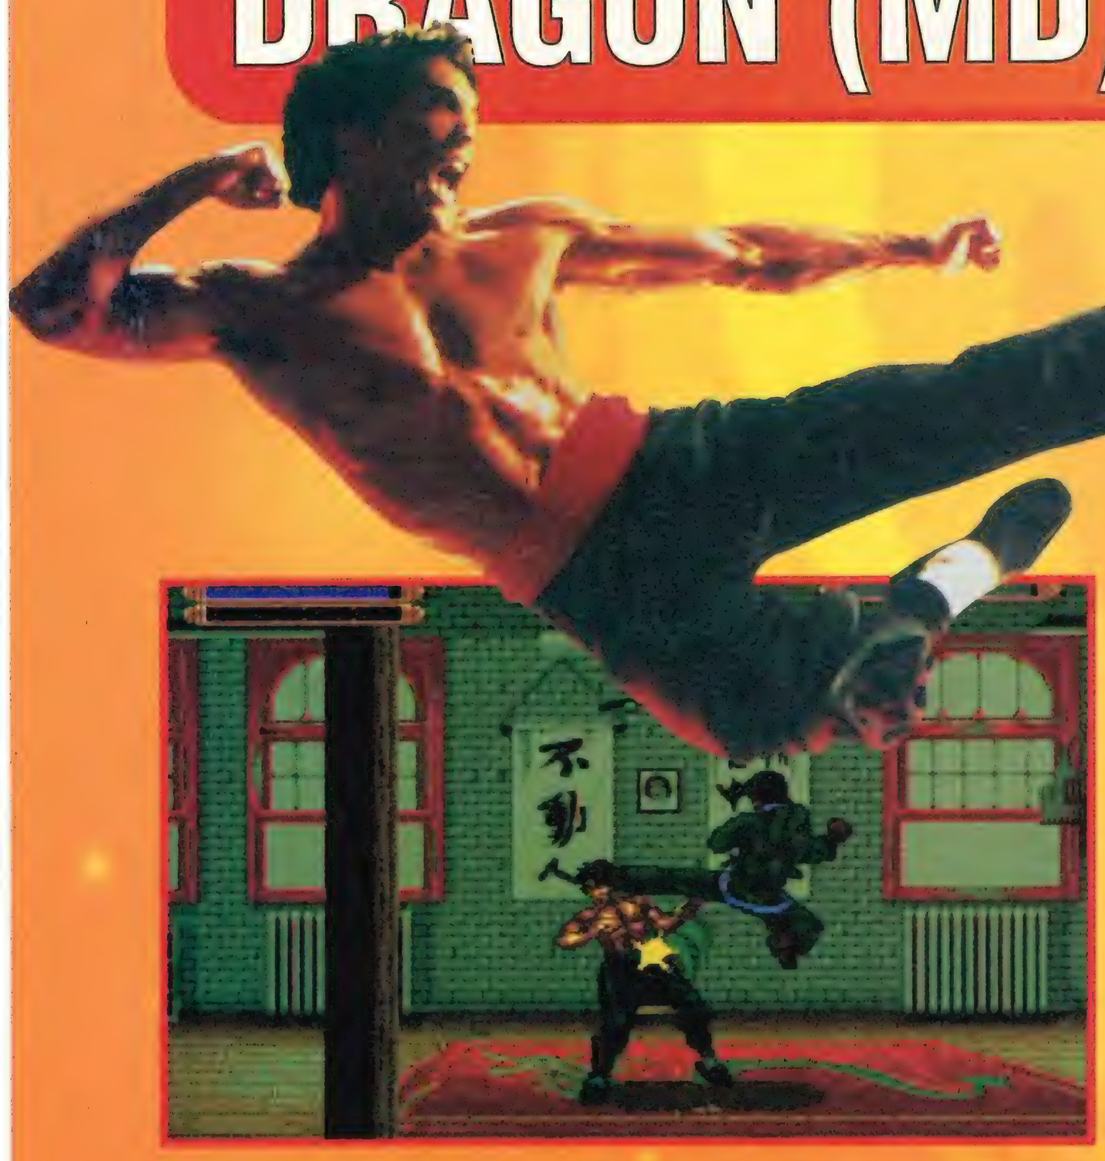

## "FROM OUTER SPACE, HE'S ON YOUR CASE!"

**A prosperous New Year to all you frustrated gamers. I hope you had a happy Yuletide and received truck loads of new games in your Christmas stockings. I have been full of the Christmas and New Year spirit, sitting in my games lab, busting all of next summers games and enjoying the odd tipple with my chums at SEGA XS. I know they are mere mortals but they do produce a top selling magazine and boy can they all drink!**

**Enough of those young scamps for now though and over to this months frustrated gamers. It's time to help all those who have written in to ask for a piece of my expansive knowledge. Before I go though, remember you too can write to Doctor M at the usual address, printed at the front of the mag.**

## DRAGON (MD)

**How can I get to the Nunchucku mode?**
**Alex Jeremy, Cornwall**

Now then young Sir, I have had a lot of mail on this very same subject, so here is a full explanation for you and the rest of the frustrated fight fans who wrote in. There are three fighting modes in the game for Bruce to beat the life out of his opponents with. The Chi Meter, located just underneath your energy bar, shows you the Mode you're on during the fight. The more you hit your opponent, the better your form becomes and the more the bar goes up. Every time you take a hit though, the bar goes down.

### Normal mode

This is the Mode you start the game on and it consists of your basic punches and kicks. It's a good idea to familiarise yourself fully with all the different moves at Bruce's disposal, while in this Mode. It's a useful enough Mode against the early, weaker opponents, but just wait until you see the Mantis Mode.

### Preying Mantis mode

In this mode not only are you twice as fast, but all your kicks and punches are much more powerful. You can also perform a backwards Roundhouse kick. The lightening speed in this Mode in a valuable asset in dealing with the enemy, causing a blur of kicks and punches at the touch of a button. On the down side you lose Chi whenever you launch an attack.

### Nunchuka Mode

The last and most powerful Mode gives you all the powers of the Praying Mantis as well as some handy Nunchuka, which you will need in the final level to kill the phantom. If you can build your Chi level up to this standard then you should be able to beat any opponent fairly easily. Even the toughest wilt under a Nunchuka attack!

# MARKO'S MAGIC FOOTBALL (MD)

**How can I defeat the final Guardian?**
**Jim Stewart-Bacon, Weymouth**

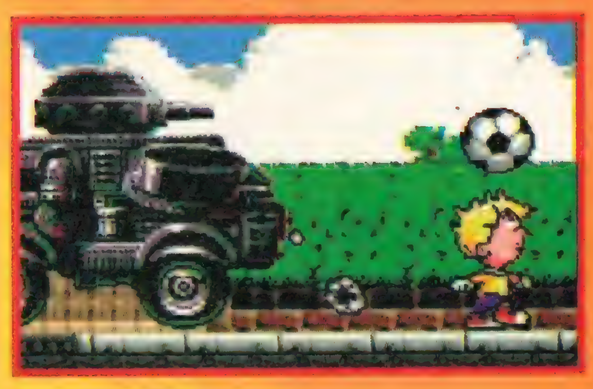

The final Guardian is indeed a force to be reckoned with, but the task is made simpler if you take note of the following instructions:

Run in from the left until the music changes. Drop to the floor and wait until three shots have gone over-head. Now get up and kick as many balls at the advancing Doctor as you can, before running like hell and diving to the floor again as he starts shooting.

When the boss hovers in the air, head the ball up into the air to hit him and when he comes back down to Earth, repeat the diving, waiting and kicking move. He's dispatched in around 20 hits so perseverance is the key.

# FIFA '95 (MD)

It's that sad reflective time of the year when turkey soup appears on the table every day and people make rash promises to themselves which they don't want to keep. No doubt your stocking was bulging with the latest carts on Christmas Day and what better way to compliment them than with the latest batch of cheats.

Most of the mail we had this month consisted of old cheats we'd already printed, so sorry if you don't see your cheat in the mag but don't be put off. There are plenty of cheats out there just waiting to be discovered. Keep the post coming in to the following address. **New Busters, SEGA XS, 124 Old Christchurch Rd, Bournemouth, BH1 1NF.** If we think your tips are good enough, you could be a winner of the rather excellent *Awesome SEGA Mega Drive Secrets III* book. Cor blimey Guv!

## SONIC SPINBALL (MEGA DRIVE)

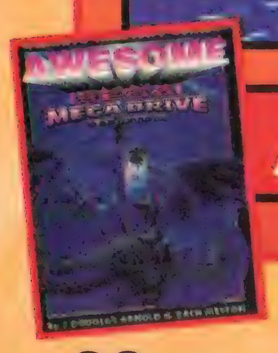

If I had a pie for every time someone asked me for a level select for *Sonic Spinball* I'd now own a pie megastore called *Pies R Us*. At long last it would seem I no longer have to shake my head and say 'sorry but no' and it's all thanks to Mark Ferries from Tyne and Wear.

***Go to options and press A, down, B, down, C down A B up A C up B C up. Then on the title screen hold A and press start to reach the level two, B and start to reach level three and C and start for level four .***

## SYLVESTER AND TWEETY (MEGA DRIVE)

# ECCO THE DOLPHIN MEGA CD

**LEVEL CODES**

I was going for a leisurely swim in the ocean the other day, minding my own business and well, what do you know? This Dolphin swims up to me, recognising me by my picture in the Mag and says, 'Oi, Mister! Would you be interested in all the level codes for *Ecco CD*? I was amazed and said "Why...Why that's simply impossible!" The dolphin looked at me with a knowing smile and replied "What, that I can talk?". "No" I said, " That you recognised me from the Mag!" The Dolphin said" The readers will think your insane when you tell them about this, to which I replied," Blibble, weee, Thatwang, Thatwang!" Anyway here are the codes.

# MORTAL KOMBAT II MEGA DRIVE

Mike Simmons from Derby has uncovered a lovely cheat for Mortal Kombat two. You have heard of Fatalities, Babalities and Friendships by now I would have guessed, but Fergality! No, you can't play as the Royal family but it is still a beauty of a cheat.

***Play Ooh Nasty on the Test Modes (accessed by selecting Done on the options screen and enteringL,D,L,R,,D,R,L,L,R,R).You must choose Rayden as your character and in the last round, use only kicks. When you are asked to Finish off the fight press Back, Back, Back, and Block . You will morph the loser into Fergus McGovern with an oversized head. Who? I hear you cry. Fergus is the managing director of Probe for your information.***

Cheers for that one Mike. You know your stuff when it comes to beat-'em-ups. *Mortal Kombat II* is a cheaters paradise, riddled with hidden bits and pieces. If you find any more, it might be worthy of a prize!

# LION KING MEGA DRIVE

# FANTASTIC DIZZY (MS)

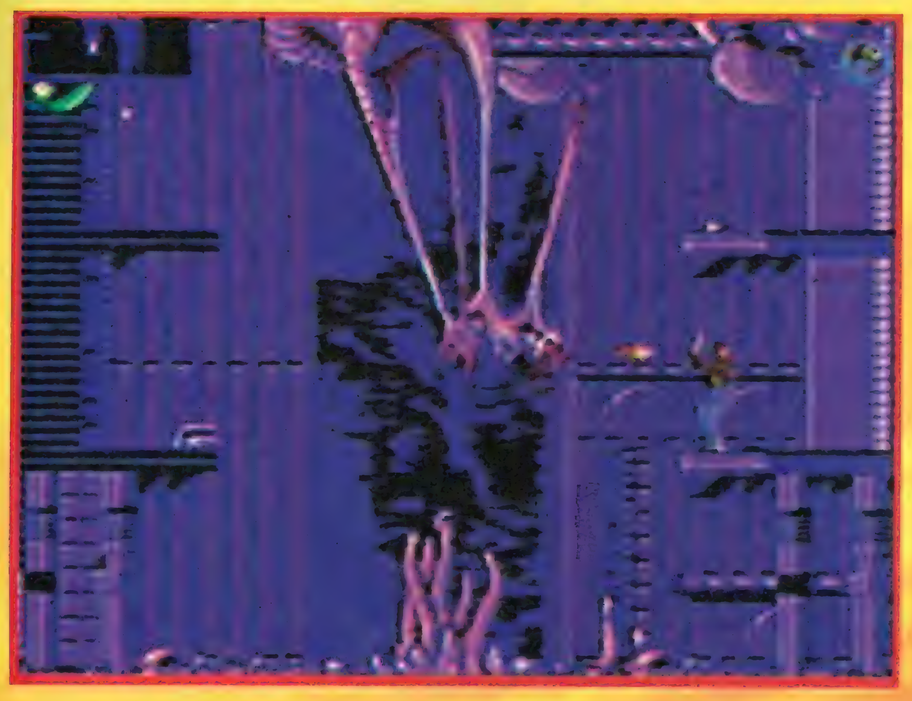

**How do I rescue Daisy once past the magic beam and what is the protective umbrella for?**
**Jenny Rowen, Wolverhampton**

Well Jenny, in answer to your second question first, you should have used the protective umbrella to shield you from the lava in the Diamond Mine level. If you didn't use it then you have gone through the game the hard way, which is typical of you pathetic human lifeforms!
In order to rescue Daisy, you must defeat Zaks. Stand over by the mirror and simply leap up when he shoots his lightning bolt. Do this until he is struck by the rebounding blast and is toasted. Now simply go up past him and walk over to Daisy in order to rescue her.

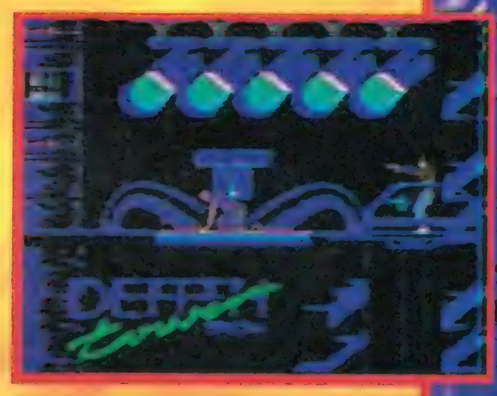

# FLASHBACK(MD)

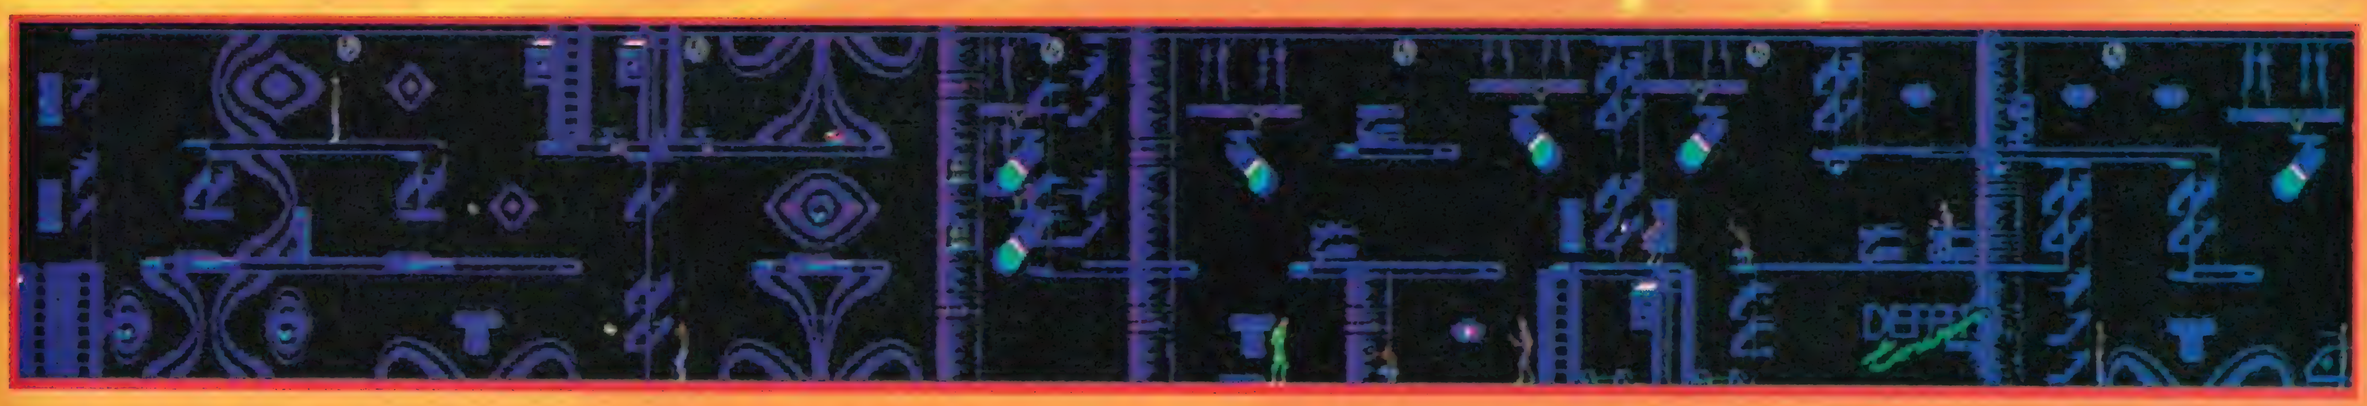

**How do I place the atomic charge in the final level?**
**C. Woodman, Swansea**

I know the task of placing the final charge is not too obvious for a moron but here's how to do it. Simply go down to the end of the final corridor where something tells Conran to place the charge here. Drop the charge on the floor and it will be taken down to the depths of the Planet by the lift. Do not jump down the hole in order to follow it, you have done what is required to place the charge so all that remains is to run like crazy to the far right hand side of the main floor above. When you get to the end zone, press your B button and push Up on the D-pad to escape to the waiting space craft.

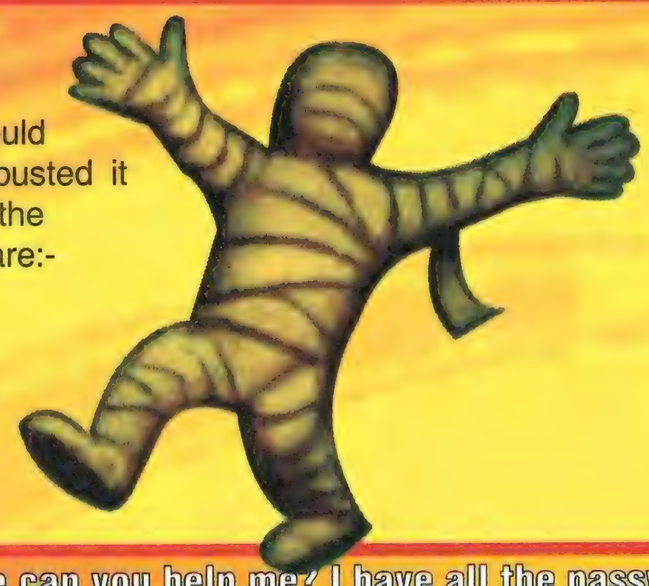

# ZOMBIES (MD)

**I'm really stuck, can you give me the passwords?**
**Janet Broomhall, Telford**

I certainly can tell you the passwords my dear, although it beats me why you would need them for such an easy game. I busted it wide open with my first life - but then I am the greatest living gamesplayer! The passwords are:-

**VYTV**
**VQBB**
**SDHM**
**PCFD**
**QNKR**

# DUNE II (MD)

**Please can you help me? I have all the passwords for House Atredies, and a few for House Harkonnen, but I desperately need the rest.**
**Albert Henry Micheal Davidson, Totnes**

Boy oh Boy you have got a long name haven't you. Did the vicar at your Christening have a great love of poetry or did your parents win a bet by calling you by such a ridiculous name? I'm sure you won't mind the great Dr M calling you Al for short will you? Anyway, enough of these personal slurs on your character Al, here are the passwords you require.

**HOUSE ORDOS**

| | |
|---|---|
| 1 | DOMINATION |
| 2 | SPICESABRE |
| 3 | ARRAKISSUN |
| 4 | COLDHUNTER |

# SUPER MONACO GRAND PRIX (MD)

**Are there any cheats for this great budget racing game that I have recently picked up?**
**Trevor Lewis, Gainsbourgh**

Yes my young friend, there is a cheat for this classic Mega Drive racer. Enter the following passwords to be with the best F1 driving team and have previous World Championship wins and loads of driver's points.

**PASSWORDS**

| | | | |
|---|---|---|---|

| CA89 | EGC1 | 0000 | 0002 |
| 0000 | 0000 | F200 | 2CAC |

I bet you can't believe I'm being so nice to you. To make up for it I think I'll call you a snivelling little worm, not worthy of being squashed under one of my Moonboots. Aah I feel so much better now... so until next issue may you all be struck down by Zargonian flesh eating parasites and may the resulting pus-ridden sores explode and infect your whole family (We accept no responsibility for Dr M's sickening personality traits - Ed)!

# NEW BUSTERS

It's time once again to make decent cheats out of you all and give you the latest in busting news. A healthy crop of letters has arrived on my desk this month, and I am delighted to see you are all busy and eager to share your knowledge with the rest of the Sega gaming world. Unusual cheats for the 32X have not yet surfaced, which is a shame, but the hardware has hardly been on the streets for more than five minutes, so a patient man I must remain.

**To get hold of all the codes for all the Sega games you'll need the book that came free with Issue #14. Check out the Back Issues page for details or call Karen on 0202 299900.**

If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

**Tactics**
Build two levels above the water. Try to keep the ground flat and build up your people who've settled on one level of land. You may struggle in the power stakes to begin with. However, when you reach enough manna to flood the enemies positions, the evil should be virtually destroyed.
If evil invades your land, take away land instead of building up. Then, when they have moved, fill it in again. Doing this to drives evil off your territory.
When you gain enough manna to swamp, do so on the flat land it takes longest to get to. This should wipe out loads of evil walkers. This tactic is best employed either straight away or just before you want to claim Armageddon.**Passwords**

# XS CODES

**How we manage to cram all the codes into this section is still a mystery. Here you will find all the best codes for the Datel Action Replay and Hornby Hobbies Game Genie. No other magazine regularly prints ALL the codes you will ever need. Every code printed here can only be used with the relevent device. You CANNOT press F, F, 1, B, Ø, 4 on the joypad – just in case there were any of you still trying to get them to work. You MUST have an Action Replay, or a Game Genie, to make full use of these codes. Both devices are available from our Super Savers at the back of the magazine.**
